Excelling in Sport Psychology Alison Pope-Rhodus, Sara Robinson, Sean Fitzpatrick, 2017-10-04 Written for graduate students and early professionals who are conducting applied sport psychology work for the first time *Excelling in Sport Psychology* is a guide for planning preparing and executing this work Each chapter addresses a critical component of the internship experience such as selecting a site for an internship preparing to begin the work evaluating the completed work and marketing oneself throughout one's early career The diverse experiences of the various authors provide a range of viewpoints for trainees to consider and apply to their growth as sport psychology or mental skills professionals The text is written in a practical manner with suggestions and questions that will drive this personal and professional growth Each chapter also includes a personal account from a current student or recent graduate about their experience in that area This book will appeal to students in academic sport psychology programs seeking additional support and guidance about the internship process as well as post graduates who did not have an internship component to their program Supervisors will benefit from reading the book as it highlights ways to

work with trainees Drawn from the experience of the applied Sport Psychology department at John F Kennedy University which has helped students set up internships have successful experiences and attain jobs for over 25 years this book can provide a model for training programs approaching the challenges of fieldwork *Kaizen Kanban* Fabrice

Bouchereau,2016-07-21 *Kaizen Kanban* is a guide to creating prioritized project pipelines and setting up improvement boards to maximize business success through the execution of continuous improvement projects It introduces to the Faster and Better visual facilitation approach that enables you to seamlessly leverage and combine fundamental tools in order to identify improvement opportunities for entire value streams compile them in a prioritized project pipeline and set up improvement display boards or kaizen kanbans linked to key business objectives Kaizen kanbans follow the same principles used with traditional kanbans They are visual communication tools and are visible to all levels of employees within the organization The difference is that instead of telling operators what to build next or what parts to retrieve the cards tell improvement teams what pre approved projects are most relevant to current business needs and are next in line for implementation This approach is designed to complement and enhance the effectiveness of quality lean continuous improvement and project management initiatives that may already be in place in an organization **The Guide to COIL Virtual Exchange** Jon

Rubin,Sarah Guth,2023-07-03 This is the authoritative guide to implementing COIL Virtual Exchange conceived and co edited by one of the originators of this innovative approach to internationalization Jon Rubin COIL the acronym for Collaborative Online International Learning is a central modality of what has come to be known as virtual exchange Since its first iteration in 2002 it has gradually established itself as a mature pedagogy that is being increasingly implemented across the world and is validated by a growing body of research COIL Virtual Exchange at its most essential is a bi lateral online exchange involving the integration of existing courses across two or sometimes more institutions that are geographically and or culturally distinct To launch a COIL VE course the instructor of a class at a higher education institution in one location links online with a professor and his or her class in another region or country Together their students engage and develop joint projects usually over a continuous five to eight week period Compared to the limited number of students worldwide who can engage in study abroad COIL VE potentially opens up more equitable and inclusive participation in international education and intercultural experiences to all students involves them in rigorous disciplinary and interdisciplinary studies and promotes close and constructive engagement with students with different cultural perspectives While many COIL courses are launched by individual instructors based on their research connections and online outreach they are being increasingly supported and led by dedicated COIL Coordinators who facilitate virtual exchanges and provide professional development This comprehensive guide covers COIL VE pedagogy provides examples of what takes place in the COIL classroom and explores what instructors and staff need to know to facilitate and support a variety of COIL courses across the curriculum It addresses how institutional stakeholders especially those in leadership positions can develop and embed a successful COIL initiative at

their institution. It offers varied perspectives of COIL viewed from different institutional and cultural vantage points from research universities, community and technical colleges, and university systems and describes how COIL VE is developing in five different world regions presenting eleven case studies. The book concludes with a guide to thirteen global organizations that support COIL and other forms of VE. Additionally, the book provides links to the COIL Connect for Virtual Exchange website <https://coilconnect.org> which includes an updated directory of organizations, an expanding database of faculty and institutions participating in COIL, and looking for partners, course templates, survey data, and case studies. This book offers faculty and administrators across the world, whether formally involved in international education, in service learning, and community engagement, or wanting to incorporate a cross-cultural perspective in their disciplinary courses, theoretical foundations, guidance on effective collaboration, and the strategic and pedagogical considerations to develop robust COIL VE courses and programs.

Moving Beyond Icebreakers Stanley Pollack, Mary Fusoni, 2005. *Moving Beyond Icebreakers* contains 440 pages packed with insight and ideas about building community, engaging students in learning, and making meetings work. It describes an innovative meeting format and documents over 300 interactive exercises, not just icebreakers that enable readers to achieve group goals, build relationships, resolve group problems, teach, lead, motivate, and inspire. The first 130 pages describe how to use icebreakers and other interactive methods to help group members make decisions, create new ideas, solve problems, resolve conflicts, and understand new concepts. In these pages, you will find a five-part meeting structure that you can use to become an expert facilitator following an approach that engages both youth and adults in meeting the group's goals. You will also find detailed agendas, lesson plans, and scenarios that show how this approach works in the real world. Table of contents: Why use interactive methods? Working into interaction. Coping with resistance and fear of failure. The interactive meeting format. Interactive exercises: name exercises, warm-up questions, five-minute springboard exercises, fifteen-minute springboard exercises, in your chair springboard exercises, tag-style springboard exercises, springboard exercises for groups, both large and small. The rest of the springboard exercises: work station exercises, evaluation exercises.

Adventures in Guidance Terry Kottman, Jeffrey S. Ashby, Donald G. DeGraaf, 2001. The authors use activities in adventure learning to help children look at their problems and learn new skills in communication, problem solving, self-confidence, and more.

Successful Meetings, 1996-10 *Interscholastic Athletic Administration*, 2002 *CLENExchange*, 1998 **Thrust**, 1981 *Creative New Employee Orientation Programs: Best Practices, Creative Ideas, and Activities for Energizing Your Orientation Program* Doris M. Sims, 2001-12-21. New employee orientation is the most commonly offered type of training in organizations, yet very few books have been published on the topic. *Creative New Employee Orientation Programs* is filled with downloadable, customizable training games, sample curriculum, handouts, and checklists used in leading organizations such as Arthur Anderson, Ford, Micron, and Alcatel. Whether creating an orientation program for the first time, enhancing an existing program, or moving orientation online, HR pros will find ideas and tools they can use immediately.
