How to Get Over Anyone in Few Days (Paperback) M. Farouk Radwan, 2008-10-23

How can the book help This book is a 100 percent guarantee that you will get over any person All you have to do is read the book well and apply what s written in it exactly Again I am proudly repeating it it s a 100% guarantee that you will recover not 99 nor 98 or 97 This book is by far the most powerful guide in the world to getting over someone The book is not just different than other books that tackle the same subject but it s not even comparable to them The book will make the worst breakup ever become a simple state that you can recover from in few weeks if not days Personally I get over the worst breakup ever in three days but this is not how I used to be I used to feel broken and to stay depressed for months until I grasped extensive knowledge about the psychology of love This book intends to transfer to you this knowledge that can make you forget about anyone in few days How effective is it Even if you were so deeply in love after reading the book and applying what is in it you will have no emotions towards that person you loved If you feel that the person you love is your soul mate and that you simply can t get over him her then after reading this book and applying what s written in it he she will become just like a brother or a sister to you Moreover breakups will never affect you the same way they used to affect you after reading this book Few days after applying what s written you will start to feel better by the second week you will recover up to 50% your mood will become more positive and you will start feeling better everyday The only thing you have to do is to stick to what s written The other thing that makes this book different is that it s a 100% guarantee that you will recover unlike other books that just promise you to feel better I have helped thousands of people to completely forget about the people they were in love with using the techniques in this book Again I am repeating it strongly and clearly it s a 100% guarantee that you will recover What s different about the book This book is not about intuitive tricks or logical ideas that can be easily guessed like be strong stop thinking of her or focus on other things but is rather one that is based on complex psychological principles simplified enough to be understood by all All of the techniques in this book are backed by psychology and scientific research The techniques in the book are derived from Love psychology Friendship psychology Neuro linguistic programming subconscious mind programming Behavioral psychology Hypnosis Physiology and scientific research The other thing that makes the book different is that it has no alternatives browse the web search for free tips grab all the advice you can and as soon as you discover that they aren t working come back and buy it There are no free alternatives to the information found in this book and that s why i am increasing its price every now and then Bookmark this page and come back when you are tired of searching Why is the price a bit high What is the amount of money you think is worth paying to get over someone completely What is the price of permanently forgetting about the suffering you have been living through The price of this book is not based on its number of papers but its based on its ability to completely heal your pain forever Warning If you think that falling in love should involve suffering pain feeling bad or becoming depressed then don t proceed as the book will permanently change your reaction to

breakups I am not responsible if you never felt bad whenever you broke up with someone or if you become indifferent when it comes to breaking up with someone Don't worry the book won't affect your ability to love and to be loved but it will just change your belief

If you feel wronged by your ex learning to forgive them and yourself is the ultimate goal No forgiveness doesn t mean that you condone what they did to harm you What it actually means is that you no longer have to be burdened by that hurt Until you forgive them they ll be occupying space in your mind period Don t let them live in your head rent free like that They re taking up space that you could devote to something nourishing like your friendships or getting to know someone new Let yourself have whatever feelings you do and try to let them move through you It s normal to feel angry or depressed or hopeless at times When the feelings come see if you can feel them and move on It s healthy and normal to have big feelings after a breakup When you re ready open yourself up to new relationships It may take a bit of time or it may not It can sometimes be a mistake to get into another relationship immediately following a breakup But we won t judge You shouldn t feel bad for looking for another partner right away nor should you feel pressured into entering another relationship before you re ready

How to Stop Loving (too Much) and Start Living Alice Tong,2019-09-29 Is love even worth it Why do people try to find love just to get devastating heartaches If these are the questions you re asking after a breakup read on Something clicked one day just before I decided to write this book I was obsessing over the fact that my ex had not been online for almost two days yes I online stalked and I was anxious because I thought I would never see him again even online I was saying to my friends that I wanted to give up because this was too hard I wanted to give up on my hope of being with anyone then and in the future I wanted to stop having a relationship with anyone because it had brought so much unnecessary pain into my life I got mad at myself and I thought this obsession is a waste of time And that was when I had an epiphany THIS OBSESSION WAS A WASTE OF TIME This is going to be a bit of a strange book because I wrote it as I was experiencing a break up This is meant to be a self discovery and self recovery journey hopefully for those who think they have loved someone so much that it hurts It is for those who have had their hearts broken because they have loved too much It is for those who are trying to pick themselves up and have the courage to move on It is also for those who are suffering because they have been so obsessed and consumed by love that they forgot to love themselves Make no mistake I m not saying that we should all stop loving everyone and everything entirely and become a stoic I do talk a bit about stoicism in the book or live like a hermit for the rest of our lives That is not the purpose of this book What I m trying to say is that instead of seeking love from outside we should be looking within It is about how we can love without needing love or needing to love We can love without needing love or needing to love
