A Death on Diamond Mountain Scott

Carney, 2015-03-17 An investigative reporter explores an infamous case where an obsessive and unorthodox search for enlightenment went terribly wrong. When thirty-eight year old Ian Thorson died from dehydration and dysentery on a remote Arizona mountaintop in 2012, The New York Times reported the story under the headline "Mysterious Buddhist Retreat in the Desert Ends in a Grisly Death." Scott Carney, a journalist and anthropologist who lived in India for six years, was struck by how Thorson's death echoed other incidents that reflected the little-talked-about connection between intensive meditation and mental instability. Using these tragedies as a springboard, Carney explores how those who go to extremes to achieve divine revelations and undertake it in illusory ways can tangle with madness. He also delves into the unorthodox interpretation of Tibetan Buddhism that attracted Thorson and the bizarre teachings of its chief evangelists, Thorson's wife Lama Christie McNally and her previous husband Geshe Michael Roach, the supreme spiritual leader of Diamond Mountain University where Thorson died. Carney unravels how the cultlike practices of McNally and Roach and the questionable circumstances surrounding Thorson's death illuminate a uniquely American tendency to mix and match eastern religious traditions like LEGO pieces in a quest to reach an enlightened, perfected state no matter the cost. Aided by Thorson's private papers along with cutting-edge neurological research that reveals the profound impact of intensive meditation on the brain and stories of miracles and black magic sexualized rituals and tantric rites from former Diamond Mountain acolytes, *A Death on Diamond Mountain* is a gripping work of investigative journalism that reveals how the path to enlightenment can be riddled with danger.

Sanskrit text of Patanjali's best known work presents his seminal ideas and methods in accessible plain language English. Patanjali organized the sutra into four parts: Samadhi (absorption), Sadhana (practice), Vibhuti (supernatural powers), and Kaivalya (liberation). Each represents a step in breaking free of our limited definition of consciousness and training the mind to achieve oneness with the universe.

Geshe Michael Roach, one of the most respected teachers of Tibetan Buddhism in America and a renowned scholar of Sanskrit, provides authoritative commentary on each of the sutras. His notes and clarification are straightforward and highly readable, untainted by obscure academic terminology or New Age jargon. China Love You Geshe Michael Roach, Dr. Eric Wu, 2022-06-30. The two largest economies in the world are now China and the United States, which means that these two countries will have the greatest influence on the state of our planet for many years to come. If the two nations cooperate economically and politically, then the entire world will see a period of peace and prosperity which it has never seen before. And yet surprisingly, those of us who live in these two countries know very little about each other. In each country, we read in our newspapers about the other, but this just gives us a general and often incomplete picture. We don't really get to know each other, and it's possible that we can start to misunderstand each other. Since our two countries are now the two strongest in the world, this kind of misunderstanding can hurt all nations. One place where normal Chinese and Americans work together every day is in business. When a big international business project throws us together, we begin to spend time with one another, we start to communicate more person to person, and then the misunderstandings just melt away, often over a dinner table somewhere, because we find out where the other person is coming from and why they act the way they do.
