International Guide to Student Achievement John Hattie, Eric M. Anderman,2013-01-17 The International Guide to Student Achievement brings together and critically examines the major influences shaping student achievement today There are many often competing claims about how to enhance student achievement raising the questions of What works and What works best World renowned bestselling authors John Hattie and Eric M Anderman have invited an international group of scholars to write brief empirically supported articles that examine predictors of academic achievement across a variety of topics and domains Rather than telling people what to do in their schools and classrooms this guide simply provides the first ever compendium of research that summarizes what is known about the major influences shaping students academic achievement around the world Readers can apply this knowledge base to their own school and classroom settings The 150 entries serve as intellectual building blocks to creatively mix into new or existing educational arrangements and aim for quick easy reference Chapter authors follow a common format that allows readers to more seamlessly compare and contrast information across entries guiding readers to apply this knowledge to their own classrooms their curriculums and teaching strategies and their teacher training programs Second Handbook of Research on Mathematics Teaching and Learning Frank K. Lester,2007-02-01 The audience remains much the same as for the 1992 Handbook namely mathematics education

researchers and other scholars conducting work in mathematics education This group includes college and university faculty graduate students investigators in research and development centers and staff members at federal state and local agencies that conduct and use research within the discipline of mathematics The intent of the authors of this volume is to provide useful perspectives as well as pertinent information for conducting investigations that are informed by previous work The Handbook should also be a useful textbook for graduate research seminars In addition to the audience mentioned above the present Handbook contains chapters that should be relevant to four other groups teacher educators curriculum developers state and national policy makers and test developers and others involved with assessment Taken as a whole the chapters reflects the mathematics education research community s willingness to accept the challenge of helping the public understand what mathematics education research is all about and what the relevance of their research findings might be for those outside their immediate community

Quality and Change in Teacher Education John Chi-kin Lee, Christopher Day, 2016-02-25 How teachers may be better educated for a changing global world is a challenge that faces many systems of education worldwide This book addresses key issues of quality and change in teacher education in the context of the new public management achievement agendas which are permeating teacher education structures cultures and programmes and the work of teacher educators internationally Graduate schools of education in the United States and the UK for example are making fundamental changes in the structures courses programs and faculties that prepare beginning teachers each year Drawing upon examples from the United States United Kingdom China Hong Kong Australia and elsewhere its authors provide a unique critical overview of emerging themes and challenges of raising the quality of teaching and the quality of student learning outcomes They suggest possible ways forward for teachers teacher educators researchers and policy makers as they seek to raise the quality of teaching and student outcomes whilst sustaining their moral purposes and values of equity inclusion and social justice Taken together the chapters contain informed critical discussions of normal education and teacher education of professional standards 4 2 1 post degree training PGDE versus BEd integration of subject specializations and professional education Each one provides new visions of the teacher as a professional and to cultivate high quality teachers in the West and the Greater China region For all those interested in issues of quality change and forward movement in teacher education in contexts of policy led reform this is a must read The Business Educator ,1910
