appropriated as democratic cultural heritage by the folk and political song movements of East and West Germany after 1945. The songs reflect the new oppositional political consciousness that emerged during the post 1830 period of restoration and led to the revolution. The book makes use of broadsides, songbooks, newspaper reports and manuscripts to document the songs' transmission and shed light on the milieus in which they circulated. It also demonstrates how the appropriation of these songs by the German Liedermacher and folk scene shaped today's cultural memory of the 1848 period. It illuminates the functioning of political ideology in these reception processes which in turn have given rise to myths that have influenced the discourse on the 1848 songs. nt the songs' transmission and shed light on the milieus in which they circulated.
