Handbook on the Economics of Natural Resources Robert Halvorsen, David F. Layton, 2015-02-27 The topics discussed in the Handbook on the Economics of Natural Resources are essential for those looking to understand how best to use and conserve the resources that form the foundation for human well being These include nonrenewable resources mod

Economics of Agricultural Development George W. Norton, Jeffrey Alwang, William A. Masters, 2014-09-25 Economics of Agricultural Development examines the causes severity and effects of poverty population growth and malnutrition in developing countries It discusses potential solutions to these problems progress made in many countries in recent years and the implications of globalization for agriculture poverty and the environment Topics covered in the book include Means for utilizing agricultural surpluses to further overall economic development The sustainability of the natural resource environment Gender issues in relation to agriculture and resource use The contribution of agricultural technologies The importance of agricultural and macroeconomic policies as related to development and trade and the successes and failures of such policies Actions to encourage more rapid agricultural and economic development The globalization of trade in goods services and capital has been fundamental to changes being

experienced in the agricultural and rural sectors of developing countries It has major implications for the fight against poverty and food insecurity and for environmental sustainability Recently agriculture has returned to a position of center stage in the development dialog as food price volatility has increased along with water scarcity and concerns grow over the effects of climate change on food supply and food security This new edition of the essential textbook in the field builds on the 2010 edition and reflects the following developments Growth in foreign demand for land and other natural resources Significant progress in agricultural and economic development in some low income countries while others are being left behind Continued growth in demand for higher valued farm products This book is essential reading for undergraduate students seeking to understand the economics of agricultural development and the world food system including environmental and human consequences international trade and capital flows

Institutional Economics Perspectives on African Agricultural Development Johann Kirsten, 2009-01-01 Millions of Africans spend their entire lives poor hungry and malnourished and most depend on agriculture for their livelihoods either directly or indirectly Despite its potential to drive economic growth and poverty reduction however African agricultural development has remained disappointing whether because of underinvestment or poor returns to investments This book Institutional Economics Perspectives on African Agricultural Development is inspired by the conviction that effective African agricultural development requires building better institutions It provides an accessible synthesis of new institutional economics theory and research into understanding and improving African agriculture particularly smallholder agriculture Interspersing theory with case studies from a wide range of countries the book addresses such policy issues as how markets for different commodities and services function in different political cultural and economic contexts It not only makes an important contribution to the existing literature but also provides development practitioners policymakers and graduate students working or intending to work in these fields with essential knowledge and tools for addressing these challenges

OVERVIEW Theoretical and Conceptual Framework Exchange in Goods and Services Natural Resources Management and An Institutional Perspective on the State Its Role and Challenges

Global Innovation Index 2017 Cornell University, INSEAD, World Intellectual Property Organization, 2017 The Global Innovation Index provides detailed metrics about the innovation performance of 127 countries and economies around the world Its 81 indicators explore a broad vision of innovation including political environment education infrastructure and business sophistication This year's report reviews the state of innovation in agriculture and food systems across sectors and geographies Chapters of the report provide more details on this year's theme from academic business and particular country perspectives from leading experts and decision makers

The Economics of Agricultural Development George W. Norton, Jeffrey Alwang, William A. Masters, 2014-06-03 Persistent problems with poverty rapid population growth and malnutrition in many developing countries are among the most serious issues facing the world today This book examines the causes severity and effects of these problems as well as potential solutions The authors consider the

implications of globalization of goods services and capital for agriculture poverty and the environment and identify linkages in the world food system stressing how agricultural and economic situations in poor countries affect industrialized nations and vice versa Focusing on the role that agriculture can play in improving economic and nutritional wellbeing and how that role might be enhanced this book is essential reading **The Theory and Practice of Microcredit** Wahiduddin

Mahmud,S. R. Osmani,2016-10-04 The remarkable speed at which microcredit has expanded around the world in the last three decades has piqued the curiosity of practitioners and theorists alike By developing innovative ways of making credit available to the poor the idea of microcredit has challenged many traditional assumptions about both poverty reduction strategies and financial markets While this has encouraged new theorising about how microcredit works the practice of microcredit has itself evolved often in unpredictable ways outpacing the development of theory The Theory and Practice of Microcredit aims to remedy this imbalance arguing that a proper understanding of the evolution of practice is essential both for developing theories that are relevant for the real world and for adopting policies that can better realize the full potential of microcredit By drawing upon their first hand knowledge of the nature of this evolution in Bangladesh the birthplace of microcredit the authors have pushed the frontiers of current knowledge through a rich blend of theoretical and empirical analysis The book breaks new grounds on a wide range of topics including the habit forming nature of credit repayment the institutional strength and community based role of microfinance institutions the relationships between microcredit and informal credit markets the pattern of long term participation in microcredit programmes and the variety of loan use the scaling up of microenterprises beyond subsistence the missing middle in the credit market and the prospects of linking micro entrepreneurship with economic development The book will be of interest to researchers development practitioners and university students of Development Economics Rural Development or Rural Finance as well as to public intellectuals

