Handbook Of The Clinical Psychology Of Ageing:

Handbook of the Clinical Psychology of Ageing Robert T. Woods, Linda Clare, 2015-04-13 The first authoritative reference on clinical psychology and aging the Handbook of the Clinical Psychology of Ageing was universally regarded as a landmark publication when it was first published in 1996 Fully revised and updated the Second Edition retains the breadth of coverage of the original providing a complete and balanced picture of all areas of clinical research and practice with older people Contributions from the UK North America Scandinavia and Australia provide a broad overview of the psychology of aging psychological problems including depression anxiety psychosis and dementia the current social service context and assessment and intervention techniques

Handbook of Clinical Psychology of Ageing Robert T. Woods, 1996-07-17 This handbook focuses on the key areas in the psychology of ageing Problems associated with later life development and change Emotional problems and depression associated with loss of physical health and with losses and changes in the areas of social relationship and personal identity The important clinical context of service delivery including community care family care giving and institutional aspects A broad range of therapeutic orientations including cognitive behavioural psychodynamic and family therapy approaches It is hard to do justice to the breadth of material in this book I have found the reading of it both stimulating and enlightening despite believing that I was familiar with most of the topics and have no doubt that I will be using it for reaching and reference purposes into the next millennium if there is one book a Clinical Psychologist working with older people needs this is it Steve Boddington International Journal of Social Psychiatry

Handbook of the Psychology of Aging K Warner Schaie, Sherry L. Willis, 2010-12-21 The Handbook of the Psychology of Aging Seventh Edition provides a basic reference source on the behavioral processes of aging for researchers graduate students and professionals It also provides perspectives on the behavioral science of aging for researchers and professionals from other disciplines The book is organized into four parts Part 1 reviews key methodological and analytical issues in aging research It examines some of the major historical influences that might provide explanatory mechanisms for a better understanding of cohort and period differences in psychological aging processes Part 2 includes chapters that discuss the basics and nuances of executive function the history of the morphometric research on normal brain aging and the neural changes that occur in the brain with aging Part 3 deals with the social and health aspects of aging It covers the beliefs that individuals have about how much they can control various outcomes in their life the impact of stress on health and aging and the interrelationships between health disparities social class and aging Part 4 discusses the emotional aspects of aging family caregiving and mental disorders and legal capacities in older adults Contains all the main areas of psychological gerontological research in one volume Entire section on neuroscience and aging Begins with a section on theory and methods Edited by one of the father of gerontology Schaie and contributors represent top scholars in gerontology

Handbook of the Psychology of Aging James E. Birren, K Warner Schaie, 2011-04-27 Handbook of the Psychology of Aging 6e provides a comprehensive summary and

evaluation of recent research on the psychological aspects of aging The 22 chapters are organized into four divisions Concepts Theories and Methods in the Psychology of Aging Biological and Social Influences on Aging Behavioral Processes and Aging and Complex Behavioral Concepts and Processes in Aging The 6th edition of the Handbook is considerably changed from the previous edition Half of the chapters are on new topics and the remaining half are on returning subjects that are entirely new presentations by different authors of new material Some of the exciting new topics include Contributions of Cognitive Neuroscience to Understanding Behavior and Aging Everyday Problem Solving and Decision Making Autobiographical Memory and Religion and Health Late in Life The Handbook will be of use to researchers and professional practitioners working with the aged It is also suitable for use as a textbook for graduate and advanced undergraduate courses on the psychology of aging The Handbook of the Psychology of Aging Sixth Edition is part of the Handbooks on Aging series including Handbook of the Biology of Aging and Handbook of Aging and the Social Sciences also in their 6th editions

Handbook of the Psychology of Aging, 2001 **Handbook of Clinical Behavior Therapy with the Elderly Client** Patricia A. Wisocki, 1991-04-30 Although we speak of the elderly as if there were one body of people with common characteristics older adults are more heterogeneous than any other population People over the age of 65 are also the fastest growing segment of the population in the United States currently numbering 25 million The majority of older adults reside in their communities a small fraction of them are cared for in institutions Most may expect to experience some kind of physical impairment Approximately a quarter of the population may expect to suffer a mental health impairment While traditional therapies have not been especially effective for older adults behavior therapy has shown exceptional promise as a treatment modality This book presents a comprehensive explication of the relatively new field of behavioral gerontology It was written for the clinician interested in the interaction of medical environmental and psychological variables and their effects on treatment of elderly clients and for the researcher who will be looking to extend knowledge about interventions with this population It will be useful for the graduate student in clinical psychology as well as the experienced clinician who will want to include the elderly in his or her therapeutic population

Handbook of Clinical Geropsychology Michel Hersen, Vincent B. Van Hasselt, 1998-08-31 Over the last two decades the number of persons over 65 has increased by 65% Handbook of Clinical Geropsychology focuses attention on how the contributions of clinical psychology address the problems faced by this enormous population In the first part chapters cover a historical perspective clinical geropsychology and U S federal policy psychodynamic issues and other key topics Part II details assessment and treatment for a wide range of disorders affecting the elderly Part III considers such special issues as family caregiving minority issues physical activity and elder abuse and neglect

International Handbook of Positive Aging Rachael E Docking, Jennifer Stock, 2019-12-12 As our global demographic shifts towards an increasingly aging population we have an opportunity to transform how we experience and think about getting older and embrace the diversity and contribution that this population can bring to society The

International Handbook of Positive Aging showcases the latest research and theory into aging examining the various challenges faced by older adults and the ways in which we can bring a much needed positive focus towards dealing with these. The handbook brings together disparate research from medical, academic, economic and social community fields with contributions from NHS partners, service users, universities across the United Kingdom and collaborations with international research leaders in the field of aging. Divided into sections, the first part of the book focuses on introducing the concept of positive aging, before going on to cover the body over the life course, well being and care delivery. All contributors recognise the fact that we are living longer, which is providing us with a tremendous opportunity to enjoy and flourish in healthy and fulfilling later lives, and this focus on the importance of patient empowerment is integral to the book. This is a valuable reference source for those working in developmental psychology, clinical psychology, mental health, health sciences, medicine, neuropsychological rehabilitation, sociology, anthropology, social policy and social work. It will help encourage researchers, professionals and policymakers to make the most of opportunities and innovations to promote a person's sense of independence, dignity, well being, good health and participation in society as they get older. *Handbook of Mental Health and Aging* James E. Birren, Gene D. Cohen, R. Bruce Sloane, Barry D. Lebowitz, Donna E. Deutchman, May Wykle, Nancy R. Hooyman, 2013-10-22. This book is a thorough revision of one of the most comprehensive reference volumes for persons working in the area of aging and mental health. The thrust of the work is interdisciplinary and discusses research on both clinical and practical issues in aging and mental health. The multidisciplinary nature of this book and the inclusion of subject matter from the professional as well as research realm result in a level of comprehensiveness which is distinct in the field of mental health and aging. Each chapter contains a comprehensive bibliography, the compilation of which represents a definitive reference source in the field. The chapters review state of the art research in the biological, behavioral and social sciences and represent the cutting edge of current practice in psychiatry, neurology, social work, nursing, psychology and pharmacology among other professions. The compilation of prevalence data is a much needed addition to the current literature. The multidisciplinary nature of this book and the inclusion of both clinical and practical issues makes the book distinctively comprehensive.
