Assessing Conflict Management Practice. A case study of Aleta land polypropylene bag Factory SNNPR, Hawassa Ethiopia Yirgalem Abera, 2017-01-12 Bachelor Thesis from the year 2016 in the subject Art Arts Management grade 3 58 Hawassa University course management language English abstract In order to be highly productive and being successful in any operation is somewhat a difficult task unless conflict is managed carefully in the organization. Therefore the main reason of conducting this research is to find out the sources of conflict to identify conflict resolution techniques and to know the positive and negative outcomes of conflict in the organization. Among the factors that accounted for the existence of conflict in the organization perpetual difference, value difference, modern technology and personality clashes were the most important. The effort of management to understand the existing conflict in the organization is low, which implies the weakness of management of the organization in handling conflict. In general, undertaking conflict and assessing conflict management practice is an important task for the reduction of problems which exist in the organization. *Proceedings of the 25th European Conference on Knowledge Management* Dr. Nora Obermayer, Dr. Andrea Bencsik, **Case Studies of Co-operation Between Labor and Management** Rutgers University. Institute of Management and Labor Relations, 1951 *Management Practices in Asia* Christiane Prange, Ralph Kattenbach, 2019-08-20 Asia is a continent of contradictions and boundaries; it offers exciting business opportunities but is also characterized by unpredictability and conflict. While flexibility and creativity are in the DNA of many startups in China, major players like Xiaomi and Alibaba have also emerged as global giants challenging established global competitors. The authors of this book show that these companies are crossing various boundaries between cultures, mindsets and perspectives. At the same time, Western companies entering Asian markets face challenges that are very different from those on their home turf. This book addresses the needs of current and future managers doing business in Asia who need to understand the individual social and business challenges that can arise from crossing boundaries. The respective case studies provide essential insights on how several Asian companies have made impressive strides towards becoming established players, how the revival of local brands and growing pride in local products has become a major challenge for global competition, how the need to actively practice corporate social responsibility in Asian markets is currently challenging many companies, and how the need for individual and team coaching among the members of management to support a company's development has grown tremendously, calling for new solutions. *New Horizons in Management, Leadership and Sustainability* Satinder Dhiman, Ramanie Samaratunge, 2021-05-13 Drawing upon

research and practitioner narratives from management leadership organizational studies entrepreneurship and sustainable business domains this book explores the many pathways that enable emerging countries to transform knowledge into action to achieve economic and sustainable development The authors take a holistic approach to transforming knowledge that goes beyond the mere application of knowledge to include the assimilation adaptation and contextualization of knowledge to suit the unique contexts needs and conditions existing in emerging countries They then presents success stories and case studies comprising innovative solutions for emerging economies that practitioners can utilize Current research in management is highlighted by bringing together academics practitioners policy makers and interest groups from diverse regions and perspectives Recent Progress in Solving Some Farm Problems of Illinois University of Illinois at Urbana-Champaign.
