Teaching Yourself Social Theory David Harris, 2002-12-13 Social theory is a very difficult subject to teach and it is one that students generally find hard to get to grips with Teaching Yourself Social Theory offers a highly original and comprehensive resource that will be welcomed by students and teachers alike Barry Smart University of Portsmouth I have no hesitation in recommending Harris text to students and teachers of social theory Sociology This refreshing and accessible text demonstrates how social theory can be made into an intelligible discourse that touches upon key aspects of everyday life The abstraction and formalism of much contemporary social theory is criticized as unnecessarily scholastic for the beginner The author maintains that the main problems in studying the subject are not intrinsic to social theory but derive from how the subject is taught as a university discipline This lively book uses non specialist terms to introduce more complex themes and incorporates a Website with questions and reading guides to some of the classic works

English Journal ,1995 **Reading Mystery Science Theater 3000** Shelley S. Rees,2013-05-09 First broadcast in the not too distant past on a television station in Minnesota Mystery Science Theater 3000 soon grew out of its humble beginnings and found a new home on cable television This simple show about a man and two robots forced to watch bad movies became a cult classic and episodes of the series continue to be packaged in DVD collections to this day Before its final run the show received Emmy nominations and a Peabody award for Television excellence and in 2007 Time magazine declared MST3K one of The 100 Best Shows of All Time In Reading Mystery Science Theater 3000 Critical Approaches Shelley S Rees presents a collection of essays that examines the complex relationship between narrative and audience constructed by this baffling but beloved television show Invoking literary theory cultural criticism pedagogy feminist criticism humor theory rhetorical analysis and film and media studies these essays affirm the show s narrative and rhetorical intricacy The first section Rhetoric and the Empowered Audience addresses MST3K s function as an exercise in rhetorical resistance Part Two Mystery Science Theater 3000 and Genre analyzes MST3K through distinct generic traditions including humor studies traditional science fiction tropes and the B movie Finally the third section addresses postmodern and intertextual readings of the show By providing an academic treatment of an iconic television phenomenon these essays argue that Mystery Science Theater 3000 is worthy of serious scholarly attention Though aimed at a discerning readership of academics this collection will also appeal to the intellectual nature of the show s well educated audience Monthly Bulletin St. Louis Public Library,1916 *The Congregationalist and Christian World* ,1905 The Global Wordsworth Katherine Bergren,2019-05-24 The Global Wordsworth charts the travels of William Wordsworth s poetry around the English speaking world But as Katherine Bergren shows Wordsworth s afterlives reveal more than his influence on other writers his appearances in novels and essays from the antebellum U S to post Apartheid South Africa change how we understand a poet we think we know Bergren analyzes writers like Jamaica Kincaid J M Coetzee and Lydia Maria Child who plant Wordsworth in their own writing and bring him to life in places and times far from his own and then record what happens By working beyond narratives of British influence Bergren highlights a more complex dynamic of international response in which later writers engage Wordsworth in conversations about slavery and gardening education and daffodils landscapes and national belonging His global reception critical appreciative and ambivalent inspires us to see that Wordsworth was concerned not just with local English landscapes and people but also with their changing place in a rapidly globalizing world This study demonstrates that Wordsworth is not tangential but rather crucial to our understanding of Global Romanticism Published by Bucknell University Press Distributed worldwide by Rutgers University Press *Scenographic Imagination* Darwin Reid Payne,1993 In this enlarged and thoroughly revised third edition of his widely used text Darwin Reid Payne explores the principles and philosophies that shape the visual elements of theatre Payne sets out to discover who scenographers are and to define their responsibilities He sees scenographers as not merely craftspersons but artists with a special vision that spans

all the arts Such artists are in a position to extend and amplify underlying meanings of the production The proper goal of beginning scenographers according to Payne is one day to be able to approach the job as artists in full command of their craft Payne seeks to instill in beginning scenographers a basic core of knowledge an understanding of theatre history and the development of drama a knowledge of art history and an understanding of periods and styles of architecture painting sculpture furnishings and costume and a familiarity with the principles techniques and materials of pictorial and three dimensional design This new edition contains 248 illustrations 38 more than the second edition Payne s goal certainly is to teach students what to do and how to do it equally important however is Payne s view that scenographers must know why To Payne Scenography is an art whose scope is nothing less than the whole world outside the theatre Scenographers must read not only in their own field but in others as well Payne has incorporated into his text many suggestions for outside readings quoting passages and even entire chapters from important works Stressing research Payne argues that without knowledge of the literature of their own and related arts scenographers cannot grow And that is the emphasis of this book to present aspiring scenographers with an approach and a set of concepts that will enable them to grow Toward that end Payne establishes five priorities the first of which is to develop in students what he calls time vision or the ability to see the historical past as a living place with living inhabitants The second priority is to bring about an awareness that allows students to see beneath the surface of objects and events Third students must be helped to recognize and appreciate the difference between the concept of space as it exists outside the theatre and the concept of space as it is used within the theatre The fourth priority is to ingrain in students an understanding of the importance of imagery to the scenographer and the final priority is to teach those technical skills necessary to carry out the concepts of the scenographer
