The Transformation of American Political Culture and the Impact on Foreign Strategy PAN Yaling, 2021-12-30 This book examines the interplay between political culture and diplomatic strategy in the U S revealing the transformation of American political culture and its impact on the country's foreign strategy The theoretical pivot of this study is an analysis of the dynamics of political culture and the mechanisms of the interaction between political culture and diplomatic strategy Given this premise the core chapters revisit the historical transformations of American political culture and analyze the responses and countermeasures taken to attempt to reverse the perceived decline in American hegemony during the presidencies of George W Bush Barack Obama and Donald Trump factors interwoven with security economic and institutional crises The discussion describes the landscape and evolution of contemporary American political culture and the correlated adjustments of U S global strategy over the course of the twenty first century Given the myriad of challenges and political legacies left by its predecessors the author gives a pessimistic prognosis of the prospect of resolving America's political plight by the Joe Biden administration The title will be a valuable reference for academic and general readers interested in American politics U S diplomatic strategy and international relations

Young People, Media and Politics in the Digital Age Vera Slavtcheva-Petkova, 2023-10-27 The book explores the relationship among young people politics and the media It presents a novel multidimensional analytical framework The Circle Line Media Model which accounts for the importance of a range of processes actors and social structures in the political socialisation process By defining political socialisation as a lifelong

interactive process that develops civic cultures collective identities and citizenship underpinned by social structures nationality and generational order the author draws attention to its manifestation in acts of political participation and interactions with authoritative actors such as school teachers family the media and friends peers The volume s longitudinal study on young people Europe and the media spanning 13 years of research in two very different countries also makes recommendations for more effectively engaging young people with politics and political media based on Generation Z s own views about current deficiencies in their relationship with news media Shedding new light on the changing nature of young people s engagement with politics this book will be of interest to researchers lecturers professors and upper level undergraduate and postgraduate students in the fields of media studies communication and journalism studies as well as politics and sociology

Politics Recoded Aure Schrock, 2024-09-24 The first detailed history of Code for America that examines how democratically designed government systems can collectively improve technology s impact on society For decades tens of thousands of volunteers and employees of Code for America have taken a different path to institutional change through designing and implementing infrastructure In *Politics Recoded* Aure Schrock employs a robust organizational ethnography to analyze how Code for America s infrastructural organizing changed how politics get exercised showing how we citizens can work directly with the government on projects to improve our collective livelihoods Drawing from theories of organizing social infrastructure racialized organizations technical cultures and intersectionality Schrock argues that our post techlash society must no longer presume that corporate platforms or social networks can level social inequities An underrecognized yet influential organization Code for America emerged from a tech culture background that prioritized networks and publicity over the long slow work of institutional change But its evolution demonstrates how to push beyond the fundamental flaws of tech forward organizing This the first history of Code for America shows how promoting agentic citizenship and brokering in empathy let the organization influence policy at all levels of government and demonstrates why we need to bolster institutions to ensure that everyone is justly represented and receiving the benefits Appealing to those in political science communication and information studies *Politics Recoded* will empower practitioners and activists to revolutionize technological design and participate in alternative forms of civic engagement

The Politics of Vietnamese Craft Jennifer Way, 2019-10-03 Jennifer Way s study *The Politics of Vietnamese Craft* uncovers a little known chapter in the history of American cultural diplomacy in which Vietnamese craft production was encouraged and shaped by the US State Department as an object for consumption by middle class America Way explores how American business and commerce department stores the art world and national museums variously guided the marketing and meanings of Vietnamese craft in order to advance American diplomatic and domestic interests Conversely American uses of Vietnamese craft provide an example of how the United States aimed to absorb post colonial South Vietnam into the Free World in a Cold War context of American anxiety about communism spreading throughout Southeast Asia Way focuses in particular on the

