CT Suite Barry F. Saunders, 2008-12-15 An ethnography of a hospital's CT Computed Tomography department that examines how medical imaging alters our ideas about the human body The CT Handbook: Optimizing Protocols for Today's Feature-Rich Scanners Timothy P. Szczykutowicz, 2020-05-01 This text covers everything from the basic x-ray photon interactions of CT to scheduling patients and properly organizing and displaying protocols After reading this book radiologists should have enough confidence to suggest changes to their CT protocol optimization teams Likewise non-radiology practitioners who use CT as part of their practice e.g. radiation therapy physicists oncologists cardiologists dentists surgeons researchers etc will find this text helpful in getting better image quality from their equipment This text doesn't shy away from comparing features from different vendors Providing vendor-specific information allows one to gain real-world insight into MDCT scanner reconstruction and AEC operation **Medical Image Computing and Computer-Assisted Intervention -- MICCAI 2015** Nassir Navab, Joachim Hornegger, William M. Wells, Alejandro Frangi, 2015-09-28 The three-volume set LNCS 9349, 9350, and 9351 constitutes the refereed proceedings of the 18th International Conference on Medical Image Computing and Computer Assisted Intervention MICCAI 2015 held in Munich, Germany, in October 2015 Based on rigorous peer reviews the program committee carefully selected 263 revised papers from 810 submissions for presentation in three volumes The papers have been organized in the following topical sections: quantitative image analysis I segmentation and measurement; computer-aided diagnosis; machine learning; computer-aided diagnosis automation; quantitative image analysis II classification; detection; features and morphology; advanced MRI; diffusion; fMRI; DCE; quantitative image analysis III motion deformation; development and degeneration; quantitative image analysis IV microscopy; fluorescence and histological imagery; registration; method and advanced applications; reconstruction; image formation; advanced acquisition; computational imaging; modelling and simulation for diagnosis and interventional planning; computer-assisted and image-guided interventions **Coronary CT Angiography** Marc Dewey, 2008-10-14 Coronary CT angiography has attained increasing scientific attention at academic institutions and has become a highly accurate diagnostic modality Extending this knowledge into a practice setting is the purpose of *Coronary CT Angiography* This book will assist you in integrating cardiac CT into your daily practice while also giving an overview of the current technical status and applications The specific features of scanners from all four main vendors are also presented providing an objective overview of noninvasive coronary angiography using CT **Picture Archiving and Communication Systems (PACS) in Medicine** K.S. Chuang, H.K. Huang, O. Ratib, A.R. Bakker, G. Witte, 2013-06-29 This volume contains the proceedings of the NATO Advanced Study Institute on Picture Archiving and Communication Systems (PACS) in Medicine held in Evian, France, October 14-26, 1990 The program committee of the institute consisted of H.K. Huang (Director), Osman Ratib, Albert Bakker, and Gerd Witte This institute brought together approximately 90 participants from 15 countries These proceedings are the accumulation of eight years of research

and development results in PACS by various dedicated groups throughout the world The purpose of this institute was to review the most recent technology available for PACS and some clinical results The readers should notice the remarkable advances in this field by comparing the contents in these proceedings with those in a previous institute on Pictorial Information Systems in Medicine held August 27 September 7 1984 in Braunlage Harz Federal Republic of Germany and published as Vol 19 in this series The institute was organized according to four categories PACS components and system integration PACS and related research in various countries and manufacturing companies clinical experience and research support and participants scientific communications In PACS components we included image acquisition workstations data storage and networking In system integration topics on interfaces between Hospital Information System HIS Radiology Information System RIS and PACS clinical reports the ACR NEMA standard databases reliability and system integration were discussed This lecture series emphasized the technical detail and how to aspects

Intraoperative Imaging M. Necmettin Pamir, Volker Seifert, Talat Kiris, 2010-10-20 Intraoperative imaging technologies have taken an ever increasing role in the daily practice of neurosurgeons and the increasing attention and interest necessitated international interaction and collaboration The Intraoperative Imaging Society was formed in 2007 This book brings together highlights from the second meeting of the Intraoperative Imaging Society which took place in Istanbul Turkey from June 14 to 17 2009 Included within the contents of the book is an overview of the emergence and development of the intraoperative imaging technology as well as a glimpse on where the technology is heading This is followed by in detail coverage of intraoperative MRI technology and sections on intraoperative CT and ultrasonography There are also sections on multimodality integration intraoperative robotics and other intraoperative technologies We believe that this book will provide an up to date and comprehensive general overview of the current intraoperative imaging technology as well as detailed discussions on individual techniques and clinical results

Artificial Intelligence in Acute Neurology Tarun Singh, Alejandro Rabinstein, 2025-05-14 In recent years the intersection of artificial intelligence AI and neurology has led to extraordinary advancements in the diagnosis treatment and management of acute neurological conditions AI driven technologies such as machine learning algorithms and deep neural networks have shown immense promise in transforming the landscape of acute care for patients facing neurological emergencies This special issue aims to provide a comprehensive platform for researchers to showcase their cutting edge work and explore the transformative potential of AI in acute neurology The goal of this Research Topic is to shed light on the remarkable strides made in AI applications within acute neurology and emphasize their critical role in addressing existing gaps in patient care As we move towards an era of personalized medicine AI based tools have the potential to revolutionize early detection diagnosis and treatment decision making in acute neurological scenarios By sharing your novel findings and perspectives you will contribute to bridging the gap between AI research and clinical practice fostering evidence based approaches to improve patient outcomes

Patellofemoral Disorders Roland M. Biedert,2005-07-08 Patellofemoral complaints are a major problem for all those working in sports medicine and orthopaedics The correct diagnosis at an early stage is essential if subsequent treatment is to be successful and secondary complications are to be avoided Written by an internationally known team of experts this book looks at the various diagnostic techniques currently available cites examples of unsuccessful treatments and proposes the most appropriate ones on the proven basis of the latest research The core of the book is the 20 case studies ranging from simple non operative treatment to multi operated patients with salvage procedures The underlying theme of the book is that treatment of patellofemoral problems must in the first instance be somewhat conservative Surgical interventions should be performed in a response to a clear underlying pathology and only after non operative treatment has failed Patellofemoral Disorders is enhanced by the inclusion of some superb specially drawn illustrations and numerous colour photographs in the case studies section
