"Samba Em Polka" ~~Em Polka~~

Esperanza

Because Samba ~~Em Polka~~ doesn't have a traditional score below is an analysis of the structure.

Section	SCORE ANALYSIS
Intro Measures 1-3	The piece opens with a free tempo bass solo. Notice the bar of 5/4 and the use of pauses. Notice that there are lots of semi quaver passages in the intro which are mainly made up of broken chords. Notice the B minor key signature at the beginning. 
Verse 1 Measures 4-21	The first and second stanza in this section are only 8 bars long (not 16) because of the slow tempo. There is a triplet rhythmic feature in the melody.  One of the techniques found in the acoustic bass part is double stopping. This is where more than one note is played at a time.  There is a sparse texture with just vocals and bass but notice that even here it is contrapuntal. Look at how arpeggio figures and broken chords are used.

Engaging Students with Music Education Pete Dale, 2017-03-27 *Engaging Students with Music Education* is a groundbreaking book about using DJ decks and urban music in mainstream schools to re engage disaffected learners and develop a curriculum which better reflects overall contemporary tastes Many young learners are at risk of exclusion this book argues that for such individuals the implications of such a shift in the music curriculum could be especially positive Drawing extensively on the author's own wealth of teaching experience and bridging the gap between practice and theory this book demonstrates through case studies that DJ decks can prove extremely valuable in mainstream classroom situations across the secondary school age ranges Addressing challenging and crucial topics combining rigorous theoretical analysis with practical suggestions the book addresses questions such as Are DJ decks

actually a musical instrument and are they suitable for classroom teaching Will Ofsted's school inspectors approve of music teaching involving DJ decks and urban music If we bring urban music into the classroom will this further marginalise classical music Are DJing and MCing skills recognised within examination specifications at least in the UK Current teachers will find the practical advice on how to incorporate DJ decks and urban music into their classroom especially helpful whilst educational researchers will be captivated by the critical discussion of the child centred tradition and a theoretical approach which stretches from continental philosophy to practice based reflection With an insistence that the starting point for music education should always be the interests and experiences of the learners this book is essential reading for those music teachers and researchers interested in the benefits of non standard music making in the classroom Learning to Teach Music in the Secondary School Chris Philpott, 2001 Learning to Teach Music in the Secondary School is intended to support student teachers newly qualified teachers and more experienced music teachers in their professional development Topics covered include the place of music in the curriculum the nature of musical learning planning managing and assessing musical learning school examinations and music music outside of the curriculum One of the main premises of the book is that music needs to be taught musically with specific reference to both the nature of music itself and its metaphorical significance It is important that music itself guides what goes on in the music classroom if we are to motivate our pupils and help them to fulfil their potential as musicians This book will help student teachers to develop their subject knowledge teaching skills understanding of the wider issues and their ability to reflect on classroom practice *Learning to Teach Music in the Secondary School* Christopher Philpott, Gary Spruce, Senior Lecturer in Education Gary Spruce, 2005-08-12 Packed full with tasks activities and reflections to help student teachers to integrate the theory and practice of music education this book aims to develop open and reflective practitioners who will critically examine their own and others ideas about music education and the way in which children learn music *Musical Vulnerability* Elizabeth H. MacGregor, 2024-12-24 Since the early twenty first century music education across the world has been shaped by neoliberal discourse extolling the benefits of music upon academic achievement health and wellbeing and social development However such benefits are far from universal on the contrary music making often reveals our shortcomings and dependencies This highlights an urgent need for music education to be reframed by an understanding of musical vulnerability our inherent and situational openness to being affected by the semantic and somatic properties of music making Drawing on existing vulnerability studies this book evaluates how musicmaking can foster both positive receptivity and negative susceptibility depending on its delineation of self identity social identity and space and its embodiment through aural receptivity mimetic participation and affective transmission Through phenomenological ethnographic research with teachers and pupils it exposes how values espoused in the music classroom require the personal and interpersonal negotiation of conflicting musical expectations identities and abilities It makes recommendations for music education policymakers teachers and researchers in diverse global contexts

suggesting the importance of developing pedagogies of vulnerability in order to foster caring classroom music making praxes that acknowledge music's capacity both to heal and to harm
