Developing Mathematical Proficiency for Elementary Instruction Yeping Li, Roger E. Howe, W. James Lewis, James J. Madden, 2021-04-23 The need to improve the mathematical proficiency of elementary teachers is well recognized and it has long been of interest to educators and researchers in the U S and many other countries But the specific proficiencies that elementary teachers need and the process of developing and improving them remain only partially conceptualized and not well validated empirically To improve this situation national workshops were organized at Texas A M University to generate focused discussions about this important topic with participation of mathematicians mathematics educators and teachers *Developing Mathematical Proficiency for Elementary Instruction* is a collection of articles that grew out of those exciting cross disciplinary exchanges *Developing Mathematical Proficiency for Elementary Instruction* is organized to probe the specifics of mathematical proficiency that are important to elementary teachers during two separate but inter connected professional stages as pre service teachers in a preparation program and as in service teachers teaching mathematics in elementary classrooms From this rich and inspiring collection readers may better understand and possibly rethink their own practices and research in empowering elementary teachers mathematically and pedagogically as educators or researchers

The Contest Problem Book V George Berzsenyi, Stephen B. Maurer, 1997 Over the years perhaps the most popular of the MAA problem books have been the high school contest books covering the yearly American High Mathematics Examinations AHSME that began in 1950 co sponsored from the start by the MAA Book V also includes the first six years of the American Invitational Mathematics Examination AIME which was developed as an intermediate step between the AHSME and the USA Mathematical Olympiad USAMO The AIME has a unique answer format all answers are integers between 0 and 999 The editors of this volume George Berzsenyi and Stephen B Maurer were respectively the chair of the AIME and the AHSME during this period In addition to a thorough index they have added much material not included in Contest Books I IV a comprehensive guide to other problem materials world wide additional solutions dropped problems statistical information and information on test development and history
