Eco-finance Paul A. U. Ali, Kanako Yano, 2004-01-01 Market based environmental instruments are the most creative of the many initiatives devised to combat air and water pollution and promote biodiversity Among these none has attracted more attention than the burgeoning trade in environmental allowances and credits Originally developed in the United States around 1990 these varieties of tradable instruments were globally validated by the Kyoto Protocol of 1997 which explicitly contemplates the buying and selling of environmental allowances and credits among both sovereign states and corporate entities Despite U S opposition to the Kyoto Protocol global trading in pollution instruments is growing at an exponential rate with instruments representing

over 70 million tonnes of greenhouse gas emissions estimated to have been traded in 2003 *Eco Finance* is the first in depth legal analysis of this extraordinary hybrid of environmental regulation and global financial markets It deals with what are currently the two dominant types of market based environmental instruments market traded environmental instruments which include the tradable pollution allowances envisaged by the Kyoto Protocol and environmental financing instruments which include the emerging class of environmental and socially responsible investment funds Among the numerous topics and issues treated by Ali and Yano are the following the cap and trade regime debt for environment swaps forestry securitisations greenhouse gas emissions markets carbon funds and swaps tradable green certificates weather derivatives duty to hedge climatic risks catastrophe bonds protected cell companies the prudent investor rule and ethical security indices The authors deal searchingly with the critical legal issues that arise in connection with these market based environmental instruments such as the danger that courts might recharacterise underlying risk transfer agreements as illegal insurance products For this reason and for its wealth of practical theoretical and informational detail *Eco Finance* will be of enormous value to a broad range of legal governmental and business professionals including environmental regulators securities regulators financial market professionals institutional and other fiduciary investors corporate risk managers and investment fund managers as well as practitioners and academics in both environmental law and financial law

New Models for Managing Longevity Risk Olivia S. Mitchell,2022-02-04 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Notwithstanding the terrible price the world has paid in the coronavirus pandemic the fact remains that longevity at older ages is likely to continue to rise in the medium and longer term This volume explores how the private and public sectors can collaborate via public private partnerships PPPs to develop new mechanisms to reduce older people s risk of outliving their assets in later life As this volume shows PPPs typically involve shared government financing alongside private sector partner expertise management responsibility and accountability In addition to offering empirical evidence on examples where this is working well contributors provide case studies discuss survey results and examine a variety of different financial and insurance products to better meet the needs of the aging population This volume will be informative to researchers plan sponsors students and policymakers seeking to enhance retirement plan offerings

The Economics, Regulation, and Systemic Risk of Insurance Markets Felix Hufeld,Ralph S. J. Koijen,Christian Thimann,2016-10-28 Despite the importance of insurance in enabling individual and collective social economic and financial activities discussions about the macroeconomic role and risks of insurance markets are surprisingly limited This book brings together academics regulators and industry experts to provide a multifaceted array of research and perspectives on insurance its role and functioning and the potential systemic risk it could create The first part discusses the macroeconomic role of insurance and how insurance is different from banking and general finance Understanding the differences between the balance sheets of insurers and other financial intermediaries is essential for understanding the potential differences in risk nature and optimal regulation The second part of the book focuses on the risks managed by the

insurance sector and the potential for systemic risk The chapters discuss the risks both on the asset and liability sides of insurers balance sheets The third part of the book covers the impact of regulation on insurance companies Existing regulation is often complex and has a large impact on insurance companies decision making and functioning The chapters also illustrate the unintended consequences of various forms of regulation The book concludes with a summary of a survey that has been conducted in collaboration with McKinsey where insurance executives have been asked about the risks and regulation in the insurance sector The survey provides guidance for future research on insurance markets The Wolf at the Door Michael J. Graetz, Ian Shapiro, 2020-02-18 Americans face economic hardship but respond with fantastical solutions from tax cut magic to the end of capitalism Michael Graetz and Ian Shapiro focus on what truly worries people their own insecurity The authors propose concrete reforms affecting jobs unemployment health care and wages and share strategies to achieve changes people need *Equity Capital* Geoffrey Poitras, 2016-04-20 Capitalism is historically pervasive Despite attempts through the centuries to suppress or control the private ownership of commercial assets production and trade for profit has survived and ultimately flourished Against this backdrop accounting provides a fundamental insight the value of physical and intangible capital assets that are used in production is identically equal to the sum of the debt liabilities and equity capital that are used to finance those assets In modern times this appears as the balance sheet relationship In determining the value of items on the balance sheet equity capital appears as a residual calculated as the difference between the value of assets and liabilities Through the centuries the organization of capitalist activities has changed considerably dramatically impacting the methods used to value trade and organize equity capital To reflect these changes this book is divided into four parts that roughly correspond to major historical changes in equity capital organization The first part of this book examines the rudimentary commercial ventures that characterized trading for profit from ancient times until the contributions of the medieval scholastics that affirmed the moral value of equity capital The second part deals with the evolution of equity capital organization used in seaborne trade of the medieval and Renaissance Italian city states and in the early colonization ventures of western European powers and ends with the emergence in the market for tradeable equity capital shares during the 17th century The third part begins with the 1719 1720 Mississippi scheme and South Sea bubbles in northern Europe and continues to cover the transition from joint stock companies to limited liability corporations with autonomous shares in England America and France during the 19th century This part ends with a fundamental transition in the social conception of equity capital from a concern with equity capital organization to the problem of determining value The final part is concerned with the evolving valuation and management of equity capital from the 1920s to the present This period includes the improvement corporate accounting for publicly traded shares engendered by the Great Depression that has facilitated the use of value investing techniques and the conflicting emergence of portfolio management methods of modern Finance Equity Capital is aimed at providing material relevant for academic presentations of equity valuation history

and methods and is targeted at researchers academics students and professionals alike Health planning reports subject index United States. Health Resources Administration,1979 **Holistic Health Healing & Astrosciences - Vol. II ,**
