Measuring the Effects of Racism Robert T. Carter, Alex L. Pieterse, 2020-07-21 A large body of research has established a causal relationship between experiences of racial discrimination and adverse effects on mental and physical health In *Measuring the Effects of Racism* Robert T Carter and Alex L Pieterse offer a manual for mental health professionals on how to understand assess and treat the effects of racism as a psychological injury Carter and Pieterse provide guidance on how to recognize the psychological effects of racism and racial discrimination They propose an approach to understanding racism that connects particular experiences and incidents with a person s individual psychological and emotional response They detail how to evaluate the specific effects of race based encounters that produce psychological distress and possibly impairment or trauma Carter and Pieterse outline therapeutic interventions for use with individuals and groups who have experienced racial trauma and they draw attention to the importance of racial awareness for practitioners The book features a racial trauma assessment toolkit including a race based traumatic stress symptoms scale and interview schedule Useful for both scholars and practitioners including social workers educators and counselors *Measuring the Effects of Racism* offers a new framework of race based traumatic stress that helps legitimize psychological reactions to experiences of racism

PSYCHOLOGY: Research Innovations in young minds Dr Aneesh V Appu & Dr Subha Sachithanand, 2020-09-23 For the past years more emphasis has been given in understanding the level of cultural adjustment that individuals face on migrating to a new country Not much attention has been given on studying repatriates This phenomenological study deals with the experiences of 17 Indian repatriates their emotional challenges and the various coping strategies that they had to employ in order to smoothen their repatriation process on returning to their home country Six main themes were identified on applying thematic analysis to the individual semi structured interviews relief from hardships faced in the host country stronger bond with the home country feeling of being an alien in your home country dynamic factors upon repatriation emotive encounters and coming to terms with chaos associated with repatriation Findings from the study shows that the repatriates had faced many emotional challenges such as feeling of alienation difficulty in adjusting to the old culture and getting a job adjusting to the new work settings grief on leaving the host country idleness and laziness felt on repatriation societal and familial pressure and financial struggles Financial security positive adjustment to the new work settings and the new income scale lessons learned from the hostile experiences faced while abroad pre arrangements done in the home country before repatriating and reintegrating host culture into home culture served as an effective coping strategy which eventually helped them in their successful repatriation over time

Health Psychology Shelley E. Taylor,Annette L. Stanton,2020 When I wrote the first edition of Health Psychology over 30 years ago the task was much simpler than it is now Health psychology was a new field and was relatively small In recent decades the field has grown steadily and great research advances have been made Chief among these developments has been the use and refinement of the biopsychosocial model the study of health issues from the standpoint of biological psychological and social factors acting together In creasingly research has attempted to identify the biological pathways by which psychosocial fac tors such as stress may adversely affect health and potentially protective factors such as social support may buffer the impact of stress My goal in the tenth edition of this text is to convey this increasing sophistication of the field in a manner that makes it accessible comprehensible and exciting to undergraduates *Health Psychology* Shelley E. Taylor,2003 Offering a balanced perspective this text incorporates the latest research findings and statistics It provides explanations of biological psychological and social factors in health issues reinforced with case studies *Psychology* Carole Wade,Carol Tavris,1996 The aim of this book is to encourage students to think critically and imaginatively about psychology and to apply what they learn to their own lives and the world around them Included are quick quizzes to reinforce learning

Paludi,2014-05-28 Written by experts in psycho oncology this book synthesizes

the findings of the latest research on women's cancers to empower women to make informed choices about treatment options. Each year hundreds of thousands of women are diagnosed with cancer in the United States alone. The total number affected is larger still, comprising siblings, parents, partners, and children of these women. In this single volume, work an international team of experts address the physical, medical, and psychological matters that are triggered by a diagnosis of having a form of women's cancer: breast, cervical, endometrial, gestational, ovarian, uterine, vaginal, and vulvar, being some of the more common. The handbook examines and explains each type of women's cancer, covering the specifics of incidence, diagnosis, treatment options, and more, providing an up-to-date guide for women and their families to assist in making informed choices about their treatment options. The book includes personal accounts from women who survived cancers and beat their emotional challenges, addresses myths versus realities regarding women's cancers, and covers relevant related topics such as race, sexual orientation, religion, and cancer coping. Special attention is given to the impact of women's cancers on relationships, intimacy, and body image, as well as psychological factors such as anxiety, depression, and fear.
