Hugh Dellar:

Innovations Hugh Dellar, Darryl Hocking, 2000 *Innovations* is a major new course from LTP with a strong emphasis on natural spoken English. It is aimed at students who are serious about improving their language level. It has a strongly lexical syllabus presenting and practising hundreds of natural expressions which students will find immediately useful. It also has a comprehensive grammatical syllabus covering all basic grammar points while introducing many other grammatical patterns common in spoken English. *Innovations* is for all upper intermediate students who have not developed their spoken English to the level they need. **Grammar Nonsense and What To Do about It** Hugh Dellar, Andrew Walkley, Do you hate teaching some aspects of grammar? Do you ever feel frustrated that your students just don't get it? Well, in *Grammar Nonsense* Andrew Walkley and Hugh Dellar argue that you shouldn't really blame yourself. The fault lies largely with the way grammar rules and methods have been passed down through training and published material and become established as the way of doing things: a straightjacket that we need to escape from. Through an entertaining series of rants and meditations on all things grammatical, from the use of the word 'grammar' to the horror of teaching verb patterns, they aim to pull apart rules which we give without thinking and to question approaches to practice that are seen as a must. Along the way you'll not only learn how published materials get written and about ideas such as the transformation fallacy and grammar olives, but you'll also get plenty of practical suggestions as to what to do about all this nonsense.
