Journalism Education in Countries with Limited Media Freedom Beate Ursula Josephi, 2010 Journalism education surrounded by media tsunamis continues to expand as a crucial area of professional and academic life. It gets to the roots of media society relations. This volume gives important food for thought to the problematic classification of countries to free partly free and not free. Kaarle Nordenstreng University of Tampere Book Jacket **Oman 1974 - 2022/23** Anthony Axon, Susan Hewitt, 2025-07-31 The seventh in the CAIW series, this title draws on the 50 years of experience of Cambridge-based World of Information. During most of the period covered, Oman was ruled by Sultan Qaboos bin Said, overcoming several handicaps including modest hydrocarbon revenues and during the first years of Qaboos's reign a rebellion in the southern province of Dhofar. The latter was often described as a full-blown war with the neighbouring People's Democratic Republic of the Yemen (PDY) and its Soviet supporters. Nevertheless, this strategically located, mostly Ibadhi sect Sultanate has developed from a medieval into a modern state. **Area Handbook for the Hashemite Kingdom of Jordan** Systems Research Corporation, American University (Washington, D.C.). Foreign Area Studies, 1969 *The Palestinian Strategic Report 2011/12* Dr. Mohsen Mohammad Saleh, 2013-06-25 This annual referential report has become an essential classic in the academic realm of Palestinian Studies. It includes the latest and most recent statistical and analytic data on the various developments related to the Palestinian issue. Al-Zaytouna Centre for Studies: the lack of a unified strategic vision, the failure to agree on the priorities for national action in the current stage and the continuing conflict between the strategies of resistance and negotiated peace. This is in addition to the fact that Palestinian decision-making centers remain in disarray, coming under pressure from the Israeli occupation in the WB and Israeli blockade in GS. As regards reconciliation, PSR 2011/12 argues that steps towards achieving it will continue to stumble, expressing little optimism regarding the legislative and presidential elections and the elections for the Palestinian National Council (PNC). Furthermore, there remain significant hurdles before the reformation of the PLO and the security forces, where the insistence of the Palestinian Authority (PA) in Ramallah on maintaining a high level of security coordination with Israel remains the biggest obstacle to achieving real Palestinian reconciliation. As concerns Israel, the PSR states that 2011/12 did not witness any significant changes in relation to its internal political landscape, except the fact that the Israeli society has continued to lurch to the extreme right in general, in tandem with increased racist manifestations targeting the Palestinians. Of 1948, the PSR discounted the possibility of the negotiations making any serious breakthroughs in the remainder of 2012, especially as the causes and factors leading to the failure of the efforts to resume negotiations remain extant, chiefly as a result of Israeli ongoing settlement activities, reduced American interest in the Palestinian issue in light of the preoccupation with the presidential elections and continuing changes unfolding in many Arab countries, most notably Egypt. At the Arab level, PSR 2011/12 indicates that the Palestinian cause was not absent from the agendas of the Arab uprisings of 2011/12, albeit it was not prominently present in them either. The

emergence of democratic systems that reflect the will of the populaces and with the rise of political factions that are faithful to the Palestinian cause and are not subservient to foreign agendas hope remains that the Palestinian question will receive more attention from these new regimes With respect to international affairs the report concludes that international diplomatic efforts concerning the Palestinian question declined further in 2011-12 as a result of several factors and developments These include the uprisings and transformations in several Arab countries the resurging tension surrounding the Iranian nuclear program and the prospects of a military confrontation and the repercussions of the global financial crisis which has particularly hit countries in the European Union PSR 2011-12 points out that 2012 marks the year of the US presidential elections during which American diplomatic efforts in the Middle East traditionally wane while the stances of both the Democratic and Republican parties converge towards the Israeli position with a view to win over the Jewish vote The report also collates many statistics concerning Israeli violations at various levels including the fact that 118 Palestinians had been killed by the Israeli forces and settlers in GS and the WB including Jerusalem in 2011-12 while 554 Palestinians and international solidarity activists were wounded On the other hand Israel Security Agency ISA recorded 21 Israeli deaths in the same year as a result of attacks carried out by Palestinians while 122 Israelis were wounded On the subject of settlement building the PA Information Center Concerning Colonization and Annexation Wall Affairs in the Ministry of State recorded the existence of 474 settlement sites in the WB until the end of 2011 including 184 settlements 171 unauthorized outposts 26 other settlement sites and 93 buildings which were partially or fully appropriated by the settlers in East Jerusalem In addition PSR 2011-12 draws attention to the fact that the pace of attacks in Jerusalem has been surging year after year to stress that the battle for the Judaization of the Holy City remains Israel's first priority in conjunction with a trend of growing obsession with the Jewishness of the state dominating public thinking in the state of Israel The report also adds that 2011 saw a marked upsurge in attacks against Islamic and Christian holy sites in Palestine by Jewish extremists and Israel mostly as part of the price tag wave of attacks by settlers in the WB As for demographic indicators the number of Palestinians in the world stood at the end of 2011 at about 11.22 million people with half of whom i.e. 5.63 million 50.1% living in the Diaspora The other half i.e. 5.6 million people 49.9% live in historic Palestine including around 1.37 million in the territories occupied in 1948 and 4.23 million people in the WB and GS According to PSR 2011-12 if current population growth levels of both Palestinians and Jews remain the same the populations of Palestinians and Jews in historic Palestine will equalize in 2016 when the number of both Jews and Palestinians will be approximately 6.4 million In 2020 the Jewish population will be 6.9 million and will represent about 48.9 percent of the total population compared to 7.2 million Palestinians Concerning economic indicators in the WB and GS the report states that 2011 did not see any new developments concerning the direct dependency of the Palestinian economy in the WB and GS on the Israeli economy or the fact that this economy is isolated from the Arab world and the rest of the world owing to Israel's control of all international ports and Palestinian border

