Stephen W. Hiemstra,2019-04-26 As Christians how do we know what we know This simple question challenges the nature of information how we learn decision making who we are and who this God is that we worship If this challenge appears optional it is not our post Christian culture questions every faith assumption Simple Faithexamines these questions and discusses implications for faith and life An important implication of this study is that faith plays a critical role into how we think learn and make decisions in the context of limited resources and an uncertain future Even scientific inquiry requires faith which normally gets hidden in untested assumptions and presumptions about what is interesting to investigate Often the critical arguments driving our decisions are not cold hard facts but the stories that we tell in the midst of complex decision environments The timing of this inquiry is critical The movement from modern to postmodern thinking has upended most institutions but especially the Christian church The separation of heart and mind which characterizes modern thinking eroded faith leaving the church in a weak position to adapt to the rapid changes accompanying postmodernism Ironically postmodern thinking that values storytelling favors

Christian faith because the Gospel of Jesus Christ is the best story around [Magic of Impromptu Speaking: Create a Speech That Will Be Remembered for Years in Under 30 Seconds\(Chinese Edition\)](#) Andrii Sedniev,2014
