PART ONE READING AND INTERPRETING (15 pts)

Read the text carefully and do the activities

Numidia (202 BC - 25 BC) was an ancient Berber kingdom in North Africa and is no longer in existence today. It was located on the eastern border of modern day Algeria, bordered by the Roman province of Mauritania (western border of modern Algeria) to the west, the Roman province of Africa (modern day Tunisia) to the east, the Mediterranean sea to the North and the Sahara Desert to the south. Its earliest inhabitants, the Numidians, were divided into tribes and clans and were racially indistinguishable from the other Berber inhabitants of early North Africa. From the 6th century BC, points along the coast were occupied by the Carthaginians, who by the 3rd century BC had expanded into the interior as far as Thevesta (Tébessa).

The name of Numidia was first applied by Polybius and other historians during the 3rd century BC to indicate the territory west of Carthage, including the Entire Maghreb as far as the river Mulucha (Muluya), about 100 miles west of Oran. The Numidians were conceived of as two great tribal groups: the Massyli in eastern Numidia, and the Massaesyli in the west. The Numidians were semi-nomadic Berber tribes who lived in Numidia, in Algeria, east of Constantine and in part of Tunisia and Morocco. The Numidians were one of the earliest natives to trade with the settlers of Carthage.

The inhabitants remained semi-nomadic until the reign of Massinissa, the chief of the Massyli tribe living near Cirta (Constantine). During the second Punic War he was initially an ally of Carthage, but he went over to the Roman side in 206 BC and was given further territory extending as far as the Mulucha River. For nearly 50 years Massinisa retained the support of Rome as he tried to turn the Numidian pastoralists into peasant farmers. He also seized much Carthaginian territory and probably hoped to rule all North Africa.

Algerian Languages in Education Salim Bouherar,Abderrezzaq Ghafsi,2022-01-03

This book examines the role of foreign languages and cultures in the Algerian educational system highlighting how cultural imperialism and supremacy persist through damaging language ideologies and the privileging of colonial languages such as French and English The authors challenge the claim that the Algerian educational system can be considered neutral arguing instead that it was and still is the outcome of a conflict between Arabised and Francophone elites serving strategic and ideological objectives rather than cultural or pedagogical goals This book will be relevant to students and scholars of language education language policy and planning and the history and politics of the Arab and Muslim world especially those interested in the influence of Western languages and cultures and the democratisation of educational systems
