Habif Clinical Dermatology 5th Edition:

The general practitioner's bible Enrique Mendoza Sierra, 2020-05-06 This book describes the diseases that are most frequently encountered during general medical consultation. The discussion of each condition includes the following: Introductory paragraph. This section summarizes the condition, its definition, main clinical characteristics, and epidemiology as a quick guide for the doctor regarding the specific disease, the type of people who may suffer from it, and its prognosis. Etiopathogenesis. Here the causes of the disease are explained in a simple and concrete manner to give the doctor a clearer picture of the pathology of the disease. Signs and symptoms. In this section the most significant characteristics of the disease are described, which makes it possible to identify and differentiate the disease from other similar ones. Diagnosis. This section provides the key information to establish the diagnosis of each condition. In most cases the clinical information is explained in such a way that neither laboratory nor office testing will be required. Treatment. This section contains a concise listing of the most effective, current, accessible, and least toxic drugs to treat the disease, together with dosages for adults and children where applicable, in addition to the length of time that the drug should be taken. Almost all of the drugs described are available in generic form, which is an important economic consideration for the patient. In Mexico and many other countries the quality of these products is verified by bioequivalence tests to compare the activity of the patent drug with the generic one. Most physicians need to prescribe fewer than 100 different drugs for their various patients. Therefore, it is much more important, especially in terms of patient safety, that the doctor have in-depth prescription information about a few drugs than to know a little about a wide range of drugs that he/she may never have the opportunity to prescribe.

Habif Clinical Dermatology E-Book James G. H. Dinulos, 2019-12-10 Trusted by general dermatologists, family physicians, nurse practitioners, physician assistants, and more, *Habif's Clinical Dermatology: A Color Guide to Diagnosis and Therapy* provides superbly illustrated, easy-to-follow guidance on skin conditions commonly seen in practice. This bestselling manual helps you identify, treat, and manage even hard-to-diagnose skin disorders and provides state-of-the-art answers on every aspect of dermatologic care. In this carefully revised 7th Edition, Dr. James Dinulos builds upon the foundation of excellence established by Dr. Thomas Habif, ensuring that this manual remains a global leader in the field and an indispensable resource in daily practice. Allows you to compare your clinical findings to thousands of high-quality color images, including many new photographs from the libraries of Dr. Dinulos and Dr. Habif, depicting virtually any skin condition. Features a highly visual Regional DDx Atlas section that helps you narrow down diagnoses and directs you to the section in the text that provides more information. Online the DDx Mannnequin provides this same function. Provides a Disorders Index for quick retrieval of information, as well as a Quick Reference Formulary at the beginning of the book. Updates you on the newest treatment options throughout, including current uses and off-label treatments. Includes numerous quick-reference tables that summarize need-to-know diagnostic and therapeutic evidence. Enhanced eBook version included with purchase. Your enhanced eBook
