Hollywood In The New Millennium International Screen Industries:

Hollywood in the New Millennium Tino Balio, 2017-11-07 Hollywood is facing unprecedented challenges and is changing rapidly and radically as a result. In this major new study of the contemporary film industry, leading film historian Tino Balio explores the impact of the Internet, declining DVD sales, and changing consumer spending habits on the way Hollywood conducts its business. Today the major studios play an insignificant role in the bottom lines of their conglomerate parents and have fled to safety, relying on big budget tentpole franchises and family films to reach their target audiences. Comprehensive, compelling, and filled with engaging case studies, *Time Warner DreamWorks SKG Spider Man The Lord of the Rings IMAX Netflix Miramax Sony Pictures Classics Lionsgate and Sundance*, *Hollywood in the New Millennium* is a must read for all students of film studies, cinema studies, media studies, communication studies, and radio and television. Latin American Film Industries Tamara L. Falicov, 2019-06-27 Film production in Latin America is as old as cinema itself, but local film industries have always been in a triangulated relationship with Hollywood and European cinema. This book situates Latin American film industries within the global circulation of film production, exhibition, and distribution, charting the changes that the industries have undergone from the sound era to the present day. Focusing in particular on Argentina, Brazil, and Mexico, Tamara Falicov examines commonalities among Latin American film industries, such as the challenges of procuring funding, competition from Hollywood, state funding battles, and the fickle nature of audiences, as well as censorship issues, competition from television, and the transnational nature of Latin American film. She addresses production, exhibition, and distribution contexts and financing, and co-production with Europe and the United States, as well as the role of film festivals in funding and circulating films both within and outside of Latin America. Newer trends, such as the revival of protectionist measures like the screen quota, are framed in contrast to the U.S.'s push for trade policy liberalization and issues of universal concern, such as film piracy and new technologies, and the role of television in helping and hindering Latin American cinema. *Supply Chain Cinema* Kay Dickinson, 2024-02-08 Why are big budget films typically made across an array of seemingly dissociated sites? *Supply Chain Cinema* shows how the production journeys of such films exemplify the principles of the supply chain, whose core imperative is to nimbly and opportunistically manufacture wherever is most amenable and efficient. Through extensive on-site investigations and in-depth interviews with film professionals, Kay Dickinson delivers nuanced insight into working practices in the UK and the UAE. Among the sites she examines is Warner Bros' permanent base at Leavesden Studios near London. From tax breaks designed to attract foreign projects to infrastructures, logistical support, and expertise offered, she considers why Hollywood giants elect to make more of their films in Britain than in the USA. Dickinson goes on to show how the UK's ambitions to enlarge its creative economies has opened up a host of competitive advantages, with British higher education increasingly fashioned to conform to the needs of border-hopping enterprise, thus generating a workforce keenly adapted to the demands of blockbuster moviemaking. *Global Media Policy in the New Millennium* Marc
