Bucholz,2006 *Foundations of Western Civilization II: A History of the Modern Western World* , The great nations of Europe are forced to re evaluate their positions Gradually often reluctantly and sometimes violently they divest themselves of overseas colonies accommodate themselves to a precarious existence between the superpowers and concentrate on rebuilding their economies

The Christian Roots of Individualism Maureen P. Heath,2019-11-28 The modern West has made the focus on individuality individual freedom and self identity central to its self definition and these concepts have been crucially shaped by Christianity This book surveys how the birth of the Christian worldview affected the evolution of individualism in Western culture as a cultural meme Applying a biological metaphor and Richard Dawkins definition of a meme this work argues the advent of individualism was not a sudden innovation of the Renaissance or the Enlightenment but a long evolution with characteristic traits This evolution can be mapped using profiles of individuals in different historical eras who contributed to the modern notion of individualism Utilizing excerpts from original works from Augustine to Nietzsche a compelling narrative arises from the slow but steady evolution of the modern self The central argument is that Christianity with its characteristic inwardness was fundamental in the development of a sense of self as it affirmed the importance of the everyday man and everyday life

Foundations of Western Civilization II: A History of the Modern Western World , Industrialization is the material product of an age of scientific advance But science with its emphasis on empirical evidence reason and experimentation also revolutionizes how Europeans think as one after another fundamental

beliefs and traditions are challenged **Foundations of Western Civilization II: A History of the Modern Western World** , We look at how the physical realities of Europe and the Atlantic world its geography and climate shaped its destiny by affecting patterns of population immigration diplomacy war and political and cultural divisions **Foundations of Western Civilization II: A History of the Modern Western World** , The rapid mobilization of Russia and the determined resistance of France ruin Germany s plans for quick victory The new inventions of the second Industrial Revolution give the defensive side all the advantages and the armies of Europe are locked into a bloody stalemate of trench warfare

Foundations of Western Civilization II: A History of the Modern Western World , The appalling conditions of life and work for the working class produce a series of intellectual and political reactions in Western Europe with the best routes to reform the subject of wide ranging debate among liberal thinkers Foundations of Western Civilization II: A History of the Modern Western World , The start of the Great War is greeted by cheering crowds and floods of volunteering men all over Europe For some the reasons involve nationalism and patriotism for others it s a chance to flee a stagnant economy or find answers for a society and culture in flux **Foundations of Western Civilization II: A History of the Modern Western World** , At the dawn of the 21st century the European legacy of democracy capitalism and relative freedom for the individual is challenged by internal and external movements including the rise of religious fundamentalism international terrorism tensions over immigration and integration into a global economy Will European ideals survive **Foundations of Western Civilization II: A History of the Modern Western World** , Its final effort to win the war thwarted and facing food and fuel shortages Germany finally agrees to an armistice The ensuing peace conference produces a treaty that will weaken the German