part played by the renowned American designer Russel Wright contracted by the US International Cooperation Administration's aid programs for South Vietnam to survey the craft industry in South Vietnam and manage its production distribution and consumption abroad and at home. Way shows how Wright and his staff brought American ideas about Vietnamese history and culture to bear in managing the making of Vietnamese craft. *Comparative Hong Kong Politics* Mathew Y. H. Wong, 2017-04-03 This guidebook for students offers a survey of comparative politics intended for use in Hong Kong. Hong Kong is one of the world's great cities but its political future has never been hazier. Mass protests, contested elections, a 2047 transition causing uncertainty in financial and business elites for Hong Kong: it is the best of times as well as the worst of times. Hong Kong University politics scholar Matthew Wong brings a clear-headed and fact-based approach introducing Hong Kong to scholars of comparative politics even as he introduces comparative politics to students in Hong Kong with this new area-specific reference work: a mix of theory and insights into how political theory can be of value in understanding the case of Hong Kong, complete with datasets and quantitative information that helps to disentangle fact from myth. For Hong Kong residents, scholars, students, and members of civil society, this book will be a breath of fresh air. The Rise of Duterte Richard Javad Heydarian, 2017-09-15 This book draws on the extensive literature on populism, democracy, and emerging markets as well as interviews with senior government officials, experts, and journalists in the Philippines and beyond. This book is the first to analyze the significance and implications of the rise of Filipino president Rodrigo Duterte within a rapidly changing Asia-Pacific region. As China's power in the Pacific grows rapidly, nations that have traditionally been US allies such as the Philippines are experiencing political convulsions. Duterte's open willingness to realign towards China at the expense of America in exchange for infrastructure investment is one of the clearest indicators of what China's rise might look like for nations around the world. Timely, precise, accessible, and fast-paced, this book will be of value to scholars, journalists, policy makers, and China watchers. **An Introduction to Engaged Buddhism** Paul Fuller, 2021-08-12 This textbook introduces and explores the ideas, practices, and philosophy of engaged Buddhism. The movement holds that suffering is not just caused by the cravings of the mind but also by political and social factors; therefore, engaged Buddhists engage with social issues to achieve liberation. Paul Fuller outlines the movement's origins and principles. He then offers a comprehensive analysis of the central themes and issues of engaged Buddhism, offering new insights into the formation of modern Buddhism. The range of issues covered includes politics, gender, environmentalism, identity, blasphemy, and violence. These are illustrated by case studies and examples from a range of locations where Buddhism is practised. Discussion points and suggested further reading are provided at the end of each chapter, which will further enrich undergraduates' grasp of the topic. Democratic Practice and Governance in Nigeria Ebenezer Oluwole Oni, Omololu Michael Fagbadebo, Dhikru Adewale Yagboyaju, 2020-06-08 This book examines the challenges confronting the practice of democracy and governance in Nigeria. The book examines the theoretical underpinnings and the procedural and institutional components of democratic

practice in Nigeria including the challenges associated with elections the legislature the media and gender issues Approaching the pluralistic characteristics of the Nigerian state and how they impede democratisation through contributions by experts and scholars in the field the book analyses the issues and nuances inherent to governance and democracy in Nigeria as well as domestic policy process global governance and human security Democratic Practice and Governance in Nigeria will be of interest to students and scholars of African politics and democratisation

Hong Kong 20 Years after the Handover Brian C.H. Fong,Tai-Lok Lui,2017-10-10 This book examines the socio political conflicts which have arisen since Hong Kong's return to China and confronts the fundamental problems in the design of the One Country Two Systems OCTS Model It considers not only the issue of democratization but also the institutional fractures in the executive dominant political system and the disconnection between the executive and the legislature It describes the drastic changes which have affected social mobilization and political activism in Hong Kong as well as the pattern of interaction between the government and civil society This edited volume brings together a team of cutting edge researchers to examine the operation of the One Country Two Systems OCTS Model in Hong Kong over the past 20 years The discussion and analysis offered by the contributors will cast light on social and political tensions and conflicts that will continue to unfold in the coming years This timely account published on the 20th anniversary of the handover will be a valuable read for students and scholars of Chinese and East Asian studies

Translation and Interdisciplinarity Faruk Yücel,Mehmet Tahir Öncü,2022-12-12 Interdisciplinarity is significant in the age of globalization and digitalization It creates new opportunities through comparison and analysis of different findings and methods Furthermore it expands the boundaries of each discipline each topic or phenomenon can be viewed under a whole new light Instead of conventional or traditional methods interdisciplinary cooperation can lead to innovative approaches that can contribute to the value of each discipline involved It also requires respect and recognition between disciplines their independent positions could be questioned or justified based on their interrelationship Moreover interdisciplinary work brings together diverse experts who cooperate and share their findings with each other In this sense interdisciplinarity can be seen as a dialogue between disciplines In this complex interaction a third field may emerge that transcends the boundaries of each independent discipline Since relatively young Translation Studies has long been influenced by other disciplines its boundaries could be defined through interdisciplinarity In this book numerous translation scholars engage with the relationship between translation and other disciplines Translation here is not only to be understood as a transmission of texts but in a broader sense as denoting a transformation of different phenomena that could be studied both as a product and as a process

When Students Protest Judith Bessant,Analia Mejia Mesinas,Sarah Pickard,2021-08-20 Student political action has been a major and recurring feature of politics across the globe throughout the past century Students have been involved in a full range of public issues from anti colonial movements anti war campaigns civil rights and pro democracy movements to campaigns against neoliberal policies austerity racism

misogyny and calls for climate change action Yet student protest actions are frequently dismissed by political elites and others as adolescent mischief or manipulation of young people by duplicitous adults This occurs even as many working in government traditional media and educational organisations attempt to suppress student movements Much of mainstream scholarly work has also deemed student politics as undeserving of intellectual attention These three edited volumes of books help set the record straight Written by scholars and activists from around the world When Students Protest Secondary and High Schools is the first of a three volume study The authors document and analyse how generations of secondary and high school students in many countries have been thoughtful committed and effective political actors and especially so over the past decade This book also reveals moves by power holders to stigmatise repress and even criminalise student political campaigns While these efforts were sometimes successful this volume shows that whether responding to problems within schools or engaging the major public issues of the day school activists have renewed and revived the political culture of their society while also challenging long held age based prejudices

