How To Survive The Apocalypse Zombies Cylons Faith And Politics At The End Of The World:

How to Survive the Apocalypse Robert Joustra, Alissa Wilkinson, 2016-05-20 Incisive insights into contemporary pop culture and its apocalyptic bent The world is going to hell So begins this book pointing to the prevalence of apocalypse cataclysmic destruction and nightmarish end of the world scenarios in contemporary entertainment In *How to Survive the Apocalypse* Robert Joustra and Alissa Wilkinson examine a number of popular stories from the Cylons in *Battlestar Galactica* to the purging of innocence in *Game of Thrones* to the hordes of zombies in *The Walking Dead* and argue that such apocalyptic stories reveal a lot about us here and now about how we conceive of our life together including some of our deepest tensions and anxieties Besides analyzing the dystopian shift in popular culture Joustra and Wilkinson also suggest how Christians can live faithfully and with integrity in such a cultural context *American Apocalyptic* Juli L. Gittinger, 2024-07-18 In this book Juli Gittinger argues that America's fascination obsession with the apocalypse is a synthesis of religion popular culture and politics in a way that is particular to the US and consonant with mythological historical narratives of America As a result we can identify American apocalypticism as a sort of religion in itself that is closely tied to civil religion that has a worldview and rituals that create identifiable communities and connects American mythology to apocalyptic anxieties Gittinger discusses how various cultures and groups form as a result of this obsession and that these communities form their own rituals and responses in various forms of prepping or survivalist practices She lays out an argument for a broad eschatology prevalent in the US that extends beyond traditional religious designations to form an apocalyptic worldview that is built into our narrative as a country as well as furthered by popular culture and media's contribution to apocalyptic anxieties Subsequently Gittinger uses case studies of apocalyptic events current or speculative that reveal how our anxieties about the end of the world as we know it inform our culture as well as religious narratives that emerge from such crises *Identifying as Christian in an Alien Public Arena* Maureen Miner, Mark Stephens, 2021-01-01 Although Christianity is the world's largest religion there is confusion over what it means to be Christian within contemporary society For individuals it is difficult to find form or receive a Christian identity let alone maintain one within a secular world Within organizations such as the church and professions there is often a disconnection between public and private identities and the reality of being Christian in our culture For society there is the problem of disparate portrayals of Christianity the marginalized status of Christianity with an associated lack of influence of Christians on our society and the ongoing shaping of Christian identity by the public arena itself Associated questions are should Christians try to engage in and even shape the public arena and if so how This volume examines the problem of confused and misunderstood Christian identity in a post Christian age It suggests ways of shaping Christian identity for the benefit of individuals and for the common good The importance of well formed Christian identities is illustrated by research and analysis of selected professions so that the public life of Christians can be more fulfilling and effective This book will be valuable for all those who

are interested in religious identity within a secular society People of faith and religious organizations will benefit from a penetrating analysis of what it means to be Christian today Similarly those whose work involves the church counseling education and the performing arts will find specific applications that address concerns about faith in the workplace *The Oxford Handbook of the Bible and American Popular Culture* Dan W. Clanton (Jr.), Terry R. Clark, 2020 The study of the reciprocal relationship between the Bible and popular culture has blossomed in the past few decades and the time seems ripe for a broadly conceived work that assesses the current state of the field offers examples of work in that field and suggests future directions for further study This Handbook includes a wide range of topics organized under several broad themes including biblical characters such as Adam Eve David and Jesus and themes like Creation Hell and Apocalyptic in popular culture the Bible in popular cultural genres for example film comics and Jazz and lived examples such as museums and theme parks The Handbook concludes with a section taking stock of methodologies and the impact of the field on teaching and publishing The Oxford Handbook of the Bible and American Popular Culture represents a major contribution to the field by some of its leading practitioners and will be a key resource for the future development of the study of both the Bible and its role in American popular culture *Calvinism for a Secular Age* Jessica R. Joustra, Robert J. Joustra, 2022-02-08 Pastor politician and Dutch Neo Calvinist theologian Abraham Kuyper's lectures on the role of Christian faith in politics science and art have become a touchstone of contemporary Reformed theology Revisiting these lectures Jessica and Robert Joustra bring together theologians historians scientists and others to consider Kuyper's ongoing importance and complex legacy for today

Horror Television in the Age of Consumption Kimberly Jackson, Linda Belau, 2017-11-15 Characterized as it is by its interest in and engagement with the supernatural psycho social formations the gothic and issues of identity and subjectivity horror has long functioned as an allegorical device for interrogations into the seamier side of cultural foundations This collection therefore explores both the cultural landscape of this recent phenomenon and the reasons for these television series wide appeal focusing on televisual aesthetics technological novelties the role of adaptation and seriality questions of gender identity and subjectivity and the ways in which the shows themes comment on the culture that consumes them Featuring new work by many of the field's leading scholars this collection offers innovative readings and rigorous theoretical analyses of some of our most significant contemporary texts in the genre of Horror Television *Talking Book Topics*, 2017