How to make Agricultural Extension Demand Driven? The Case of India's Agricultural Extension Policy Regina Birner and Jock R. Anderson,2007 [Rice Green Revolution in Sub-Saharan Africa](#) Keijiro Otsuka,Yukichi Mano,Kazushi Takahashi,2023-03-01 This open access book seeks effective strategy to realize a rice Green Revolution in sub Saharan Africa based on more than ten years of research team s inquiries into determinants and consequences of new technology adoption in rice farming in seven countries in this region Rigorous statistical analyses are carried out by using valuable household data of rice farmers The book is actually sequel to the two earlier books on the same subject published by Springer and edited by K Otsuka and D F Larson An African Green Revolution published in 2013 and In Pursuit of an African Green Revolution in 2016 The main message of the first book was that rice is the most promising cereal crop in SSA because of the high transferability of Asian rice technology whereas that of the second book was that rice cultivation training programs are effective in significantly increasing rice yield in SSA This third book has wider coverage in terms of topics study periods and study sites It continues to show the significant impacts of rice cultivation training on productivity and newly demonstrates

the high sustainability of the productivity impact of the training and the existence of spillover effects from trainees to other farmers by using panel data We newly assess the important role of mechanization in intensification of rice farming high returns to large scale irrigation schemes and the critical role of rice millers in improving the quality of milled rice Based on these studies this book provides clear pathways toward full fledged Green Revolution in rice farming in sub Saharan Africa

Reasserting the Rural Development Agenda Arsenio Molina Balisacan, Nobuhiko Fuwa, 2007 Presents a reinvigorated agenda on agricultural and rural development in Asia both for research and policy discussions in the coming decades

Growth and Productivity in Agriculture and Agribusiness, 2011 The report assesses the World Bank Group's support for growth and productivity in the agriculture sector Enhancing agricultural growth and productivity is essential to meeting the worldwide demand for food and to reducing poverty particularly in the poorest developing countries Between 1998 and 2008 the period covered by this evaluation the World Bank Group WBG provided 23.7 billion in financing for agriculture and agribusiness in 108 countries roughly 8 percent of total WBG financing spanning areas from irrigation and marketing to research and extension However this was a time of declining focus on agricultural growth and productivity by both countries and donors The cost of inadequate attention to agriculture especially in agriculture based economies came into focus with the food crisis of 2007-08 The crisis added momentum to an emerging renewal of attention and stepped up financing to agriculture and agribusiness at the World Bank and International Finance Corporation IFC as well as at several multilateral and bilateral agencies World Bank financing rose two and a half times from 2008 to 2009 though that increase in lending seems to have been accompanied by a decline in analytical work which this review finds valuable for results This evaluation seeks to provide lessons from successes and failures to help improve the development impact of the renewed attention to the sector Ratings against the World Bank's stated objectives and IFC's market based benchmarks for agriculture and agribusiness projects have been equal to or above portfolio averages in East Asia Latin America and the transition economies in Europe with notable successes over a long period in China and India But performance of WBG interventions has been well below average in Sub Saharan Africa where IFC has had little engagement in agribusiness Inconsistent client commitment and weak capacity have limited the effectiveness of WBG support in agriculture based economies particularly in Sub Saharan Africa and constraints on staffing and internal coordination within the WBG have also hurt outcomes Financial sustainability has been constrained by insufficient government funding and the difficulty of maintaining agricultural services and infrastructure The WBG has a unique opportunity to match the increases in the financing for agriculture with sharper focus on improving agricultural growth and productivity in agriculture based economies notably in Sub Saharan Africa Greater effort will be needed to connect sectoral interventions and achieve synergies from public and private sector interventions to build capacity and knowledge exchange to take stock of experience in rain fed agriculture to ensure attention to financial sustainability and to cross cutting issues of gender environmental and

social impacts and climate and to better integrate WBG support at the global and regional levels with that at the country level

Minnesota Agricultural Economist ,2007 **Handbook of Agricultural Economics 3** ,2007 New Directions for Smallholder Agriculture Peter B. R. Hazell,Atiqur Rahman,2014 At the same time many other smallholders are successfully intensifying and succeeding as farm businesses often in combination with diversification into off farm sources of income

Handbook on Urban Food Security in the Global South Jonathan Crush,Bruce Frayne,Gareth Haysom,2020-12-25 The ways in which the rapid urbanization of the Global South is transforming food systems and food supply chains and the food security of urban populations is an often neglected topic This international group of authors addresses this profound transformation from a variety of different perspectives and disciplinary lenses providing an important corrective to the dominant view that food insecurity is a rural problem requiring increases in agricultural production

The Future of Small Farms for Poverty Reduction and Growth Hazell, P.B.R.,Poulton, Colin,Wiggins, Steve,Dorward, Andrew,2007

Market Orientation of Smallholders in Selected Grains in Ethiopia Berhanu Gebremedhin,2008-01-01 **Global Supply Chains, Standards and the Poor** Johan F. M. Swinnen,2007 Using original research from Asia Africa Europe and Latin America this book reviews the recent restructuring of the global agri food industry and the dramatic rise of global retail chains in developing and transition countries It focuses on the private standards and requirements imposed by multinational companies investing in these countries and the resulting changes to existing supply chains It also examines the impact of these changes on local producers particularly poor farmers and considers the long term policy implications in terms of growth and poverty

Finance for Food Doris Köhn,2014-02-19 This book reflects the current state of discussion about agricultural and rural finance in developing and transition countries It provides insight into specific themes such as commodity value chains farm banking and risk management in agricultural banking structured finance crop insurance mobile banking and how to increase effectiveness in rural finance Case studies illustrate various aspects of agricultural and rural finance in developing economies The book is based on one of the yearly financial Sector Development Symposia held by the KfW Development Bank
