Emergency Medicine John Marx,Robert Hockberger,Ron Walls,2009-09-09 In an emergency you only have one chance and usually very little time to make the right decision How can you be certain you have the knowledge you need Through six editions Rosen s Emergency Medicine has set the standard in emergency medicine offering unparalleled comprehensiveness clarity and authority Now the seventh edition places the latest knowledge at your fingertips while a more streamlined format makes it easy to find the exact information you seek more rapidly and conveniently than ever before Presents more than 1 200 exquisite color illustrations that accurately capture the real life appearance of patient symptoms and diagnostic imaging findings helping you to reach a definitive diagnosis more easily Includes Cardinal Presentations sections that provide quick and easy guidance on differential diagnosis and directed testing Presents greatly expanded coverage of emergency ultrasound and emergency gynecological disorders to place the latest knowledge at your fingertips as well as state of the art coverage of emergency ultrasound management of sepsis new airway devices updated protocols for adult and pediatric cardiac arrest STEMI and NSTEMI ACS DVT and PTE and much much more Features a streamlined format that focuses on the most need to know information so you can find answers more quickly Science & Medicine ,2002 **Scientific American Science & Medicine** ,1995 *Advanced Practice in Oncology Nursing* Esther Muscari Lin,Oncology Nursing Society,2001 This indispensable book of exercises from the ONS helps users assess and develop the core knowledge necessary for AOCN certification Content and organization is based on a blueprint of the actual AOCN exam and covers all role components Case studies with real life oncology situtaions multiple question formats and rationales help sharpen critical thinking skills essential to top performance the AOCN exam or gaining recertification An Oncologic Emergencies section covers 10 specific emergency cases *Novinky zahraniční literatury* ,2003 **Critical Care Nursing** Patricia Gonce Morton,1998 This book is organized into five parts the first two of which cover areas applicable to all critical care patients including the patient s and family s experience education pain management ethical and legal issues and the rewards and challenges of critical care nursing The third part addresses specific populations including pediatric patients pregnant women older adults and postanesthesia patients as well as interfacility transport The balance of the book is arranged by body systems and concludes with multisystem problems This is the seventh edition of a text first published in 1973 and last

published in 1994 The purpose is to present current comprehensive and practical information built on a holistic perspective of care in which the patient is the core of nursing practice This book meets a need for educating students and nurses in the critical care environment The editors objective of providing a framework for focusing on patient responses in the critical care environment is met This book is intended for students in critical care educators and clinicians This edition is also tailored to meet the needs of patients The editors are excellent authorities in critical care nursing All three are practitioners and one is both practitioner and educator The contributors and reviewers are critical care experts The illustrations are used best to understand critical care technology The graphics used for anatomy physiology and patient assessment add to the usefulness of the text The references are pertinent and current but certain specialty content would need to be updated by the reader e g medication protocols for CHF The use of color in the text is managed carefully to guide and not overpower the reader The 1997 ACLS Guidelines are in Appendix 1 The Answer Key to Study Questions appears in Appendix 2 Anatomy and physiology patient assessment and clinical management nursing research collaborative plans of care teaching and home care issues are some of the innovations presented One strength of book is how it addresses the changes associated with aging and the needs of the older adult Aging concerns are covered in one chapter and are highlighted throughout the text This edition provides current information that makes the previous edition out of date I would recommend this text for beginning critical care nurses and for undergraduate nursing students for its coverage of advanced pathophysiological concepts *Cancer Forum*, 2002 *Advanced and Critical Care Oncology Nursing* Cynthia C. Chernecky, Barbara J. Berger, 1998 This 1998 AJN Book of the Year presents unique coverage of the nursing care associated with over 40 of the most common oncologic emergencies Each chapter follows a consistent format to facilitate reference and includes a focused assessment table patient family teaching guidelines and review questions

Hematology Oncology Secrets Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has been apparent than ever. Its capability to stir emotions, provoke thought, and instigate transformation is truly remarkable. This extraordinary book, aptly titled "**Hematology Oncology Secrets**," compiled by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
