Agriculture And Rural Development Strategy In Myanmar:

Revitalized agriculture for balanced growth and resilient livelihoods: Toward a rural development strategy for Mon State Filipski, Mateusz J., Nischan, Ulrike, Van Asselt, Joanna, Belton, Ben, Kennedy, Adam, Hein, Aung, Dorosh, Paul A., Boughton, Duncan, 2017-05-05 This report offers specific policy and investment options articulated around two broad areas 1 stimulating growth in agriculture and sustainable management of fisheries and 2 providing public infrastructure and services that strengthen the enabling environment A plan to stimulate growth in agriculture and fisheries the first broad area could be centered around the following set of goals revitalize the rubber sector develop high value fresh products improve rice productivity modernize land and input markets expand access to loans for machinery and seasonal input purchases strengthen agricultural extension services to ensure dynamism in Mon State's farm sector improve management of marine capture fisheries and facilitate expansion of aquaculture The first part of the report details the challenges and potential solutions presented by each of these points The second part of the report details options to create a growth enabling environment through public infrastructure and services centered around the following goals improve the budgetary and fiscal process to enable locally driven public investment improve access to and reliability of infrastructure expand the formal credit market promote productive investment by the private sector strengthen regulatory frameworks for the construction sector exploit the potential for the development of tourism and improve the quality of and access to education and health services

The Myanmar Economy Konosuke Odaka, 2015-11-11 With motivated human resources and a rich natural bounty Myanmar is expected to take off with sustained growth and eventually attain a unique welfare state On the basis of the authors field surveys and innumerable dialogues with public officials private professionals scholars and others in addition to intensive desk studies since around 2000 the present volume lays out the essential ingredients for drawing a roadmap to realise the above mentioned objective That goal is specifically financial development adequate social capital indigenous modern manufactures and closer international tie ups among others but above all sound agrarian development An effort has been made to place the required ingredients in their historical contexts as historical experiences constitute an important sociopolitical condition in which development takes place Myanmar nationals and readers concerned with the country's economic progress are encouraged to give serious sustained thought to coming up with a socially supportable roadmap for the country's development path The present volume provides valuable hints for that purpose Based on 0 rating(s) Title Revitalized agriculture for balanced growth and resilient livelihoods Center for Economic and Social Development (CESD), International Food Policy Research Institute (IFPRI), Michigan State University, 2016-09-20 The purpose of this report is to provide national and state level policymakers private sector investors civil society and donors with an analysis of the rural economy of Mon State and pathways to improved prosperity for its population The analysis is based on a representative survey of rural households which make up 73 percent of Mon State's 2 million residents and extensive interviews with

farmers traders processors local leaders and government officials Whereas some parts of the Mon State economy are quite dynamic such as construction others are stagnant and far from reaching their full potential Furthermore the dynamic sectors are heavily dependent on remittances from migrants to neighboring countries The current pattern of donor investment is heavily focused on necessary infrastructure and energy investments but with only very limited support to productive sectors especially agriculture and fisheries Major investments in education both formal and vocational training are also necessary to support the growth of a modern economy The analysis in this report identifies options for more balanced growth leading to a vibrant economy in which returning migrants can invest and find employment

Livelihood resilience and the agrifood system in Myanmar: Implications for agriculture and a rural development strategy in a time of crisis Myanmar Agriculture Policy Support Activity (MAPSA),2023-08-24 Myanmar s agrifood system has proven surprisingly resilient in the face of multiple crises COVID 19 the military coup economic mismanagement global price instability and widespread conflict with respect to production and exports Household welfare has not been resilient however High rates of inflation especially food price inflation have resulted in dietary degradation across all house hold groups especially those dependent on casual wage labor Among household members young children experience the highest rates of inadequate dietary quality Expanded social protection to improve access to better quality diets for vulnerable households and individuals is therefore needed Beyond the current political crisis increased public and private investment in a more efficient and dynamic agrifood system should be a high priority This will help drive down poverty rates and ensure access to healthy diets in the near term while laying the foundation for sustained growth and structural transformation of the economy

North Korea and Myanmar Andray Abrahamian,2018-02-20 North Korea and Myanmar Burma are Asia s most mysterious tragic stories For decades they were infamous as the region s most militarized and repressed societies self isolated and under sanctions by the international community while from Singapore to Japan the rest of Asia saw historic wealth creation and growing middle class security For Burma the threat was internal insurgent factions clashed with the government and each other For North Korea it was external a hostile superpower the United States and a far more successful rival state South Korea occupying half of the Korean peninsula Over time Myanmar defeated its enemies giving it space to explore a form of democratization and openness that has led to reintegration into international society Meanwhile North Korea s regime believes its nuclear arsenal the primary reason for their pariah status is vital to survival