crossings This is in addition to the fact that Palestinian foreign trade is mostly done with Israel PSR 2011 12 also highlights the enormous disparity between the economic conditions of the Palestinians in the WB and GS on one hand and those of the Israelis on the other Indeed the per capita income in 2011 was 1614 in the WB and GS around 1981 in the WB and 1073 in GS compared to 31 291 in Israel The GDP in the WB and GS reached around 6 34 billion in 2011 while the Israeli GDP totaled 242 92 billion

division and achieve real reconciliation on the ground It needs to resolve many obstacles through cooperation between the different parties away from external interventions and pressures On the Israeli level the Report mentions that 2010 has continuously witnessed the inclination of the Israeli society towards the extreme right It further notes the absence of any breakthroughs in 2011 especially in the light of Israel's rejection for the negotiations with President Mahmud Abbas The agreement signed with Hamas and the PA's attempts to obtain international recognition of the Palestinian State in September 2011 hindered such negotiations On the international level the PSR says that the international diplomatic efforts towards the Palestinian issue have failed again in 2010 They could not achieve any significant progress regarding the peace settlement track or the siege imposed on the Gaza Strip Moreover PSR 2010/11 includes a large number of figures and statistics on Israeli violations on different levels During 2010/98 Palestinians were killed in the West Bank and Gaza Strip including Jerusalem by Israeli forces and settlers while 967 Palestinians and international solidarity activists were wounded On the other hand Israel's internal security service mentioned that during 2010/9 Israelis were killed and 28 were wounded in operations carried out by the Palestinians Concerning settlement building the Report shows that despite the 10 month Israeli moratorium on settlement building Israel established 1819 buildings apartments in 133 settlements all over the West Bank including Jerusalem in addition to 1433 mobile homes caravans PSR 2010/11 also discusses the increased Israeli attacks on the Islamic and Christian holy sites in Jerusalem and historic Palestine during 2010 It further shows that the developments during that year revealed that the Judaization of Jerusalem has become the primary battle for Israel due to the obsession with the Jewishness of the state dominating the Israeli mind Concerning demographic indicators PSR 2010/11 mentions that at the end of 2010 the number of Palestinians around the world was around 11.14 million people More than half of them i.e. 5.75 million 51.6% live in Diaspora while the rest i.e. 5.39 million 48.4% live in historic Palestine The latter are distributed by 1.28 million people in the territories occupied in 1948 and 4.11 million in the 67 territories The Report mentions that if the current growth rates of the Palestinians and the Jews persist the number of Palestinians and Jews will become on par by 2017 where each will reach around 6.53 million Thus in 2020 around 49.2% of the population will be Jews as their number will reach 6.87 million compared to 7.09 million Palestinians Regarding the economic indicators in the West Bank and the Gaza Strip the Report shows that events during 2010 has not affected the direct dependence of the Palestinian economy on the Israeli economy In addition the isolation of the Palestinian economy from the outside world continued due to the Israeli control of all international exits and Palestinian border crossings besides the Palestinian foreign trade PSR 2010/11 also refers to the enormous difference between the Palestinian economy in the West Bank and the Gaza Strip on one hand and the Israeli economy on the other Thus it shows for example that in 2010 the Palestinian GDP per capita was 1500 around 1925 in the West Bank and 877 in the Strip compared to 28,500 in Israel In addition the GDP amounted to 5.73 billion for the Palestinians compared to 217.13 billion for the Israelis
