Managing Innovation Joe Tidd, John R. Bessant, 2018-06-05 Managing Innovation is the bestselling text for graduate and undergraduate students and a classic in the field. Emphasizing practical evidence-based tools and resources, this title provides students with the knowledge base to successfully manage innovation technology and new product development. The holistic approach addresses the interplay between the markets, technology, and the organization while relating the unique skill set required to manage innovation and innovation processes. The sixth edition of Managing Innovation continues to include the popular Innovation in Action sections in each chapter, which are now newly titled Case Studies, and also features a number of new cases, updated and new research notes and references, and links to videos, audio interviews, activities, and case studies. The sixth edition also features new material on emerging innovation themes, including business model innovation, user innovation, crowd sourcing, creativity, entrepreneurship, service innovation, public services, and more. The rapid pace of the field's evolution has brought an increase in multi-disciplinary approaches and skills while expanding the available tool kit and pushing the boundaries of possibility forward. This text provides expert navigation through the abundance of new data, new methods, new concepts, and approaches, but it is designed to encourage and support tailored experimentation, not replace it. Equipped with a strong foundation and a productive innovation management mindset, today's students will be equipped to bring about the era's next great advances.

Handbook of Media Management and Economics Alan Albarran, Bozena Mierzejewska, Jaemin Jung, 2018-04-27. Winner of the 2019 Robert Picard Book Award. The Handbook of Media Management and Economics has become a required reference for students, professors, policy makers, and industry practitioners. The volume was developed around two primary objectives: assessing the state of knowledge for the key topics in the media management and economics fields and establishing the research agenda in these areas, ultimately pushing the field in new directions. The Handbook's chapters are organized into parts addressing the theoretical components, key issues, analytical tools, and future directions for research. With its unparalleled breadth of content from expert authors, the Handbook provides background knowledge of the various theoretical dimensions and historical paradigms and establishes the direction for the next phases of research in this evolving arena of study. Updates include the rise of mobile and social media, globalization, audience fragmentation, and big data.
