Prince Ghazi Bin Muhammad,2020
 The present book aims to take on this challenge by looking at the major problems from these various aspects as just mentioned Obviously one short book can hardly address all these problems and suggest solutions without certain simplifications and potentially controversial assertions Nevertheless it can hope to present a systematic analysis and suggested prognosis based on a coherent philosophy As indicated above nothing is more needed in our times and second to spiritual weakening the greatest problem of all facing the Islamic World and indeed the whole world is lack of understanding of the true natures and essences of things This book examines our times from an Islamic philosophical worldview looking at the problems facing the Islamic World in the near past present and future respectively in three mutually complementary parts At the end of each part it suggests holistic and easily applied remedies to the problems it examines In other words and for those who enjoy sonorous German and Greek philosophical terms it examines the Zeitgeist from the Weltanschauung of Islam and suggests panaceas Prince Ghazi bin Muhammad has written a number of books and guides for thinking people and this small but potent work before you sums up many of his most keen and cogent insights and conclusions for that reason this may be his most impactful and motivational work to date *The Biographical Dictionary of the Society for the Diffusion of Useful Knowledge*-- Society for the Diffusion of Useful Knowledge (Great Britain),1842
