and working in Italy the essential condition was to be able to work remotely so that we did not have to deal directly with the management of the house and the tenant Our goal was to build an extra income not dependent on our work To understand a kind of pension We wanted to invest in a country with a strong economy a lively real estate market and above all that had strong protection of property A country that in addition to protecting tenants also protects homeowners A country where houses can give much higher net returns than in Italy A country with few but clear and precise rules We found all this in the United States Initially we bought houses through organized structures It all seemed fantastic but we realized that something wasn't right So we took the plane to touch the American reality and we decided to invest time and money in training and direct experience in the field We wanted to invest part of our resources to generate monthly income without our direct intervention but always having control over the investment made I confess that sometimes we got burned but every mistake we made us grow to find the best way to achieve our goal which if you're reading this is also your goal With this book we've laid out the road to your goal of real estate investing in the USA We are all different and there is no one size fits all solution But there is the best solution for you Go deeper understand the dynamics of this investment method and then once you get off on the right foot you'll see that the road will be downhill and you too will discover the pleasure of collecting an extra paycheck every month without going to work A pleasant feeling Today more than ever creating a second or third economic income disconnected from our main job is essential We all discovered this during the recent lockdown Work situations can change in a week Having an income disconnected from your job can be a lifeline Invest in your future and that of your family invest in income producing real estate in the USA Buy Real Estate Investing Step by Step now **Real Estate Investing** Jordan Riches, 2019-06-12 If you want to invest in Real Estate with Low Risk and Big Profits then you must read on Everyone knows Real Estate provides great opportunities But you have to do it the right way otherwise you may even lose money Jordan Riches is a world class real estate expert and this bundle provides you two of his best books written for beginners just like you 1 Real Estate Investing for Beginners Real estate is the safest investment you can make But most people think they need a lot of cash to start with otherwise they'll get very small earnings from properties That's not true if you know how to search for the right property That's the difference between a Real Estate Investor and someone who just happens to buy a house To be a successful landlord you need to look at real estate as a business 2 House Rehab for Real Estate Flipping You can systematically purchase houses with no money down increase their value with a full rehab and re-sell it for a higher price Seems too simple Well it's simple But it's not easy and you have to do your part This book will help you understand all the tips and tricks of the house flipping business and how to understand the basics of real estate evaluation and re-evaluation even if you start from zero With this book you will discover The basics of successful real estate investing The four stages of your growth Eight myths in real estate that you believe are true TIP They're not How to buy your first property with no money down for real How to create a team of professionals to guarantee your success What makes a property a good
