Adversaries into Allies Bob Burg, 2013-10-31 The sages asked Who is mighty and answered That person who can control their own emotions and make of an enemy a friend In the bestselling book *The Go Giver* Bob Burg and John David Mann revolutionized the way we think about success via one very simple lesson Shifting one's focus from getting to giving constantly and consistently providing value to others is both very fulfilling and the most profitable way to do business Now Burg is back with a new book offering deeper insight about what it means to be truly influential and providing powerful strategies for mastering the art of persuasion Faced with the task of persuading someone to do what we want most of us expect and often encounter resistance We see the other person as an adversary and often resort to coercion or manipulation in order to get our way But while this approach might at times bring us short term results it leaves people with a bad feeling about themselves and about us At that point our relationship with the person is weakened and our influence dramatically decreased There is a better way Drawing on his own experiences and the stories of other influential people Burg offers five simple principles of what he calls ultimate influence the ability to win people to your side in a way that leaves everyone feeling great about the outcome and about themselves Control your own emotions Responding calmly rather than allowing your emotions to get the better of you will ensure not putting the other person on the defensive but rather help them remain open to your ideas Understand the clash of belief systems Every individual operates based on an unconscious set of beliefs experiences and ideas which are most likely very different from yours Understand this and you can avoid confusion and numerous misunderstandings that stand in the way of most people's ability to influence Acknowledge their ego People want to feel good about themselves if you make someone genuinely feel good you're one step closer to making an ally Set the proper frame People react and respond to other people Approach potential conflicts from a position of benevolence resolution and helpfulness and they will follow suit Communicate with tact and empathy While the first four principles are vital this is what brings it all home Saying the right thing at the right time makes all the difference in terms of moving people to your side of the issue and taking the appropriate

action that benefits all concerned In the tradition of Dale Carnegie s How to Win Friends and Influence People and Robert Cialdini s Influence Burg offers a tried and true framework for building alliances at work at home and anywhere else you seek to win people over

Stand Out Networking Dorie Clark,2015-06-09 Few professional activities are as nerve wracking as networking There s the paralyzing prospect of entering a room full of strangers The awkward introductions and stilted small talk The concern that networking means you have to exploit others for personal gain or might appear that way It s no wonder so many talented professionals eschew networking altogether Unfortunately that means they re limiting their chances of making the kind of great personal and professional connections that can expand their worldview enrich their lives and yes even lead to new business opportunities That s why it s time to reclaim networking It doesn t have to be the province of users and takers instead as Forbes and Harvard Business Review contributor Dorie Clark makes clear in this short and actionable guide networking done right is nothing like the stereotype It s not about making shallow insincere connections and filling your wallet with business cards Instead the real goal is to turn brief encounters into mutually beneficial and lasting friendships in both your personal and professional life Drawing on wisdom from her own experience and from experts like psychologist Robert Cialdini marketer Michael Katz and authors Judy Robinett and Keith Ferrazzi Clark provides valuable insight on how to be a good networker including concrete tips on how to Turn initial small talk into meaningful exchanges Unlock the power of social media as a networking tool Transform casual online contacts into real world connections Make the most of conferences Set a schedule for keeping in regular touch with your network Repair and strengthen troubled relationships Create your own events and become a connector Whether you re an introvert or extrovert and whether you currently relish or loathe making new connections Clark will teach you the strategies you need to make networking fun joyful and enriching