OECD Development Pathways Multi-dimensional Review of Myanmar Volume 3. From Analysis to Action OECD,2016-06-23 Myanmar is in need of a structural transformation from an agrarian economy to one based more on a mix of modern activities including manufacturing and services Modernising the agricultural sector by building linkages to complementary non agricultural activities an agricultural value chain

Myanmar's agrifood system: Historical development, recent shocks, future opportunities Boughton, Duncan,Belton, Ben,Lambrecht, Isabel B.,Masias, Ian,Minten, Bart,2024-10-16 Myanmar has endured multiple crises in

recent years including COVID 19 global price instability the 2021 coup and widespread conflict that have disrupted and even reversed a decade of economic development Household welfare has declined severely with more than 3 million people displaced and many more affected by high food price inflation and worsening diets Yet Myanmar's agrifood production and exports have proved surprisingly resilient Myanmar's Agrifood System Historical Development Recent Shocks Future Opportunities provides critical analyses and insights into the agrifood system's evolution current state and future potential This work fills an important knowledge gap for one of Southeast Asia's major agricultural economies one largely closed to empirical research for many years It is the culmination of a decade of rigorous empirical research on Myanmar's agrifood system including through the recent crises Written by IFPRI researchers and colleagues from Michigan State University the book's insights can serve as a to guide immediate humanitarian assistance and inform future growth strategies once a sustainable resolution to the current crisis is found that ensures lasting peace and good governance **Routledge**

Handbook of Contemporary Myanmar Adam Simpson, Nicholas Farrelly, Ian Holliday, 2018-03-05 After decades of mismanagement and direct military rule Myanmar's contested transition to a more democratic government has rapidly shifted the outlook in this significant Southeast Asian nation Since 2011 the removal of Western sanctions and new foreign investments have resulted in high rates of economic growth and an expanding middle class albeit from a very low base In a result unthinkable a few years earlier former political prisoner and Nobel laureate Aung San Suu Kyi and her party the National League for Democracy NLD formed a national government in early 2016 However despite significant political and economic reforms since the liberalisation process commenced the transition to civilian rule remains constrained by the military's 2008 Constitution which guarantees that it operates unfettered by civilian oversight As a result although some ethnic conflicts have abated others continue to fester and new conflicts have erupted With a daunting task ahead the NLD government has made some progress in removing the vestiges of repressive military era laws but many remain untouched and some of the practices of the new government provide unwelcome reminders of its authoritarian history This timely Handbook describes the political economic and cultural dimensions of this crucial period of transition in Myanmar It presents explanations for contradictory trends including those that defy some of the early narratives about the comprehensive transformation of Myanmar The Handbook also considers the impact of major environmental strategic and demographic trends which help underscore that Myanmar's development will be an ongoing task In addition to introductory and concluding chapters by the editors the body of the Handbook is divided into seven core sections Fundamentals Spaces Cultures Living Governance International Challenges Written by an international team of scholars with a mix of world leading established academics and talented emerging researchers the Handbook provides a rigorous scholarly overview of Myanmar's politics economics and society As Myanmar opens to Western businesses and government agencies this is an invaluable reference book that will provide a foundation for further research and offer the first port of call for scholars students and

policy makers working on Myanmar and Asia *Agricultural Trade between China and the Greater Mekong Subregion Countries* Jayant Menon, Vathana Roth, 2022-06-21 This book provides new insights into the important and developing agricultural value chains including on current constraints and the enormity of opportunities emanating in the dynamic GMS especially through to their main giant market of China Analysis in the GMS countries forms comparable case studies of major crops using mappings of their key processes and actors as well as both qualitative and quantitative data including primary data collection such as from new surveys The analysis uses understandable methodologies such as graphical cross country comparisons and established ratios such as on comparative advantage to provide useful insights into GMS agricultural value chains A particular focus in the case studies is better understanding of the role Non Tariff Measures NTMs might play in constraining agricultural exports to China and approaches to addressing these that are more inclusive and economically rewarding I recommend this valuable book to those interested in agricultural trade in GMS countries and China as well as the characteristics of their agricultural value chains and their contribution to these countries development Dr Ray Trewin Former Fellow ANU and editor of *Crucial Agricultural Policy* World Scientific 2016 The Greater Mekong Subregion encompasses several open dynamic latecomer economies Over the past thirty years they have benefited immensely from the restoration of peace their re engagement with the regional and global economies and the rise of China The region as a whole is a net food exporter with a strong comparative advantage in agriculture How they manage their international commercial relations with China in particular will significantly influence their future socio economic dynamics The authors and contributors all leading researchers in the field are to be congratulated for this timely and authoritative volume that comprehensively examines the issues and charts a productive way forward A must read for anybody interested in these important issues and countries Professor Hal Hill H W Arndt Professor Emeritus of the Southeast Asian Economies ANU

