Vindicating the Founders Thomas G. West, 2000-11-28 According to the conventional wisdom of our time our nation s Founders were guilty of racism sexism and elitism They were hypocrites who failed to live up to their own enlightened principles The fact that Washington and Jefferson held slaves is taken as definitive proof that they never really believed all men are created equal It is also widely asserted that women even after the American Revolution enjoyed virtually no rights and that the poor and property less were denied the basic tenets of democratic participation Observing that our understanding of the Founders so profoundly influences our opinion of contemporary America Thomas West demonstrates why the Founders were indeed sincere in their belief of universal human rights and in their commitment to democracy More importantly this landmark book explains why their views and particularly the constitutional order they created are still worthy of our highest respect In a straightforward style West debunks numerous widely held myths about the Founders political thought He contrasts the Founders ideas of liberty and equality with today s concluding that contemporary notions of liberalism bear almost no resemblance to the concepts originally articulated by the Founders This controversial convincing and highly original book is important reading for everyone concerned about the origins present and future of the American experiment in self government

Balancing the Budget is a Progressive Priority Donald H. Taylor, Jr., 2012-04-23 Progressives need a balanced federal budget more than Conservatives because they believe that government has an important role to play in modern life Lack of a long term plan to move toward a sustainable budget crowds out short term Progressive priorities infrastructure spending green technology education and needed governmental interventions in the short term to support and improve our weak economy The federal budget is unsustainable For all the bluster of the debt ceiling debate the plan passed so far does not address the changes most obviously needed if we are to ever have a balanced budget again an increase in taxes and the next steps on health reform to address the biggest driver of our long term budget deficit health care costs Slowing the rate at which health care costs are growing is a necessary but not a sufficient condition to developing a long range balanced budget You should ask any politician saying they think a balanced budget is a priority one question what is your health reform plan Without one they have no hope of achieving their goal This book offers progressives solutions to health care reform and a balanced budget and will be of interest to academics students and educated readers interested in politics public policy and government finance
