 TEAM *Writing Built Environment Dissertations and Projects* Peter Farrell,2016-03-28 Writing Built Environment
 Dissertations and Projects will help you to write a good dissertation or project by giving you a good understanding of what
 should be included and showing you how to use data collection and analysis tools in the course of your research Addresses
 prominent weaknesses in under graduate dissertations including weak data collection superficial analysis and poor reliability
 and validity Includes many more in depth examples making it easy to understand and assimilate the concepts presented
 Issues around study skills and ethics are embedded throughout the book and the many examples encourage you to consider
 the concepts of reliability and validity Second edition includes a new chapter on laboratory based research projects
 Supporting website with sample statistical calculations and additional examples from a wider range of built environment
 subjects **Nylon and Bombs** Pap Ndiaye,2007-01-31 What do nylon stockings and atomic bombs have in common DuPont
 The chemical firm of DuPont de Nemours pioneered the development of both nylon and plutonium playing an important role
 in the rise of mass consumption and the emergence of the notorious military industrial complex In this fascinating account of
 the lives and careers of Du Pont s chemical engineers Pap A Ndiaye deftly illustrates the contribution of industry to the
 genesis of a dominant post World War II American model connecting prosperity with security The consumer and military
 dimensions of twentieth century American history are often studied separately Ndiaye reunites them by examining Du Pont s
 development of nylon which symbolized a new way of life and plutonium which was synonymous with annihilation Reflecting
 on the experiences and contributions of the company s engineers and physicists Ndiaye traces Du Pont s transformation into
 one of the corporate models of American success **Mechanical Engineer Log (Logbook, Journal - 124 Pages 6x9**