across those countries as well as their current and potential biological resources Each wetland is analyzed by a regional expert Written with UN sustainable development goals in mind Wetlands of Tropical and Subtropical Asia and Africa includes information on Recommendations for the sustainable management of wetlands in the Asian and African tropics The importance of sustaining local economic livelihoods in each wetland region by providing food resources as well as recreational opportunities Wetland ecosystem services including carbon sequestration water filtration nutrient retention and flood mitigation Threats to the integrity of each wetland region as well as management strategies and practical conservation and restoration measures Wetlands of Tropical and Subtropical Asia and Africa is an essential reference on the subject for ecologists conservation scientists hydrologists and environmental and water resource managers Governmental agencies and professionals in fisheries agriculture and rural development will also find value in the book Seeds for Diversity and Inclusion Yoshiaki Nishikawa, Michel Pimbert, 2022-02-12 This open access book will contribute to a more nuanced debate around seed system resilience that goes beyond the dominant dichotomous conceptualization of seed governance often characterized as traditional vs modern subsistence vs commercial or local vs global While reflecting on the expanding oligopoly in the current seed system the authors argue that such classifications limit our ability to critically reflect on and acknowledge the diverse approaches through which seed governance is practiced around the world at various scales creating a mosaic of dynamic complementarities and autonomies The authors also highlight the importance of this much needed dialogue through case studies of seed governance approaches and practices found in and around Japan *The agricultural transformation and market integration in ASEAN region responding to food security and inclusiveness concerns: Summary report of a regional policy forum, Phnom Penh, Cambodia, December 13–14, 2018* International Food Policy Research Institute (IFPRI), This summary report includes i summary of presentations at the forum ii material from presentation documents presented at the forum iii remarks by commentators that have been transcribed and edited iv summary notes of discussions in each session and iv miscellaneous information such as the list of participants agenda and presentations International Food Policy Research Institute IFPRI 2019 The agricultural transformation and market integration in ASEAN region responding to food security and inclusiveness concerns Summary report of a regional policy forum Phnom Penh Cambodia December 13 14 2018 Washington DC International Food Policy Research Institute IFPRI <https://ebrary.ifpri.org/digital/collection/p15738coll2/id/136319> *Rural livelihoods in Mon State: Evidence from a representative household survey* Filipski, Mateusz J., Van Asselt, Joanna, Nischan, Ulrike, Belton, Ben, Htoo, Kyan, Win, Myat Thida, Hein, Aung, Kham, L. Seng, Naing, Zaw Min, Payongayong, Ellen, Boughton, Duncan, 2017-05-05 The purpose of this report is to provide information and analysis to government civil society and donors interested in improving the well being of the rural population of Mon State Myanmar Specifically the report analyzes the different sources of income for rural households as well as their socioeconomic characteristics with a view to helping identify constraints on growth and potential pathways to improving

incomes The overall picture that emerges is one of a struggling agricultural sector and an economy heavily dependent on services for local employment and on international migration for income The analysis is based on a sample of 1 632 rural households designed to be representative of rural households in Mon State as a whole The survey included a household questionnaire and a community survey and gathered information on demographics all economic aspects of the household and access to infrastructure and services at the community level

Development Centre Studies Towards Greener and More Inclusive Societies in Southeast Asia OECD,2024-03-11 Understanding the effects of both climate change and green growth policies on jobs and people is thus essential for making the transition in Southeast Asia an inclusive one The study explores these issues with emphasis on the potential effects on labour of an energy transition in Indonesia and of a transition in the region s agricultural sector illustrated by a simulated conversion from conventional to organic rice farming

Myanmar's Long Road to National Reconciliation Trevor Wilson,2006 In late 2004 Myanmar s best known general and long serving leader of the military regime was suddenly dismissed This generated widespread uncertainty throughout the country and raised questions about the future This book addresses some of the issues

An evolving paradigm of agricultural mechanization development: How much can Africa learn from Asia? Diao, Xinshen, ed.,Takeshima, Hiroyuki. ed.,Zhang, Xiaobo, ed.,2020-12-07 Agricultural mechanization in Africa south of the Sahara especially for small farms and businesses requires a new paradigm to meet the needs of the continent s evolving farming systems Can Asia with its recent success in adopting mechanization offer a model for Africa An Evolving Paradigm of Agricultural Mechanization Development analyzes the experiences of eight Asian and five African countries The authors explore crucial government roles in boosting and supporting mechanization from import policies to promotion policies to public good policies Potential approaches presented to facilitating mechanization in Africa include prioritizing market led hiring services eliminating distortions and developing appropriate technologies for the African context The role of agricultural mechanization within overall agricultural and rural transformation strategies in Africa is also discussed The book s recommendations and insights should be useful to national policymakers and the development community who can adapt this knowledge to local contexts and use it as a foundation for further research
