American life. Con CD Audio. Per le Scuole superiori Vicky Shipton, 2008 The Logic of the Cold War Tian-jia Dong, 2018-08-24 The Cold War revealed for the first time in human history the logic of human togetherness which indicated that it was not only necessary for nation states to live together but also possible for them to do so The necessity was because of the inescapably shared vulnerability of mutually assured destruction not only in terms of security but more so in economic well being and political stability The possibility was due to the unipolar world structure sustained by the global governance web of interdependent partnership which worked powerfully between the power agents to ensure the best of all possible world This latent governance system was both hierarchical and dynamic because its power was connective in the sense that power was rooted in one another and the ability to be interdependent by empowering other power agents and sharing vulnerability at the same time was the way of becoming the nucleus on the global web of interdependent partners and hence gaining power in transforming one another connectively and governing the world collectively George Kennan s patience in building up hard and soft powers within individual power agents of the web and Wilson Roosevelt s institutionalization of collective power above each power agents contributed to the construction of the system The Soviet big brotherly governing type was proven a failure List of Library Books and Supplementary Readers South Carolina. The Hidden History of Coaching Leni Wildflower, 2013-03-16 This book gives you the real story on who came before us and how we built on the learning to evolve coaching as an emerging profession It s interesting exciting and a little bit scary to see some of the antics that brought us here Yet the honesty and openness within this book and the commentary by the writer demonstrates the values and beliefs we hold as coaches It brings clarity to the past and it strengthens the framework for what s possible as we continue forward Diane Brennan MBA MCC Past President International Coach Federation 2008 Leni Wildflower s book provides an answer to the question What are the roots of coaching This answer contributes to addressing the follow up questions What are the theoretical underpinnings of coaching and How can the underlying theories shape my practice as a coach If you are looking for the answer to any of these questions read this book David Megginson Emeritus Professor of HRD Sheffield Business School UK This book is unique It offers readers both an inside perspective about the names who have made coaching and a critical analysis of the ideas theories and concepts which have shaped coaching as the leading personal development strategy for the 21st century Leni s clear writing style offers the reader a ring side seat for this journey through the history of coaching Professor Jonathan Passmore Evora University Coaching s greatest strengths and its greatest weaknesses lie in its emergence in different guises with different philosophies within a short space of time In classic Darwinian fashion it has grown rapidly but its mongrel origins make it almost impossible to pin down Hence the continuing problem of conducting meaningful empirical research when what you try to measure is constantly morphing Leni Wildflower has pulled together many of these threads to weave a tapestry of the evolution of coaching theory and practice Wisely she seeks to describe rather than evaluate and in doing so has produced a volume that will be of immense value in coach training

David Clutterbuck David Clutterbuck Partnership UK As coaches we need to know where our core ideas come from
 Furnished with such knowledge we have access to a much more flexible toolkit and are in a better position to judge where
 and when to call on one technique rather than another Many of the psychological theories and therapies and the social and
 spiritual movements out of which coaching has evolved remain relatively unknown and unacknowledged They constitute our
 Hidden History This immensely readable book fills a serious gap in our understanding of the origins of coaching It is unique
 in tracking not just the tangled roots of contemporary coaching practice but also in giving insights into the founders and
 developers of these earlier approaches to human development quirky individuals and brilliant theorists many with flaws and
 foibles and heroic personal stories Fascinating in themselves these narratives contribute to a richer understanding of our
 shared principles Reagan Edwin Meese III,2015-10-26 Former attorney general Edwin Meese III offers unequaled insight
 on the career and policies of his friend and former boss Ronald Reagan From Reagan s days as governor of California to his
 two terms in the White House Meese was his highest ranking political confidant the official closest to Reagan not only
 through length of service but also through mutual comprehension of the problems that concerned the nation Meese tells the
 Reagan story as it happened refuting many common misconceptions about America s fortieth chief executive and providing
 new revelations about the Iran Contra affair the so called Boland amendments and more **Slavery, Surveillance, and
 Genre in Antebellum United States Literature** Kelly Ross,2022-12-09 Slavery Surveillance and Genre in Antebellum
 United States Literature argues for the existence of deep often unexamined interconnections between genre and race by
 tracing how surveillance migrates from the literature of slavery to crime gothic and detective fiction Attending to the long
 history of surveillance and policing of African Americans the book challenges the traditional conception of surveillance as a
 top down enterprise equally addressing the tactics of sousveillance watching from below that enslaved people and their allies
 used to resist escape or merely survive racial subjugation Examining the dialectic of racialized surveillance and sousveillance
 from fugitive slave narratives to fictional genres focused on crime and detection the book shows how these genres share a
 thematic concern with the surveillance of racialized bodies and formal experimentation with ways of telling a story in which
 certain information is either rendered visible or kept hidden Through close readings of understudied fugitive slave narratives
 published in the 1820s and 1830s as well as texts by Edgar Allan Poe Herman Melville Frederick Douglass Hannah Crafts
 and Harriet Jacobs Ross analyzes the different ways white and black authors take up these issues in their writing from
 calming white fears of enslaved rebellion to abolishing slavery and demonstrates how literary representations ultimately
 destabilize any clear cut opposition between watching from above and below In so doing the book demonstrates the
 importance of race to surveillance studies and claims a greater role for the impact of surveillance on literary expression in
 the US during the era of slavery *Divergent Visions, Contested Spaces* Jeffrey Hotz,2021-04-29 This multicultural project
 examines fictional and non fictional accounts of travel in the Early Republic and antebellum periods Connecting literary

representations of geographic spaces within and outside of U S borders to evolving definitions of national American identity the book explores divergent visions of contested spaces Through an examination of depictions of the land and travel in fiction and non fiction the study uncovers the spatial and legal conceptions of national identity The study argues that imagined geographies in American literature dramatize a linguistic contest among dominant and marginal voices Blending interpretations of canonical authors such as James Fenimore Cooper Frederick Douglass Richard Henry Dana Jr and Herman Melville with readings of less well known writers like Gilbert Imlay Elizabeth House Trist Sauk Chief Black Hawk William Grimes and Moses Roper the book interprets diverse authors impressions of significant spaces migrations The movements and regions covered include the Anglo American migration to the Trans Appalachian Valley after the Revolutionary War the 1803 Louisiana Purchase and Anglo American travel west of the Mississippi the Underground Railroad as depicted in the fugitive slave narrative and novel and the extension of American interests in maritime endeavors off the California coast and in the South Pacific

The Making of a Bestseller Arthur T. Vanderbilt, 1999-01-01 Writer F Scott Fitzgerald s career itself is a metaphor for the vagaries of book publishing If Fitzgerald would have had his way we would today refer to The Great Gatsby as either Gold Hatted Gatsby Trimalchio in West Egg or The High Bouncing Lover A few years before Gatsby Fitzgerald had become a literary sensation at the age of 23 Helen Hooven Santmyer a contemporary of Fitzgerald s would not have a successful novel published until she was 88 and living in a nursing home In this book the author explores that mysterious place in publishing where art and commerce can either clash mesh or both Along the way a wide range of authors from the literary greats to today s commercial superstars editors agents and publishers share their thoughts insights and experiences What inspires writers John Steinbeck for example wrote every novel as if it were his last as if death were imminent Why are some books successful and appreciated while others fall into oblivion The answers are often elusive never absolute but the stories and anecdotes are always fascinating
