Missionaries and the Colonial State David Whitehouse, 2022-08-12 Catholic and Protestant missionaries followed their own competing agendas rather than those of the colonial state This volume unravels these agendas and challenges received wisdom on the histories of Rwanda and Burundi as well as the colonial relationship between state and mission The archives of the White Fathers Catholic missionary order in Rome and Paris are read alongside primary sources produced by the British Protestant Church Missionary Society to analyse their impact between 1900 and 1972 in Rwanda and Burundi The colonial state was weaker than often assumed and permeable by external radical influences Denominational competition between Catholic and Protestant missionaries was a key motor of this radicalism The colonial state in both kingdoms was a weak reactive agent rather than a structuring form of power This volume shows that missionaries were more committed and influential actors but

their inability to manage the mass demand for the education that they sought and delivered finally undermined the achievement of their aims Missionaries and the Colonial State is a resource for historians of Christianity Belgian Africa specialists and scholars of colonialism **History of the Church in Namibia, 1805-1990** G.
