Vázquez Bravo ,2024-07-02 Historically martial arta have been regarded as a means of

developing both physical and mental capabilities which is a fundamental aspect of any self defence system Discipline rigorous physical training and above all a vision of war and the destruction of the enemy by any means have accompanied the practice of many of the styles However new trends have been emerging in the ever changing world of martial arts It should be noted

that any style of martial art can be beneficial for achieving physical and spiritual growth. However, the martial art known as Aikido is one that has been developing in Puerto Rico and many Latin American countries. This is particularly relevant to those seeking a philosophy of life as humanity is moving towards new social, political, and economic frontiers. Our future aspirations include integration and peaceful social coexistence. These aspirations align with the view that violence should not be used as a mechanism for solving problems between human beings. The social cost of violence is too high for it to represent an answer for the future. Aikido is completely in tune with these aspirations, and the times. Aikido is a process by which we achieve a state of harmony first with ourselves and then with everything around us. We cannot give that which we do not possess.

Vázquez Bravo,2022-01-27 Las artes marciales se han caracterizado históricamente por ser mecanismos de desarrollo físico y mental lo cual es un aspecto fundamental en cualquier sistema de defensa personal La disciplina el entrenamiento físico riguroso y sobre todo una visión de guerra y destrucción del enemigo por cualquier vía han acompañado la práctica de muchos de los estilos No obstante nuevas tendencias se han venido manifestando en el siempre interesante mundo de las artes marciales Sin ánimo de menospreciar ningún estilo de arte marcial ya que en cualquiera de los muchos estilos que existen el individuo puede lograr su meta de crecimiento físico y espiritual el arte marcial conocido como Aikido es uno que ha venido desarrollándose en constante expansión en Puerto Rico y en muchos países Latinoamericanos Especialmente entre aquellas personas que andan buscando más que un método de defensa personal una filosofía de vida La humanidad se va moviendo hacia nuevas fronteras sociales políticas y económicas Tendencias de integración e interconvivencia social pacífica son nuestras aspiraciones para el futuro Dentro de estas nuevas tendencias es claro que no debe haber cabida para la violencia como mecanismo para resolver los problemas entre los seres humanos El costo social de la violencia es demasiado alto como para que pueda representar una respuesta de futuro Es por esta razón que el Aikido se encuentra en completa sintonía y la altura de los tiempos ante estas aspiraciones El Aikido no es sino un mecanismo por el cual se logra acceder a un estado de armonía primero con nosotros mismos y posteriormente con todo lo que nos rodea pues no podemos dar aquello que no poseemos
