A Creative Approach to Teaching Grammar Peter Burrows, 2014-09-25 This book offers a whole school approach to the teaching of grammar and punctuation that is fully matched to the demands of the English grammar and punctuation test and the new curriculum With the shift towards elegant well constructed sentences it offers the busy teacher three simple steps to motivate and engage children through explicit teaching and modelling over forty practical games and activities application and improvement within editing and proof reading This book draws on recent research but also is based on many years of classroom practice and a number of case studies Practical examples develop teachers understanding of grammatical terms and progression and show how it is possible to have a significant impact on vocabulary sentence structure and children s writing in general A balance is found where skills are explicitly taught but within the context of an exciting and interesting curriculum

Tools, Not Rules Tommy Thomason, Geoff Ward, 2010 If you want to start an argument in a teachers lounge bring up the topic of how best to teach grammar There is a wide spectrum of opinion Traditionalists claim that we must explicitly teach grammar Students drill the basics and diagram sentences Sometimes their study and drills take the place of writing but these teachers claim that good writing demands good grammar At the opposite end of the spectrum are teachers who claim that the best way to learn grammar is to write thereby being forced to use grammar in writing and editing They reason that students will learn grammar in the context of actually using it without all the drills and worksheets They trust the writing process to instill an appreciation for grammar instead of actually teaching it Teachers on the write to learn grammar side claim that students who are only taught grammar rules might pass tests but since they didn t learn in the context of writing they typically don t apply the rules when they write Grammar traditionalists say students in writing classes never learn grammar at all because it is not explicitly taught In Tools Not Rules authors Tommy Thomason and Geoff Ward take the middle ground position that grammar should be taught as part of the writing process Tommy Thomason is a veteran journalist and university journalism professor at TCU Geoff Ward is a well known Australian professor and associate dean from James Cook University in Townsville Both have written several books and work extensively with American teachers Publisher s website <http://www.eloquentbooks.com/ToolsNotRules/TeachingGrammarInTheWritingClassroom.html>
