One Country, Two Systems, Three Legal Orders - Perspectives of Evolution Jorge Oliveira, Paulo

Cardinal, 2009-07-21 One Country Two Systems Three Legal Orders Perspectives of Evolution Essays on Macau's Autonomy after the Resumption of Sovereignty by China can be said in a short preamble like manner to be a book that provides a comprehensive look at several issues regarding public law that arise from or correlate with the Chinese apex motto for reunification One Country Two Systems and its implementation in Macau and Hong Kong Noble and contemporary themes such as autonomy models and fundamental rights are thoroughly approached with a multilayered analysis encompassing both Western and Chinese views and an extensive comparative law acquis is also brought forward Furthermore relevant issues on international law criminal law and historical and comparative evolutions and interactions of different legal systems are laid down in this panoramic yet comprehensive book One cannot but underline the presence in the many approaches and comments of a certain aura of a modern Kantian cosmopolitanism revisitation throughout the work especially when dealing with the cardinal principle of One Country Two Systems which enabled a peaceful and integral reunification ex vi international law the Joint Declarations that ended an external and distant control **LPC Handbook**, 2016 *The*

Changing Policy-Making Process in Greater China Bennis Wai Yip So, Yuang-kuang Kao, 2014-04-24 This book explores how the policy making process is changing in the very volatile conditions of present day mainland China Taiwan and Hong Kong It considers the overall background conditions the need to rebalance in mainland China after years of hectic economic growth governance transition and democratic consolidation in Taiwan and governance crisis in Hong Kong under a regime of uncertain legitimacy It examines the various actors in the policy making process the civic engagement of ordinary people and the roles of legislators mass media and bureaucracy and discusses how these actors interact in a range of different policy cases Throughout the book contrasts the different approaches in the three different jurisdictions and assesses how the policy making process is changing and how it is likely to change further Public Key Infrastructures, Services and Applications

Svetla Petkova-Nikova, Andreas Pashalidis, Günther Pernul, 2012-05-12 This book constitutes the thoroughly refereed post conference proceedings of the 8th European Workshop on Public Key Infrastructures Services and Applications EuroPKI 2011 held in Leuven Belgium in September 2011 co located with the 16th European Symposium on Research in Computer Security ESORICS 2011 The 10 revised full papers presented together with 3 invited talks were carefully reviewed and selected from 27 submissions The papers are organized in topical sections on authentication mechanisms privacy preserving techniques PKI and secure applications **Symbolic and Quantitative Approaches to Reasoning with Uncertainty**

Claudio Sossai, Gaetano Chemello, 2009-06-05 This book constitutes the refereed proceedings of the 10th European Conference on Symbolic and Quantitative Approaches to Reasoning with Uncertainty ECSQARU 2009 held in Verona Italy July 1 3 2009 There are 76 revised full papers presented together with 3 invited lectures by three outstanding researchers in

the area All papers were carefully reviewed and selected from 118 submissions for inclusion in the book The papers are organized in topical sections on algorithms for uncertain inference argumentation systems Bayesian networks Belief functions Belief revision and inconsistency handling classification and clustering conditioning independence inference default reasoning foundations of reasoning decision making under uncertainty Fuzzy sets and Fuzzy logic implementation and application of uncertain systems logics for reasoning under uncertainty Markov decision process and Mathematical Fuzzy Logic

Behavioral and Neurophysiological Approaches to Code-Switching and Language Switching Jeanine Treffers-Daller, Esther Ruigendijk, Julia Elisabeth Hofweber, 2021-05-03

Critical Perspectives On Educational Leadership John Smyth, 2005-08-12 This book is an edited collection of original papers which challenge in a very direct manner the dominant behaviourist and functionalist views that have come to entrap those who live work and conduct research in the areas of educational leadership and focusing instead on the structures and processes within schools as organisations that frustrate distort and ultimately stifle educative relationships the writers provide a much needed way of reconceptualising both thought and action in so called acts of educational leadership

Trust Extension as a Mechanism for Secure Code Execution on Commodity Computers Bryan Jeffrey Parno, 2014-06-01 As society rushes to digitize sensitive information and services it is imperative to adopt adequate security protections However such protections fundamentally conflict with the benefits we expect from commodity computers In other words consumers and businesses value commodity computers because they provide good performance and an abundance of features at relatively low costs Meanwhile attempts to build secure systems from the ground up typically abandon such goals and hence are seldom adopted In this book I argue that we can resolve the tension between security and features by leveraging the trust a user has in one device to enable her to securely use another commodity device or service without sacrificing the performance and features expected of commodity systems At a high level we support this premise by developing techniques to allow a user to employ a small trusted portable device to securely learn what code is executing on her local computer Rather than entrusting her data to the mountain of buggy code likely running on her computer we construct an on demand secure execution environment which can perform security sensitive tasks and handle private data in complete isolation from all other software and most hardware on the system Meanwhile non security sensitive software retains the same abundance of features and performance it enjoys today Having established an environment for secure code execution on an individual computer we then show how to extend trust in this environment to network elements in a secure and efficient manner This allows us to reexamine the design of network protocols and defenses since we can now execute code on endhosts and trust the results within the network Lastly we extend the user's trust one more step to encompass computations performed on a remote host e g in the cloud We design analyze and prove secure a

protocol that allows a user to outsource arbitrary computations to commodity computers run by an untrusted remote party or parties who may subject the computers to both software and hardware attacks Our protocol guarantees that the user can both verify that the results returned are indeed the correct results of the specified computations on the inputs provided and protect the secrecy of both the inputs and outputs of the computations These guarantees are provided in a non interactive asymptotically optimal with respect to CPU and bandwidth manner Thus extending a user s trust via software hardware and cryptographic techniques allows us to provide strong security protections for both local and remote computations on sensitive data while still preserving the performance and features of commodity computers

THE CONSTITUTIONAL LANDSCAPE IN CONTEMPORARY CHINA Qianfan Zhang (张倩帆,2024-05-30 In the past two decades China has endured together with the rest of the world two pandemics originating in Guangdong and Wuhan While the severity and management of these pandemics varied they both stemmed from the same root cause the absence of constitutional enforcement and protection of fundamental rights such as freedom of speech and press In the global village today especially given China s size and impact the Chinese constitutional democracy is critical not only for China itself but also for the whole world Largely following China s current 1982 Constitution this book aims to produce a contemporary landscape of Chinese constitutional developments in essentially all major areas Despite the lack of constitutional enforcement and serious backlashes in recent years the author believes that the Constitution still matters as China has achieved significant de facto progress in human rights and the rule of law since its Reform and Opening in 1978 Particularly increasing number of citizens are becoming aware of their constitutional rights which they are eager to defend in their interest Ultimately the future of China and the world depends on the efforts of the people themselves to promote its constitutional reforms and enforcement
