Ahead Of All Parting The Selected Poetry And Prose Rainer Maria Rilke:

Ahead of All Parting Rainer Maria Rilke, 1995-08-01 The reputation of Rainer Maria Rilke has grown steadily since his death in 1926 today he is widely considered to be the greatest poet of the twentieth century This Modern Library edition presents Stephen Mitchell s acclaimed translations of Rilke which have won praise for their re creation of the poet s rich formal music and depth of thought If Rilke had written in English Denis Donoghue wrote in The New York Times Book Review he would have written in this English Ahead of All Parting is an abundant selection of Rilke s lifework It contains representative poems from his early collections The Book of Hours and The Book of Pictures many selections from the revolutionary New Poems which drew inspiration from Rodin and Cezanne the hitherto little known Requiem for a Friend and a generous selection of the late uncollected poems which constitute some of his finest work Included too are passages from Rilke s influential novel The Notebooks of Malte Laurids Brigge and nine of his brilliant uncollected prose pieces Finally the book presents the poet s two greatest masterpieces in their entirety the Duino Elegies and The Sonnets to Orpheus Rilke s voice with its extraordinary combination of formality power speed and lightness can be heard in Mr Mitchell s versions more clearly than in any others said W S Merwin His work is masterful

Short Voyages to the Land of the People Jacques Rancière, 2003 This work reads a series of texts and journeys across class lines and shows how the image of the people functions in them as a point of reference unto which the observer projects a conceptual framework based on the observer s own circumstances

Indigenous Difference and the Constitution of Canada Patrick Macklem, 2001-12-15 There is a unique constitutional relationship between Aboriginal people and the Canadian state a relationship that does not exist between other Canadians and the state It s from this central premise that Patrick Macklem builds his argument in this outstanding and significant work Why does this special relationship exist What does it entail in terms of Canadian constitutional order There are Macklem argues four complex social facts that lie at the heart of the relationship First Aboriginal people belong to distinctive cultures that were and continue to be threatened by non Aboriginal beliefs philosophies and ways of life Second prior to European contact Aboriginal people lived in and occupied North America Third prior to European contact Aboriginal people not only occupied North America they exercised sovereign authority over persons and territory Fourth Aboriginal people participated in and continue to participate in a treaty process with the Crown Together these four social conditions are exclusive to the Aboriginal people of North America and constitute what Macklem refers to as indigenous difference Exploring the constitutional significance of indigenous difference in light of the challenges it poses to the ideal of equal citizenship Macklem engages an interdisciplinary methodology that treats constitutional law as an enterprise that actively distributes power primarily in the form of rights and jurisdiction among a variety of legal actors including individuals groups institutions and governments On this account constitutional law refers to an ongoing project of aspiring to distributive justice disciplined but not determined by text structure or precedent Far from threatening equality constitutional protection of

indigenous difference promotes equal and therefore just distributions of constitutional power The book details constitutional rights to Aboriginal people that protect interests associated with culture territory sovereignty and the treaty process and explores the circumstances in which these rights can be interfered with by the Canadian state It also examines the relation between these rights and the Canadian Charter of Rights and Freedoms and proposes extensive reform of existing treaty processes in order to protect and promote their exercise Macklem s book offers a challenge to traditional understandings of the constitutional status of indigenous peoples relevant not only to Canadian debates but also to those in other parts of the world where indigenous peoples are asserting greater autonomy over their collective futures

History and Its Objects Peter N. Miller, 2017-03-01 Weaving together literary and scholarly insights History and Its Objects will prove indispensable reading for historians and cultural historians as well as anthropologists and archeologists worldwide Nathan Schlanger cole nationale des chartes Paris Cultural history is increasingly informed by the history of material culture the ways in which individuals or entire societies create and relate to objects both mundane and extraordinary rather than on textual evidence alone Books such as The Hare with Amber Eyes and A History of the World in 100 Objects indicate the growing popularity of this way of understanding the past In History and Its Objects Peter N Miller uncovers the forgotten origins of our fascination with exploring the past through its artifacts by highlighting the role of antiquarianism a pursuit ignored and derided by modern academic history in grasping the significance of material culture From the efforts of Renaissance antiquarians who reconstructed life in the ancient world from coins inscriptions seals and other detritus to amateur historians in the nineteenth century working within burgeoning national traditions Miller connects collecting whether by individuals or institutions to the professionalization of the historical profession one which came to regard its progenitors with skepticism and disdain The struggle to articulate the value of objects as historical evidence then lies at the heart both of academic history writing and of the popular engagement with things Ultimately this book demonstrates that our current preoccupation with objects is far from novel and reflects a human need to reexperience the
