Dil, 2022-02-24 Haruki Murakami a global literary phenomenon has said that he started writing fiction as a means of self therapy What he has not discussed as much is what he needed self therapy for This book argues that by understanding more about why Murakami writes and by linking this with the question of how he writes readers can better understand what he writes Murakami's fiction in other words can be read as a search for self therapy In five chapters which explore Murakami's fourteen novels to date this book argues that there are four prominent therapeutic threads woven through Murakami's fiction that can be traced back to his personal traumas most notably Murakami's falling out with his late father and the death of a former girlfriend and which have also transcended them in significant ways as they have been transformed into literary fiction The first thread looks at the way melancholia must be worked through for mourning to occur and healing to happen the second thread looks at how symbolic acts of sacrifice can help to heal intergenerational trauma the third thread looks at the way people with avoidant attachment styles can begin to open themselves up to love again the fourth thread looks at how individuation can manifest as a response to nihilism Meticulously researched and written with sensitivity the result is a sophisticated exploration of Murakami's published novels as an evolving therapeutic project that will be of great value to all scholars of Japanese literature and culture Nuclear Ghost Ryo Morimoto, 2023-04-25 There is a nuclear ghost in Minamima This is how one resident describes a mysterious experience following the 2011 nuclear fallout in coastal Fukushima Investigating the nuclear ghost among the graying population Ryo Morimoto encounters radiation's shapeshifting effects What happens if state authorities scientific experts and the public disagree about the extent and nature of the harm caused by the accident In one of the first in depth ethnographic accounts of coastal Fukushima written in English Nuclear Ghost tells the stories of a diverse group of residents who aspire to live and die well in their now irradiated homes Their determination to recover their land cultures and histories for future generations provides a compelling case study for reimagining