Government Ideology, Economic Pressure, and Risk Privatization Alexander Horn, 2025-10-01 From the 1980s on a privatization of labor market related risks has occurred in the OECD Governments have cut the generosity of social programs and tightened eligibility rules particularly for the unemployed Government Ideology Economic Pressure and Risk Privatization How Economic Worldviews Shape Social Policy Choices in Times of Crisis analyses these curtailments for eighteen countries over the course of four decades and provides an encompassing comparative assessment of the interactive impact of government ideology and economic pressure It demonstrates that the economic worldviews of governments are the most important factor in explaining why cuts are implemented or not While ideas of non intervention in the market underlie cuts in generosity ideas of equality and fairness are at the heart of stricter eligibility criteria This book also shows that the impact of the economic pressures often held responsible for the marginalization of politics and government ideology is in fact conditional on the specific ideological configuration

Radical Identity Politics Torben Bech Dyrberg, 2020-07-31 This book outlines significant traits of radical leftist identity politics In this type of discourse arguments are organized around global friend enemy schemes in ways that are at odds with the right left matrix of democracy This is shown by combining discourse analysis of how leftist critics argue in public debates centred on their reactions to the Charlie Hebdo massacre in 2015 and theoretical discussions on leftist identity politics orbiting around Schmitt Marcuse and Mouffe It is argued that the friend enemy approach sacrifices the egalitarian and libertarian core values of the Left leading it to adopt positions used to brand the reactionary Right It also holds that leftist identity politics undermines democracy by moralizing enmity and stigmatizing dissent and by promoting an elitist and relativist agenda Against this background the book looks at the nature of the right left distinction and its political functions in modern democracy This is further elaborated in relation to the works of Foucault and Rawls s analyses of parrhesia free speech and public reason which provide a more fruitful approach to right left and democracy than those based

on enmity For Foucault and Rawls a vibrant pluralist democracy relies on the autonomy of politics which secures a space in which citizens are free and equal which is crucial for free speech and assembly They focus on issues related to the autonomy of politics and the freestanding nature of public reason right left as lateral political orientation coupled with fairness as political justification and the links between regime form and political community as decisive for democracy

Revolutionizing Economic and Democratic Systems Kenneth Nordberg, 2016-11-23 This book responds to an increasingly pluricentric reflexive and flexible society as a result of globalization and economic liberation from the bureaucratic political system The third industrial revolution saw citizens companies and the economy acting in functional networks rather than in static ones making top down governing ever more difficult Despite this society systems created in the wake of the second industrial revolution linger on and must adapt to the globalized digitized reality in order to stay necessary and relevant Through a theoretical discussion and four empirical cases studying governance and innovation systems this volume is the first to describe the causes behind the impasse Western society seems to find itself in and suggests inclusive economic and democratic structures working in a bottom up fashion as a way out By understanding local circumstances as well as the innovative power of inclusive and participative structures we can begin to pave the way to legitimate governance and growth This book adds to the academic literature on democracy governance economy and innovation systems for researchers and scholars of political science social science and economics *Research Methods for Political Science* David E.

McNabb, 2020-12-30 The third edition of *Research Methods for Political Science* retains its effective approach to helping students learn what to research why to research and how to research The text integrates both quantitative and qualitative approaches to research in one volume and covers such important topics as research design specifying research problems designing questionnaires and writing questions designing and carrying out qualitative research and analyzing both quantitative and qualitative research data Heavily illustrated classroom tested exceptionally readable and engaging the text presents statistical methods in a conversational tone to help students surmount math phobia Updates to this new edition include Research topics chapters have been upgraded and expanded Two mixed methods design chapters have been added A new chapter on hermeneutic analysis designs and research with large data sets The chapter on multivariate statistics has been expanded with an expanded discussion on logistic regression Tools on how to prepare and present research findings are now featured in the appendix allowing instructors more flexibility when teaching their courses *Research Methods for Political Science* will give students the confidence and knowledge they need to understand the methods and basics skills for data collection presentation and analysis **The Palgrave Handbook of Islam in Africa** Fallou Ngom, Mustapha H. Kurfi, Toyin Falola, 2020-09-26 This handbook generates new insights that enrich our understanding of the history of Islam in Africa and the diverse experiences and expressions of the faith on the continent The chapters in the volume cover key themes that reflect the preoccupations and realities of many African Muslims They provide readers access to a comprehensive treatment

of the past and current traditions of Muslims in Africa offering insights on different forms of Islamization that have taken place in several regions local responses to Islamization Islam in colonial and post colonial Africa and the varied forms of Jihad movements that have occurred on the continent The handbook provides updated knowledge on various social cultural linguistic political artistic educational and intellectual aspects of the encounter between Islam and African societies reflected in the lived experiences of African Muslims and the corpus of African Islamic texts Introduction to Politics Robert Garner, Peter Ferdinand, Stephanie Lawson, 2020 The only introductory textbook to bring together theory comparative politics and international relations to provide the most comprehensive and global introduction to politics available
