Gender, and Midwifery in Early Modern Italy Jennifer F. Kosmin,2020-08-31 Authority Gender and Midwifery in Early
Modern Italy Contested Deliveries explores attempts by church state and medical authorities to regulate and professionalize
the practice of midwifery in Italy from the late sixteenth to the late eighteenth century Medical writers in this period devoted
countless pages to investigating the secrets of women s sexuality and the processes of generation By the eighteenth century
male practitioners in Britain and France were even successfully advancing careers as male midwives Yet female midwives
continued to manage the vast majority of all early modern births An examination of developments in Italy where male
practitioners never made successful inroads into childbirth brings into focus the complex social religious and political
contexts that shaped the management of reproduction in early modern Europe Authority Gender and Midwifery in Early
Modern Italy argues that new institutional spaces to care for pregnant women and educate midwives in Italy during the
eighteenth century were not strictly medical developments but rather socio political responses both to long standing
concerns about honor shame and illegitimacy and contemporary unease about population growth and productivity In so doing
this book complicates our understanding of such sites situating them within a longer genealogy of institutional spaces in Italy
aimed at regulating sexual morality and protecting female honor It will be of interest to scholars of the history of medicine
