Ice Anna Kavan, 2017-09-28 In a frozen apocalyptic landscape destruction abounds great walls of ice overrun the world and secretive governments vie for control Against this surreal yet eerily familiar broken world an unnamed narrator embarks on a hallucinatory quest for a strange and elusive glass girl with silver hair He crosses icy seas and frozen plains searching ruined towns and ransacked rooms all to free her from the grips of a tyrant known only as the warden and save her before the ice closes all around A novel unlike any other *Ice* is at once a dystopian adventure shattering the conventions of science fiction a prescient warning of climate change and totalitarianism a feminist exploration of violence and trauma a Kafkaesque literary dreamscape and a brilliant allegory for its author's struggles with addiction all crystallized in prose as glittering as the piling snow Acclaimed upon its publication as one of the best science fiction books of the year Kavan's 1967 novel has built a reputation as an extraordinary and innovative work of literature garnering acclaim from China Miéville Patti Smith J G

Ballard Anais Nin and Doris Lessing among others With echoes of dystopian classics like Ursula Le Guin's *The Lathe of Heaven* Kurt Vonnegut's *Cat's Cradle* and J G Ballard's *High Rise* *Ice* is a necessary and unforgettable addition to the canon of science fiction classics **Ice** Phyllis Reynolds Naylor, 1995 Mighty glaciers are slowly expanding to cover the face of the earth *Avenging Nature* Eduardo Valls Oyarzun, Rebeca Gualberto Valverde, Noelia Malla Garcia, María Colom Jiménez, Rebeca Cordero Sánchez, 2020-09-28 Nature thou art my goddess Edmund's bold assertion in *King Lear* could easily inspire and at the same time function as a lamentation of the inadequate respect of nature in culture In this volume international experts provide multidisciplinary exploration of the insubordinate representations of nature in modern and contemporary literature and art The work foregrounds the need to reassess how nature is already and has been for a while striking back against human domination From the perspective of literary studies art history media studies ethics and philosophy and ethnology and anthropology *Avenging Nature* highlights the need of assessing insurgent discourses that converging with counter discourses of race gender or class realize the empowerment of nature from its subaltern position Acknowledging the argument that cultural representations of nature establish a relationship of domination and exploitation of human discourse over nonhuman reality and that in consequence our regard for nature as humanist critics is instrumental and anthropocentric the present volume advocates for the view that the time has come to finally perceive nature's vengeance and to critically probe into nature's ongoing revenge against the exploitation of culture *British Experimental Women's Fiction, 1945—1975* Andrew Radford, Hannah Van Hove, 2021-08-23 This book scrutinizes a range of relatively overlooked post WWII British women writers who sought to demonstrate that narrative prose fiction offered rich possibilities for aesthetic innovation What unites all the primary authors in this volume is a commitment to challenging the tenets of British mimetic realism as a literary and historical phenomenon This collection reassesses how British female novelists operated in relation to transnational vanguard networking clusters debates and tendencies both political and artistic The chapters collected in this volume enquire for example whether there is something fundamentally different or politically dissident about female experimental procedures and perspectives This book also investigates the processes of canon formation asking why in one way or another these authors have been sidelined or misconstrued by recent scholarship Ultimately it seeks to refine a new research archive on mid century British fiction by female novelists at least as diverse as recent and longer established work in the domain of modernist studies **Gestures** Alice Butler, Nell Osborne, Hilary White, 2025-01-28 *Gestures* A body of work is a cross disciplinary collection of feminist approaches to gesture that considers the term's complex registers across embodied aesthetic and political scenes Attending to gestural movements languages feelings and communications the book argues that gestures can unsettle gendered sexed and racialised relations norms and affects Contributors activate the lens of gesture to offer innovative readings of art and literary works from the 1960s onwards and in transnational contexts Experiments in art writing and autotheory reflect on the entanglement of the body gesture and feminist practice The book

proposes that gesture be rethought as a mode of feminist practice that includes art writing performance and theory Mixing disciplines forms genres and voices these contributions and the book s gestural structure offer a bold intervention into the conventions of critical writing