Braille Book Review, 2017-11 **Christ and Covenant in Global Politics** Robert J. Joustra, 2026-05-12 A New Perspective for Biblical Justice in International Relations Practicing a Christian vision of justice as a citizen in one's own country is difficult enough Add on the challenge of establishing and living out a Christian ethic among states where there may be few established norms and shared values and you have the gargantuan task of doing international relations Does Christianity have anything to say about global justice for modern nation states Can we look to the biblical vision for help with the complex problems of a globalized world Robert Joustra answers with a resounding yes *Christ and Covenant in Global Politics* casts a

compelling vision for a Christian approach to international relations that seeks to transform global politics from systems driven by fear to covenantal global community based in shared loves drawing on Augustine's understanding of rightly ordered loves and a contemporary Christian notion of covenantal pluralism. This groundbreaking textbook is designed for professors and students of international relations offering a unique faith-driven approach to global politics. In *Christ and Covenant in Global Politics*, Joustra introduces international relations through a distinctly Christian lens, demonstrates how the Christian worldview can positively shape international politics, equips students to thoughtfully engage with pluralism and multiculturalism in international politics, and moves beyond discussions of biblical justice within states toward discussions of biblical justice between and among states. *Christ and Covenant in Global Politics* is a first of its kind work that provides a comprehensive introduction to the state of international relations theory today as well as a constructive account of a truly Christian vision for global politics. Joustra provides a systematic treatment of introductory political theology of world politics, then applies that foundation to key issues in the international system: diplomacy, war, political economy, and climate. Ideal for the undergraduate level, this book is a gift to those who want to learn to love their neighbor on the global stage.

The Zombie Apocalypse Chris Lutz, 2013-10-21. It's already happened. Imagine by the time anyone takes notice or you hear about a warning on the news, the beginning of the apocalypse is already past the stage of what people are thinking is a few isolated cases. No, by the time word reaches you, it's already a global pandemic. You've noticed a few things were off in your daily routine, but you weren't suspect of anything larger. Worst of all, you weren't prepared. You're stuck downtown at work with a 1-hour commute at the least when there isn't a widespread panic between your wife at home and kids at school. It's pretty much a worst-case scenario for you, and you're not ready. At best, you have some band-aids and jumper cables in your truck at work, and you're potentially hours away from the rest of your family, who are also separated and equally unprepared. What is actually happening? Is it an outbreak? Disease? Contagion? Will the authorities get a handle on it? Do you stay or do you go? Where do you go? How far and for how long? What should you bring? You need to make some important decisions, and you need to make them extremely fast. This short manual will tell you how to prepare yourself and keep your family safe during a zombie apocalypse. An introduction to the threat, zombie virus, and its effects. Basic zombie survival skills. How to defend yourself from zombies. Where should we take shelter in the event of a zombie apocalypse. Grab your copy now and start preparing.

Apocalypse Survival Guide for Christians Ronald Conte, 2013-10-19. This book on the apocalypse is not primarily a book of theology, but a book of practical considerations related to the end times, to the time of suffering for the Church and the world called the tribulation. The author discusses practical considerations that might be useful in order to live with a greater degree of safety and a better quality of life during the apocalypse. The purpose of this book is to assist the reader in preparing for enduring and perhaps even surviving the most difficult time period so far in human history while still being an active part of society. The question as to when and how the apocalypse unfolds is controversial among Christians.

But one point should be beyond dispute The Apocalypse will be very severe and will affect everyone on earth Therefore even if you disagree as to when and how the tribulation will unfold you might still want to read this book discussing ways to cope with this time of great trials for the whole world May God give you His providence and grace during the difficult years ahead

Living with the Living Dead Greg Garrett, 2017 In *Living with the Living Dead* Greg Garrett shows that the zombie apocalypse has become an archetypal narrative for the contemporary world in part because zombies can represent a variety of global threats from terrorism to Ebola from economic uncertainty to mental illness But paradoxically this narrative also offers human beings a chance to find emotional and spiritual comfort these apocalyptic stories about individuals facing the imminent prospect of grisly death also offer us wisdom about living in community present us with real world ethical problems and invite us into a conversation about what it means to survive

Salvation Joshua Jared Scott, 2014-11-11 SEQUEL to *Conflict Surviving the Zombie Apocalypse* and the conclusion to Jacob Thornton's story of survival When the change struck a quarter of the world's population simultaneously and without warning perished Seven minutes later the corpses reanimated and promptly began to attack the living At zero hour well over one billion zombies walked the Earth A day later more than half the world's population had turned Escaping the city Jacob Thornton and a group of survivors began work on a settlement deep in the wilderness where they hoped to rebuild their shattered lives Isolated and far from the chaos it seemed they were indeed safe that is until the raiders appeared Forced to flee Jacob led his people north to the Black Hills They built fortifications gathered supplies and waited for the inevitable It did not come Time passed Homes were constructed crops planted and contact made with others around the globe So few remained but efforts were underway to rid the world of zombies There was a very real chance civilization would bloom once more Then the enemy returned determined to complete the genocide they began two years earlier
