For the last couple of years Google AdSense has dominated forums discussions and newsletters all over the Internet Already there are tales of fabulous riches to be made and millions made by those who are just working from home It seems that Google AdSense have already dominated the internet marketing business and is now considered the easiest way to making money online The key to success with AdSense is the placing of ads on pages that are receiving high traffic for high demand keywords The higher the cost per click to the advertiser the more you will receive per click from your site Obviously it does not pay to target low cost per click keywords and place them on pages that do not receive hits With all the people getting online and clicking away every day it is no wonder why Google AdSense has become an instant hit For some who are just new to this market it would be a blow to their pride knowing that their homepage is buried somewhere in the little ads promoting other people's services But then when they get the idea that they are actually earning more money that way all doubts and skepticism is laid to rest There are two major and clever factors that some successful webmaster and publishers are learning to blend together in order to make money easier using AdSense Targeting high traffic pages on your website If you check on your logs you will discover that many of your visitors are taking advantage of the free affiliate marketing resources and ebooks that you are offering on your site In simple words your ads are working effectively and are generating more clicks It also means more money for you Placing AdSense links on pages that are producing little or better yet no profit By placing AdSense on a free resources page you will reduce the amount of potential customers being lost to other sites Tricky but effective nonetheless When learned to work effectively these two factors are actually a good source of producing a minimal amount of revenue from a high traffic page Many people are using this strategy to pick up some extra cash with AdSense This is also especially rewarding to informational sites that focus their efforts on delivering powerful affiliate link free content to their visitors Now they can gain a monetary return on their services With the many techniques that people are now learning on how to make the easiest money by their AdSense it is not surprising that Google is trying everything to update and polish their AdSense in order to maintain their good image The possibility of adding a 2nd tier in AdSense is not impossible With all the people spending more time in their AdSense now and still more getting into this line of marketing

there is no doubt about the many new improvements yet to be made. Imagine the smiles on the faces of the webmasters and publishers all around the world if ever they sign up for sub affiliates and double or even triple the amount that they are already earning. The one particularly handy money making feature that is available with AdSense now is the ability to filter out up to 200 URLs. These give webmasters the option to block out low value offers from their pages as well as competitors to their websites. Talk about taking only those that are advantageous and discarding the ones that seem useless. With Google AdSense the possibilities are limitless. Yet there is also the possibility of someone taking advantage of the easy money process that this internet marketing is doing. If you think more about it these negative factors may force Google to break down and thrash AdSense in the process. If that happens people would have to go back to the old ways of internet marketing that does not make money online as easy as AdSense. For now however Google AdSense is here to stay. As long as there are people wanting to earn some easy cash online just using their talents the future ahead is looking good. Besides with all the strict guidelines that Google is enforcing over AdSense it will take a while for the AdSense privileges to be spammed and even terminated.

Google AdSense Profits Julius Kelson, 1901 For the last couple of years Google AdSense has dominated forums, discussions and newsletters all over the Internet. Already there are tales of fabulous riches to be made and millions made by those who are just working from home. It seems that Google AdSense have already dominated the internet marketing business and is now considered the easiest way to making money online. The key to success with AdSense is the placing of ads on pages that are receiving high traffic for high demand keywords. The higher the cost per click to the advertiser the more you will receive per click from your site. Obviously it does not pay to target low cost per click keywords and place them on pages that do not receive hits. With all the people getting online and clicking away every day it is no wonder why Google AdSense has become an instant hit. For some who are just new to this market it would be a blow to their pride knowing that their homepage is buried somewhere in the little ads promoting other people's services. But then when they get the idea that they are actually earning more money that way all doubts and skepticism is laid to rest. There are two major and clever factors that some successful webmaster and publishers are learning to blend together in order to make money easier using AdSense.

- 1 Targeting high traffic pages on your website. If you check on your logs you will discover that many of your visitors are taking advantage of the free affiliate marketing resources and ebooks that you are offering on your site. In simple words your ads are working effectively and are generating more clicks. It also means more money for you.
- 2 Placing AdSense links on pages that are producing little or better yet no profit. By placing AdSense on a free resources page you will reduce the amount of potential customers being lost to other sites. Tricky but effective nonetheless. When learned to work effectively these two factors are actually a good source of producing a minimal amount of revenue from a high traffic page. Many people are using this strategy to pick up some extra cash with AdSense. This is also especially rewarding to informational sites that focus their efforts on delivering powerful affiliate link free content to their visitors. Now they can gain a monetary return.

Google AdWords for clients based on my experience failing to do my own ads successfully Amazingly client ads were often easier to do than my own and inspired me to try a new approach to AdWords using YouTube advertising also known as Google AdWords for video YouTube now is my biggest asset online thanks to YouTube advertising and continues to help me build deeper relationships with followers and customers that just watched one video Four years after I got my first AdWords account suspended I gained enough courage to try again on advertising my online courses with a new website and new business model From the beginning I was getting sales for 20 in ad spend and eventually got down to sales consistently for 5 with display ads and 8 with search ads When this was combined with the higher ranking on Udemy and the organic search traffic follow up from students sharing the courses my work on Google AdWords became part of a multimillion dollar sales system selling courses online That sounded impressive right Good because I love to try and impress everyone with how smart I am Let s enjoy the flight up for a moment before back down to earth again My Google AdWords advertising system was so good that if you were finding out about Udemy you were sure to encounter my courses and soon my courses were a dominant presence on Udemy with me having as many as 170 000 students in my courses At one point my ad spend was nearly 1 000 per day with around 1 000 clicks to 10 000 per day from nearly every country in the world I had an affiliate remarketing system setup that was just on the edge of the terms and conditions where if you searched for Udemy you would find my instructor course with no affiliate link and then I would show you ads to go back to Udemy with an affiliate link plus buy my courses for 9 using a free coupon that allowed me to work outside the pricing system then in place With so many students in my courses I could actually track affiliate conversions in Google AdWords and was continually consuming more of the entire Udemy student base into my courses In June 2016 Udemy sent me an email out of nowhere banning me from the website based on what felt like to me an excuse to breakup rather than an actual policy violation I was so consumed with the rules that I knew was was allowed and at the same time was attempting to slide around the spirit of the rules for my benefit in every way technically available especially with Google AdWords With being banned from Udemy my entire Google AdWords system collapsed immediately With no more Udemy courses all of the thousands of ads I made had to be edited Those edited ads failed utterly to sell courses directly hosted through my website because the entire system worked together Now I am starting over again with Google AdWords as I try to teach for free online This book is based on my bestselling Google AdWords course on Udemy which had thousands of students before it was banned Michel Gerard took hours of his time to transcribe this book into a format that I hope will show you how I setup my Udemy advertising system and help you get through your challenges with more grace than I did with Google AdWords Today that last part of my system that still works is YouTube remarketing ads which I am continuing to do at scale with my business Thank you very much for reading this I hope my honest sharing of what I have learned here with Google AdWords is useful for you today Sincerely Jerry Banfield
