The Curious History of Love Jean-Claude Kaufmann, 2011-12-12 The one emotion that matters most to many people is the one about which social thinkers rarely speak love For many people love is the thing that matters most in their lives they are searching for love hoping to find in love a kind of happiness that they cannot find in their work or by surrounding themselves with material goods But where does this peculiar and powerful blending together of love and happiness come from and why do we find it such a compelling idea today In this short book Jean Claude Kaufmann offers a fresh account of the history of a feeling unlike any other The modern idea of love as passion was born in the 12th century but it was marginalized by the rise of a kind of instrumental calculating reason that became increasingly central to modern societies As calculating reason began to encroach on the personal domain many individuals sought to escape from it searching for happiness elsewhere As our societies become dominated by calculating reason and selfish individualism we search elsewhere for the kind of happy love that will heal all our wounds This is why we experience so many changes of heart in our personal lives at times we are coldly calculating and then a few moments later we sacrifice ourselves to love without a second thought Written by one of France's leading sociologists this highly readable book sheds new light on love and happiness and will resonate with many readers

Shards of Love María Rosa Menocal, 1994 With the Spanish conquest of Islamic Granada and the expulsion of the Jews from Spain the year 1492 marks the exile from Europe of crucial strands of medieval culture It also becomes a symbolic marker for the expulsion of a diversity in language and grammar that was disturbing to the Renaissance sensibility of purity and stability In rewriting Columbus's narrative of his voyage of that year Renaissance historians rewrote history as was often their practice to purge it of an offending vulgarity The cultural fragments left behind following this exile form the core of Shards of Love as Mar a Rosa Menocal confronts the difficulty of writing their history It is in exile that Menocal locates the founding conditions for philology as a discipline that loves origins and for the genre of love songs that philology reveres She crosses the boundaries both temporal and geographical of 1492 to recover the original medieval culture with its Mediterranean mix of European Arabic and Hebrew poetics The result is a form of literary history more lyrical than narrative and Menocal persuasively demonstrates more appropriate to the Middle Ages than to the revisionary legacy of the Renaissance In discussions ranging from Eric Clapton's adaption of Nizami's Layla and Majnun to the uncanny ties between Jim Morrison and Petrarch Shards of Love deepens our sense of how the Middle Ages is tied to our own age as it expands the history and meaning of what we call Romance philology

The Analogy of Love Gary Chartier, 2015-11-09 This book offers an overview of Christian theology

organized around the twin themes of divine and human love The book covers the traditional theological topics as well as basic questions of theological method It seeks to integrate a focus on love throughout While love is regularly canvassed as a dominant theme in Christian thought it has rarely been the focus of Christian theological construction or a constraint on theological formulation The book seeks to suggest chapter by chapter how a given topic relates to the broad theme of love The book is written in a way designed to make it accessible to university students and educated laypersons At the same time it takes positions on controverted scholarly issues and the methodological approach outlined at the beginning will be of interest to academic theologians

Law in the Courts of Love Peter Goodrich,2002-11-01 Law in the Courts of Love traces the literary history and diversity of past legal systems These minor jurisprudences range from the spiritual laws of the courts of conscience to the code and judgements of love handed down by women s courts in medieval France Professor Goodrich presents the 15th Century Courts of Love in Paris as one instance of an alternative jurisdiction drawn from the diversities of the legal and literary past Their textual records are correspondingly mixed in genre being in the form of poems narratives plays treaties and judicial decisions More broadly these studies trace certain boundaries of modern law and make up one of many forms of legal knowledge which escape today s vision of a unitary law The author believes that the unquestionable faith in a unity law and its distance from person and emotion is precisely what makes impossible the attention to the individual that justice ultimately requires Law in the Courts of Love shows how the historical diversity of forms and procedures of law can competently form the basis for critical revisions of contemporary legal doctrine and professional practice This book will be of interest to undergraduate and postgraduate students of law and literature critical legal studies and legal history or anyone wishing to specialise in feminist legal theory
