manufacturer and an analysis of what went wrong What really happened at British Leyland BL Was it just the cars or were other factors vital to the story Who really was to blame for BL and MG Rover's death The truth about BL is deeper than its cars were ultra Left wing plots to topple BL and British society real Did secret deals and political intrigue really exist Was it Labour or Conservative powers who killed BL or was it BL itself How was it that BL's design genius was hobbled Author Lance Cole lifts the bonnet on BL and presents a forensic yet easy to read new analysis in a story of BL its cars and the era of their motoring as powers on the political Left and Right waged war sometimes even with themselves Here is a book about cars and more a conversation on all things BL this is a new account of a classic British story told across a trail of evidence in a British industrial and political drama Many mistakes made BL but some of the cars were superb the designs of genius the engineering excellent it is just that we have either forgotten or been brainwashed into believing the worst In a BL book like no other written by a classic car fanatic with a background in industrial design automotive and wider journalism this story lifts the lid on BL's cars and more The author also adds inside knowledge from time working in the motor industry Lance Cole tells the deeper BL story across the era of its greatest successes and its biggest failures An important and overdue book well researched which will find a welcome place on the shelves of transport academics and motoring aficionados alike The Journal of the Road Transport History Association Cole's engaging and informal writing style makes things very readable and helps us untangle a lot of the more complex shenanigans that went on With fifty colour and fifty monochrome pictures it's well illustrated too Thoroughly recommended for its astute insight whether you're a BL fan or not Car Mechanics The Emerging Asian Auto Markets, 1996 **Industrial Marketing** Mukerjee, 2009 Leadership Shastras Pradeep Chakravarthy, 2022-10-24 History is the past Surely it's irrelevant today Is it though What if history could be made to work for us in very real ways In Leadership Shastra Pradeep Chakravarthy does just that He studies the lives of well known historical figures like Shivaji Babur Ahilyabai Holkar Sankaradeva and many others with a view to understand their motivations actions and legacies The book examines how developing a comprehension of our past could be the key to understanding our own selves our actions motivations and of those around us This view of history as both useful and inspirational is unconventional it is revealed here as a discipline that can be used for self assessment and self motivation Engaging and enthralling this is a book that will leave history buffs with much to think about as much as it will serve as an introduction to the newbie *India's Motor Industry* Milena Graziano, 1989 **The History of Indian Business** Prakash Narain Agarwala, 1985 Corporate Saving Behaviour Kailash Chandra Biswal, 2007 Corporate saving is one of the most significant source of funds for financing corporate growth It has both micro as well as macro significance In spite of such dual importance of this decision problem the theoretical determinants of corporate savings are less well established and this is an area in which very little research has been done so far The present work is an effort in this direction The main highlights of the present work in context to General Engineering Industry are In general engineering industry saving decision is

considered as a primary decision variable in the firm's policy framework. Saving decision of firms is primarily governed by profit after tax, a measure of firm's capacity to save. Previous year's dividend is very often taken into account by firms as an important determinant while framing their saving policy. Investment demand has a significant influence on the saving decision of firms. External finance is negatively related to the saving decision of firms. Increase in interest payment would induce firms to rely more on corporate saving.

Indian Diaspora in the Persian Gulf States Prakash C. Jain, 2025-08-15

Indian Diaspora in the Persian Gulf States focuses on the historical as well as the contemporary aspects of the Indian diaspora of the region where small Indian merchant communities called Banians already existed for centuries. Persian Gulf countries emerged as rentier states since the 1970s mainly due to the development of the oil industry which transformed the region from subsistence to globalized capitalist economies. In these economies, the role of sponsored Indian expatriate immigrants numbering at least 20 million during the past half century was vitally important. Taking the rentier state as the theoretical perspective, the author argues that the sponsorship/kafala system tended to have a different impact on the Indian expatriates' incorporation and promotion of the entrepreneurs and professionals as business elites and the perpetual exploitation of the working classes. The book is not only the first ever definitive and comprehensive work on the Indian diaspora in the nine countries of the Gulf region; it also stands as the author's final statement on his three odd decades of research and writing on the subject. Besides highlighting the role of Indian diaspora, the book also profiles all the Gulf-based recipients of the Pravasi Bharatiya Samman Awards. Bilateral trade, investment and political relations between India and individual Persian Gulf states constitute another focus area of the volume. The volume will be an interesting read for teachers, researchers and policy makers connected with migration and diaspora studies, labour studies, political economy, international relations and geopolitics.
