The final straw was the appeal by the Prussian Commander in Chief to the French Revolutionaries to submit to their king again. In the event of violence being used against the royal family and the royal Palais des Tuileries the Manifeste de Brunswick threatened bloody retaliation including the destruction of Paris. The furious French population and the Revolutionaries took this as proof that their king was collaborating with the kings of Prussia and Austria. They demanded that the National Assembly depose him by 9 August. When parliament could not make up its mind, on 10 August the impassioned population of Paris and the National Guards who had gone over to the Revolutionary side marched on the Palace of the Tuileries to the sound of the Marseillaise.

The French Revolution Charles MacFarlane, 1845 Ten Letters to Dr. J. Priestly, in answer to his letters to the inhabitants of Northumberland Noah Webster, 1800 THE RIGHTS OF MAN: The French Revolution - Ideals, Arguments & Motives (Political Classic) Thomas Paine, 2016-07-08 The French revolution Thomas Carlyle, 1897 Rights of man; being an answer to Mr. Burke's attack on the French revolution Thomas Paine, 1856 **THE RIGHTS OF MAN: The French Revolution - Ideals, Arguments & Motives** Thomas Paine, 2017-05-29

Thomas Paine's Rights of Man is born from his need to defend social mutiny and it posits that popular political revolution is permissible when a government does not safeguard the natural rights of its people. Using these points as a base, Paine defends the French Revolution against Edmund Burke's attack in *Reflections on the Revolution in France*. Paine argues that the interests of the monarch and his people are united and insists that the French Revolution should be understood as one which attacks the despotic principles of the French monarchy, not the king himself. Principally, Rights of Man opposes the idea of hereditary government, the belief that dictatorial government is necessary because of man's corrupt essential nature. Rights of Man concludes in proposing practical reformations of English government: a written Constitution composed by a national assembly, the elimination of aristocratic titles because democracy is incompatible with primogeniture.

Thomas Paine's intellectual influence is perceptible in the two great political revolutions of the eighteenth century. He dedicated Rights of Man to George Washington and to the Marquis de Lafayette, acknowledging the importance of the American and the French revolutions in his formulating the principles of modern democratic governance. Thomas Paine (1737-1809) was an English American political activist, philosopher, political theorist, and revolutionary. One of the Founding Fathers of the United States, he authored the two most influential pamphlets at the start of the American Revolution and he inspired the rebels in 1776 to declare independence from Britain. Paine's ideas reflected Enlightenment era rhetoric of transnational human rights. *Rights of Man, Being an Answer to Mr. Burke's Attack on the French Revolution... by T. Paine...* Thomas Paine, 1792
