Agenda To Change Our Condition Hamza Yusuf:

Agenda to Change Our Condition Hamza Yusuf, Zaid Shakir, 2013-08-29 This book is a concise treatise on the path to conscious awareness of our Lord The Muslim tradition considers this the primary reason for our existence and the means by which we are ensured continued succor from our Creator This classic volume elucidates a simple yet effective means to transform our inner world through spiritual struggle with our soul **A Thinking Person's Guide to Our Times** H.R.H. Prince Ghazi Bin Muhammad, 2020 The present book aims to take on this challenge by looking at the major problems from these various aspects as just mentioned Obviously one short book can hardly address all these problems and suggest solutions without certain simplifications and potentially controversial assertions Nevertheless it can hope to present a systematic analysis and suggested prognosis based on a coherent philosophy As indicated above nothing is more needed in our times and second to spiritual weakening the greatest problem of all facing the Islamic World and indeed the whole world is lack of understanding of the true natures and essences of things This book examines our times from an Islamic philosophical worldview looking at the problems facing the Islamic World in the near past present and future respectively in three mutually complementary parts At the end of each part it suggests holistic and easily applied remedies to the problems it examines In other words and for those who enjoy sonorous German and Greek philosophical terms it examines the Zeitgeist from the Weltanschauung of Islam and suggests panaceas Prince Ghazi bin Muhammad has written a number of books and guides for thinking people and this small but potent work before you sums up many of his most keen and cogent insights and conclusions for that reason this may be his most impactful and motivational work to date **Muslim Subjectivities in Global Modernity**, 2020-03-09 With critical reference to Eisenstadt's theory of multiple modernities Muslim Subjectivities in Global Modernity discusses the role of religion in the modern world The case studies all provide examples illustrating the ambition to understand how Islamic traditions have contributed to the construction of practices and expressions of modern Muslim selfhoods In doing so they underpin Eisenstadt's argument that religious traditions can play a pivotal role in the construction of historically different interpretations of modernity At the same time however they point to a void in Eisenstadt's approach that does not problematize the multiplicity of forms in which this role of religious traditions plays out historically Consequently the authors of the present volume focus on the multiple modernities within Islam which Eisenstadt's theory hardly takes into account Contributors are Philipp Bruckmayr Neslihan Kevser Cevik Dietrich Jung Jakob Krais Mex J rgensen Kamaludeen Nasir Zacharias Pieri Mark Sedgwick Kirstine Sinclair Fabio Vicini and Ahmed al Zalaf **Modern Muslim Theology** Martin Nguyen, 2018-08-10 This book aims to bring Muslim theology into the present day Rather than a purely academic pursuit Modern Muslim Theology argues that theology is a creative process and discusses how the Islamic tradition can help contemporary practitioners negotiate their relationships with God with one another and with the rest of creation

An American Muslim Guide to the Art and Life of Preaching Sohaib Sultan, 2023-03-07 An American Muslim Guide to the

Art and Life of Preaching explores the art and craft of creating effective Islamic sermons and delivering them with care passion and integrity The life of the preacher is also addressed and a model of spiritual formation is provided for those serving Muslim communities of faith in positions of religious leadership Sultan s vision and approach to preaching is holistic This book is as much about the knowledge and care placed behind a sermon as it is about the tone tenor and shape of that sermon It is as much about the character of the person delivering these words as it is about the nature and shape of the words themselves It is as much about tending to the people of faith that fill the worship space as it is about the aesthetics and arrangement of that same space This means that this book on preaching is not meant for preachers alone It was written for us all whether we are called to address and care for a congregation or we are one of the many called to be part of one While the book is clearly written for Muslim preachers and Islamic preaching many of the insights in the book could easily apply to preaching in Christian or other settings Reflecting on a theology of the spoken word in the Islamic tradition Martin Nguyen remarks that the sermon in and of itself is not automatically worthy of praise Rather its value for the life of faith is measured by its message its mode of delivery and the model of living that accompanies it An appendix to the book includes a collection of du s or supplicatory prayers that were composed and delivered by women from the Princeton Muslim Life Community

Political Quietism in Islam Saud al-Sarhan,2019-12-26 In recent years Islam whether via the derivatives of Political Islam or Islamism has come to be seen as an activist force in social and political spheres worldwide What such representations have neglected is the strong countervailing tradition of political quietism Political quietism in Islam holds that it is not for Muslims to question or oppose their leaders Rather the faithful should concentrate on their piety prayer religious rituals and personal quest for virtue This book is the first to analyze the history and meaning of political quietism in Islamic societies It takes an innovative cross sectarian approach investigating the phenomenon and practice across both Sunni and Shi i communities Contributors deconstruct and introduce the various forms of political quietisms from the time of the prophetic revelations through to the contemporary era Chapters cover issues ranging from the politics of public piety among the women preachers in Saudi Arabia through to the legal discourses in the Caucasus the different Shi i communities in Iran Lebanon Iraq and Pakistan and the G len movement in Azerbaijan The authors describe a wide range of political quietisms and assess the continuing significance of the tradition both to the study of Islam and to the modern world today
