Institution of Mechanical Engineers,1923 World Yearbook of Education 2003 Jill Bourne,Euan Reid,2003-12-16 The issues raised by the role of language in education are some of the most important and contentious faced by education systems across the globe Language is embedded in the concepts of nationhood and identity and is therefore directly linked to the very social and political fabric of a country In a climate of increasing globalisation development and mobility of populations nations around the world are concerned with the tension between cultivating a sense of cultural and linguistic cohesion and making use of the linguistic diversity that exists in every country and region This book examines the implications and impacts the dilemmas and potential for language education in relation to education systems and wider society Split into three key parts it considers current issues in language education including the role of language in maintaining power and inequalities in encouraging participation and inclusion and in challenging the status quo different approaches to language education around the world the potential for language to provide opportunities for the disadvantaged illustrated by case studies of three cities This recent volume of the internationally respected World Yearbook of Education continues the tradition of offering a wide range of international perspectives from leading commentators on a universal concern The material amassed here will be essential reading for teacher educators education researchers and school leaders across the world **The South African Truth Commission** Dorothy C. Shea,2000 In the latter half of the 1990s South Africa's Truth and Reconciliation Commission TRC offered the country the chance to build a better future by facing up to its past Amid saturation media coverage victims of human rights abuses told their harrowing stories and perpetrators confessed to horrendous acts Meanwhile the commissioners grappled with decisions that would not only apportion responsibility and grant or deny amnesty but also have a profound political and social impact To this highly charged controversial subject Dorothy Shea brings a rare combination of objectivity thoroughness and a firm grasp of both the principles and the political interests at stake She begins by investigating the origins of the TRC in South Africa's transition from apartheid to democracy and she examines the extent to which it learned from the experiences of earlier Latin American commissions Then she focuses on how the politics of the TRC were played out in issues such as amnesty reparations and prosecutions Her report on the TRC offers a generally positive assessment and explains not only how South Africa measured up but also why Finally Shea draws lessons from the TRC experience that may help to inform future efforts to shape and establish truth commissions in other transitional societies The National Union Catalog, Pre-1956 Imprints Library of Congress,American Library Association. Committee on Resources of American Libraries. National Union Catalog Subcommittee,1980 *Social Work in Social Change* Nicci Earle,2008 This study forms part of a series of studies on professions and professional education being conducted by the HSRC's research programme on Education Science Skills Development It follows a pilot study on medical doctors published in 2006 entitled Doctors in a Divided Society The profession and education of medical practitioners in South Africa Like the other studies in the series this study involved developing an understanding of the professional milieu

and professional labour market of social workers As the implementers of government social policy social work professionals have been at the forefront of grappling with the practicalities of the changes in focus approach and methods of social security and social service delivery since 1994 It examines developments in the education and training of social workers within the democratic dispensation the most significant of which is the development of a national standardised Bachelor of Social Work degree The study also reveals that the dominant profile in student enrolment and graduation statistics has changed from white female to African female and that enrolment has increased significantly However the study also shows that graduation trends have been negative and losses due to emigration are an additional concern Given the scarcity of these professionals against the demand for their services understanding the factors that contribute to this picture are critical to effective intervention **South African Theatre Journal** ,2003
