Reality of Enlightenment and the Presence of Divinity It completes the description of the evolution of human consciousness from the level of approximately 800 to its peak experience at 1 000 which historically has been the ultimate possibility in the human domain This is the realm of the mystic whose truth stems solely from the radical subjectivity of divine revelation The text of the material is taken from lectures dissertations and dialogues with students visitors and spiritual aspirants from around the world who have different spiritual and religious backgrounds and varying levels of consciousness On the referenced Scale of the Levels of consciousness which calibrates the levels of Truth from 1 to 1 000 Power versus Force calibrates at 850 The Eye of the I at 980 and the final volume of the trilogy I calibrates at a conclusive 999 8 The uncommon clarity and lucidity with which the highly evolved subject matter is presented facilitates understanding As with the reading of Power versus Force or The Eye of the I the reader s level of consciousness increases measurably as a consequence of exposure to this material itself which is presented from a powerful field of exposition Conflict is resolved within the mind of the student by means of recontextualization which solves the dilemma Argument and adversity are resolvable by identifying the positionalities of the ego which are the basis of human suffering Some Chapters Include The Process Spiritual Purification The Ego and Society Spiritual Reality Realization The Realization of Divinity The Radical Reality of the Self The Mystic The Levels of Enlightenment The Nature of God The Obstacles Transcending the World The Emotions Mind Considerations Karma The Final Doorway The Transcendence The Inner Path No Mind The Way of the Heart The Recontextualization Spiritual Research Homo Spiritus This masterpiece is a revolutionary tool for personal transformation blending quantum physics with spirituality and a perfect read for anyone seeking enlightenment and a deeper understanding of the universe A new paradigm of reality? Gonzalo Rodríguez-Fraile, 2015-11-04 The vision that culture has historically offered about reality has failed to help humans to live fully or to achieve their potential A knowledge revolution has been taking place in recent years that once it is understood can completely transform human beings offering new solutions to personal and collective problems because their root causes have been identified at last What we now know means that we can understand spiritual truths and their multiple dimensions without abandoning rationality This new vision is strong enough to put an end to human suffering and boost inner peace which is for what every being human yearns New science sees an intelligent design in the whole Universe Quantum physics has revolutionized our knowledge of reality All scientists are now aware of the quantum enigmas but not everyone agrees on how to interpret them This book offers an interpretation that might explain them and one that is based on the idea of science within consciousness As you read the book it will become evident that this interpretation most closely resembles the vision of reality that both the perennial wisdom of Humanity and the teachings of the great spiritual masters have offered us throughout history The first part of the book outlines briefly what some of the leading thinkers on science and philosophy have to say about reality and how this new vision of the world is converging with what the perennial wisdom of Humanity has been saying throughout our history The

second part seeks to explain what can happen to us when we are exposed to this new knowledge and how all of us can change inside ourselves in the light of this information This book aims to unite not divide helping Humanity to raise its level of consciousness allowing us to live a higher quality life in accordance with our spiritual dimension
