Black Theology and the Menace of Racial Apocalypse Cyril Orji, 2025-04-30 Racism evolves Black theology must be adaptable For this reason Black Theology and the Menace of Racial Apocalypse argues that racism must take centre stage in Black theology because racism is an existential dread that inevitably confronts the Black person in their existential situation This book unfolds in two interwoven steps First it delves into the complex history of Black theology examining its development across its first second and third waves This critical study expositis the discomfoting idea that something is missing and that this something makes Black theology seem a little deficient as noted in the pioneering works of James Baldwin and other contemporary thinkers challenging the hesitation to engage with ideas outside Black experience The second step draws from multidisciplinary sources including brain research on cognitive bias and psychological works on implicit bias and microaggressions Effectively utilizing the methodological work of Bernard Lonergan the book argues that incorporating white sources can enhance Black theology s articulation against racism In doing so the book demonstrates how this interpretative mechanism can help overcome societal ideological differences as well as help meaningfully address the ever evolving problem of racism for Christian theology
