Pentadbiran undang-undang Islam di Malaysia Zaini Nasohah, 2004 Institutionalization of Islamic law before and after Malaysian independence **The Qur'an in the Malay-Indonesian World** Majid Daneshgar, Peter G. Riddell, Andrew Rippin, 2016-06-10 The largely Arabo centric approach to the academic study of tafsir has resulted in a lack of literature exploring the diversity of Qur'anic interpretation in other areas of the Muslim majority world The essays in The Qur'an in the Malay Indonesian World resolve this aiming to expand our knowledge of tafsir and its history in the Malay Indonesian world Highlighting the scope of Qur'anic interpretation in the Malay world in its various vernaculars it also contextualizes this work to reveal its place as part of the wider Islamic world especially through its connections to the Arab world and demonstrates the strength of these connections The volume is divided into three parts written primarily by scholars from Malaysia and Indonesia Beginning with a historical overview it then moves into chapters with a more specifically regional focus to conclude with a thematic approach by looking at topics of some controversy in the broader world Presenting new examinations of an under researched topic this book will be of interest to students and scholars of Islamic studies and Southeast Asian studies *Islamic Heritage Architecture and Art II* G Passerini, 2018-07-18 Papers presented at the 2nd International Conference on Islamic Heritage Architecture and Art are contained in this volume The conference attracted important research highlighting the significance of Islamic heritage architecture and art to the world and its influence across different regions The papers deal with the design of many types of buildings in Islamic countries including not only the better known public buildings like mosques mausolea citadels and forts but also houses and gardens engineering works such as bridges and dams irrigation systems and many others which have also had a profound impact on society Traditional architecture and urban environment in most Islamic countries is now being eroded by overemphasis on a global type of architecture and city planning As a consequence many regions are losing their identity The included studies review these developments in the light of what classical Islamic urban design and architecture has to offer modern society Research contained in this book provides an analysis of the materials employed and the types of structural elements used particularly those unique to Islamic architecture Associated topics covered include music textiles and ceramics which are essential parts of the architectural fabric Also looked at are construction materials including not only stone and brick but also more perishable materials like adobe wood and reeds The preservation of heritage features also requires the development of appropriate conservation techniques in response to the different materials used and the ways structural forms work including under extreme conditions such as earthquakes Academics researchers practitioners and government employees actively involved in the topic of Islamic heritage architecture and art will find this publication of interest *Pengembangan Kurikulum Sejarah Kebudayaan Islam dengan Pendekatan Total History: Urgensi, Relevansi, dan Aktualisasi* Fahri Hidayat, 2020-12-05 Di antara problem kurikulum Sejarah Kebudayaan Islam SKI adalah belum optimalnya pendekatan ilmu

sejarah dalam pengembangan materinya Problem ini menjadi alasan mengapa cita rasa kurikulum SKI terkesan menjadi sebagai sebuah cerita story dari pada sejarah history Ilmu sejarah adalah kajian akademis yang bertujuan merangkai puzzle peristiwa peristiwa masa lampau menjadi sebuah bangunan pengetahuan yang utuh Rangkaian puzzle tersebut meliputi perjalanan umat manusia mulai dari pemikiran agama sistem ekonomi sosial politik sampai dengan kebudayaan Buku ini merupakan ikhtiar akademis untuk menjawab problem tersebut Buku ini bukan hanya menjelaskan teori dan konsep tentang pendekatan total history dalam kurikulum SKI namun juga menerapkan teori tersebut dengan menata ulang batu bata sejarah Islam menjadi sebuah bangunan materi yang disusun dari berbagai sudut pandang Kajian di dalam buku ini sangat penting terutama bagi mahasiswa guru SKI dosen dan praktisi pendidikan

Islamic Education in Indonesia and Malaysia Azmil Tayeb, 2018-03-13 Despite their close geographic and cultural ties Indonesia and Malaysia have dramatically different Islamic education with that in Indonesia being relatively decentralized and discursively diverse while that in Malaysia is centralized and discursively

restricted The book explores the nature of the Islamic education systems in Indonesia and Malaysia and the different approaches taken by these states in managing these systems The book argues that the post colonial state in Malaysia has been more successful in centralising its control over Islamic education and more concerned with promoting a restrictive orthodoxy compared to the post colonial state in Indonesia This is due to three factors the ideological makeup of the state institutions that oversee Islamic education patterns of societal Islamisation that have prompted different responses from the states and control of resources by the central government that influences centre periphery relations Informed by the theoretical works of state in society relations and historical institutionalism this book shows that the three aforementioned factors can help a state to minimize influence from the society and exert its dominance in this case by centralising control over Islamic education Specifically they help us understand the markedly different landscapes of Islamic education in Malaysia and Indonesia It will be of interest to academics in the field of Southeast Asian Studies Asian Education and Comparative Education
