EBOOK: Macroeconomics Rudiger Dornbusch, Stanley Fischer, Richard Startz, 2014-02-16. Dornbusch, Fischer, and Startz has been a long standing leading intermediate macroeconomic theory text since its introduction in 1978. This revision retains most of the text's traditional features including a middle of the road approach and very current research while updating and simplifying the exposition. A balanced approach explains both the potential and limitations of economic policy. Macroeconomics employs a model based approach to macroeconomic analysis and demonstrates how various models are connected with the goal of giving students the capacity to analyze current economic issues in the context of an economic frame of reference. The only pre-requisite continues to be principles of economics.

Environmental Economics Dodo J. Thampapillai, Matthias Ruth, 2019-05-14. Environmental Economics explores the ways in which economic theory and its applications as practised and taught today must be modified to explicitly accommodate the goal of sustainability and the vital role played by environmental capital. Pivoting around the first and second laws of thermodynamics as well as the principles of ecological resilience, this book is divided into five key parts which includes extensive coverage of environmental microeconomics and macroeconomics. It drills down into issues and challenges including consumer demand, production and supply, market organisation, renewable and non-renewable resources, environmental valuation, macroeconomic stabilisation, and international trade and globalisation. Drawing on case studies from forestry, water, soil, air quality, and mining, this book will equip readers with skills that enable the analyses of environmental and economic policy issues with a specific focus on the sustainability of the economy. Rich in pedagogical features including key concepts boxes and review questions at the end of each chapter, this book will be a vital resource for upper-level undergraduate and postgraduate students studying not only
